Let Hartman Feather Your Nest
HARTMAN'S LEGAL GUARANTEE

We Unreservedly Guarantee every article sold by us to be exactly as represented and described in our catalog.

We Guarantee our prices to be lower than those of any other concern for goods of equal quality.

We Guarantee to ship each and every article on approval and if within 30 days from receipt of the goods anything is not perfectly satisfactory for any reason whatever, we will accept their return, and when the goods are returned to us, we will refund all money paid on them including payment of freight charges both ways.

HARTMAN FURNITURE & CARPET CO., Chicago, Ill.

When you order goods from HARTMAN'S, you deal with a National Institution, whose success was founded on honesty, protection and integrity 61 years ago. Our Guarantee assures the same principles today. It is backed by our wonderful retail organization, our enormous Mail-Order Plant, and the indorsement of the strongest banks in the UNITED STATES.

AS TO OUR RESPONSIBILITY

THE VERY FIRST FACT WE WISH TO DRIVE HOME is that the HARTMAN FURNITURE & CARPET COMPANY was established in 1855. The year of 1916 marks our 61st anniversary. On the following pages you will find photographic reproductions of our immense Chicago mail-order plant and a few of our great chain of retail stores, forcibly illustrating our progress.

SO VAST AN ENTERPRISE AS OURS has taken sixty-one years to build and the investment of many millions of dollars. Yet, even time and money could never have accomplished such tremendous growth if we had not ALWAYS dealt fairly and honestly with our customers. Success of any kind is generally MERITED. We must GIVE in order to GET. After a fruit tree ceases to bear fruit we chop it down and use it for kindling. It is a natural LAW that if you want to succeed you must give others the BEST that is in you ALL THE TIME. That is why, after sixty-one years, we are today the LARGEST home-furnishing organization in the world. We have succeeded MOST because we have served the people BEST. The little acorn of business honesty and good faith that was implanted in the heart of our business 61 years ago, could not help but grow into the giant oak of today—because the best interests of our customers has always been our first consideration. We gave them, always, the best that was in us, in every respect. In return our customers gave us their utmost confidence and helped us to grow.

YOU HAVE EVERY RIGHT TO KNOW something about a firm and the RESPONSIBILITY of the firm you are thinking of doing business with before you pay out hard-earned money on any purchase. With this in mind let us state a few simple facts:

SUCH WONDERFUL GROWTH AND SUCCESS AS OURS CAN GROW OUT OF ONLY ONE CONDITION. Years ago we started out with the firm determination in our hearts to please and satisfy EACH and EVERY customer, no matter who they were, where they lived, or how big or small their purchase from us might be; and we have followed this policy unfalteringly in every case, regardless of possible loss to us. Then, when we started to grow and we numbered our customers in the thousands, our success did not make us less conscientious; and now, after many years, with over a million and a half customers on our books, we are PROUD to say that success has still not changed our policies. Fair, honest dealing is still our motto. It is our inseparable principle—it is the corner-stone of our business. It is even more than this—IT IS THE SECRET OF OUR TREMENDOUS SUCCESS—it is the secret for the implicit CONFIDENCE with which our customers honor us after once dealing with us; and there will be no exception anywhere at any time toward anyone. Time has taught us that it is better to have your KINDLY FEELING than your money. Therefore, you are safe, absolutely, in dealing with us, because we guarantee your satisfaction; because we are here to STAY; because you are dealing with the LARGEST HOME-FURNISHING ORGANIZATION IN THE WORLD; in fact, because it is Hartman's, which means HEADQUARTERS.

FOR OVER THREE-SCORE YEARS we have been in business. We have succeeded. We have grown to be the largest home-furnishing organization in the world. The 61st year of our business career finds us a PERMANENT establishment—AND IN BUSINESS TO STAY! By honest, square-deal methods we have grown from a modest beginning to our present unquestionable supremacy with more than a million and a half customers on our books. You will find “Hartman” homes—“The Nests that Hartman Feathered”—in every nook and corner of the United States; from the Great Lakes to the Gulf of Mexico; from the Atlantic to the Pacific Ocean. We have a combined capital of over $12,-000,000. Any bank, any newspaper, any farm paper, or magazine will testify to our responsibility, for our organization today stands out alone and supreme—a commercial giant, towering head and shoulders above any and all competition.

THE TREMENDOUS SIZE ALONE of this institution is sufficient guarantee of our honesty of purpose. The PERMANENCY of our enterprise, the FINANCIAL SOLIDITY are both irrefutable proof that time and test have found no flaw or weakness in us, and substantially proves that our honesty and responsibility are both beyond question.

DURING OUR SIXTY-ONE YEAR BUSINESS JOURNEY millions of satisfied customers have been proven conclusively and to their own satisfaction that our service was the best, most efficient and courteous; our methods and policies honorable; our ability to serve the widest in scope; our credit-system extremely generous; our values honest. Nowhere else in the world will you find another institution like this—one which has found its way so THOROUGHLY into the homes and hearts of the people.
 OUR LIBERAL CREDIT PLAN

OUR UNMATCHABLE BARGAINS AND LOW PRICES. When you look through this Catalog and compare our low prices with those of your home town dealers, you will find, “There is a reason for such high quality at such low prices.”

There is a reason for it and a GOOD one: Situated as we are in the very heart of the largest furniture market in the world, we have the finest facilities for picking the very cream of the goods on the market. Then, do not forget this: We buy in THOUSANDS where other firms or retail dealers buy in hundreds or dozens. We buy more at one time than most retail furniture houses buy in years, because we buy for our immense mail-order plant, and our great chain of retail stores. Buying this way (in the largest quantities known) we can afford to sell at a lower price than any other furniture concern in this country, and save you considerable money on almost any article you select; and you get the best that enormous buying power and experience can command.

We bring the cream of the world's furniture markets right into your own home where you can comfortably select the things you want to beautify your home, the furniture and fixtures—EVER ASSEMBLED BY ANY ONE CONCERN.

Think what this means: The world's best—the largest range for selection—brought right into your own home. No one else can give you such an UNLIMITED variety to choose from—no one else can quote you such bargain prices or such generous, easy credit terms.

REMEMBER THAT YOU CAN TAKE A YEAR TO PAY YOUR BILL IF YOU WISH IT.

A Hartman purchase means that you'll have the FINEST, the BEST that an experienced group of buyers could POSSIBLY find after thoroughly searching all through the furniture markets of the entire world.

WHAT OUR IRONCLAD, LEGAL GUARANTEE MEANS

ON THE INSIDE FRONT COVER of this catalog you will find our guarantee printed in full. Read it carefully before looking through this catalog. It is the strongest guarantee possible to frame—and protects you absolutely—you take no chance whatever—you risk nothing. We have always bought only thoroughly dependable merchandise, which we are certain we can guarantee. That is why we fully pledge ourselves to return your money and whatever freight charges you have paid both ways, if, for any reason whatsoever, you are not satisfied with your purchase; or if you find the goods unsatisfactory or misrepresented.

We are in business to STAY, and we CANT AFFORD to have dissatisfied customers. You are the sole judge and jury in this decision, too. We put the furniture in your home and you can use it, examine it, show your family, can inspect it, and judge its value and beauty. Until you say that you are satisfied with the goods we do not consider that the sale has been made.

WE EXTEND LIBERAL CREDIT TO EVERY-ONE—EVERYWHERE. Your income makes no difference. It doesn't make a particle of difference where you live or how much you earn, we extend you the invitation to beautify your home and enjoy the comforts of a finely-furnished home while you are paying for it.

On page 1 you will find our terms, giving first payment and monthly payment according to the amount of your bill. A glance will show you how EXTREMELY LIBERAL these terms are, and how easy it is to have a beautiful home and pay for it in small monthly payments which you will never miss. Hartman's is the finest modern method of extending credit known. Experience has taught us that we can trust implicitly the people who build and love their homes. We know that people who are buying home-comforts are the kind we want for customers, and the kind we are glad to trust to the fullest extent. In extending you credit we do not quibble; we do not ask questions; there is no red tape about our system whatsoever; there are NO EXTRA CHARGES of any kind; no mortgage to sign, no interest to pay, no rate of interest on your balance; no uncertainty or recommendations; we have no collectors—all payments are made by mail, and no matter if your order is small or large, it will receive the same careful, prompt and courteous attention.

OURS IS A CONFIDENTIAL, DIGNIFIED CREDIT, FREE FROM ANY AND ALL OBJECTIONABLE FEATURES.

All you have to do is to make out your order on one of our printed order-blanks and send it to us, together with the first small payment, AND THAT IS ALL THERE IS TO IT. After that you pay the small monthly payment as due.

And to FURTHER show you how liberal our system is, we add this: If monthly payments cannot always be made because of sickness or loss of employment, we will GLADLY help you out by waiting a reasonable length of time until you can pay.

It makes no difference to you whether you are or where you live, all you have to do is to write us if you are not satisfied and we will take care of any and all adjustments—and all adjustments are entirely at your option. We ask no questions; there will be no unpleasantness, no delay, no red tape, no arguments. If we can't save you money and sell you the right kind of goods at the right price and please you thoroughly, we won't argue the matter with you at all. We will return every penny you sent us, and any transportation charges you have paid out. We built this business by FAIR DEALING, and we will continue to deal FAIRLY and HONESTLY with EACH and EVERY customer. Thus you see that you risk absolutely nothing whatever in ordering anything pictured or described in this catalog.

This is our guarantee, and back of it is a 61-year honest mercantile reputation, our $12,000,000 capital, and the solemn pledge of the greatest home furnishing organization in the world. You can't have a better starting point when you deal with Hartman's. We do not want a dissatisfied customer at any price.
How to Start an Account

PLEASE REFER to the index of this catalog, which gives the page numbers of all articles we offer. Pick out the goods you want. Write your order plainly on one of our printed order blanks. Go over the order to make sure that all is clear and complete. Be careful to sign your name in full and write your address plainly. Give your post office address, name of County and State; also the railway station to which you wish your goods shipped. Give the catalog number of each article you want. When an article is listed in several sizes, state size wanted. Also mention color you desire. Figure up the total of your order, and then refer to page 1 of this catalog, which shows you how to determine your payments and how much each payment should be. We can not open a charge account for accounts less than $5.00.

Take a full Year to Pay

WE TRUST YOU ABSOLUTELY and give you plenty of time to pay for the things you select. Remember that the size of your income has no bearing whatever on the size of the order you send us. With credit as easy to get as it is from us, there is no reason in the world why you should not buy more things you have long wished for. So, if you really desire a beautiful home, this is your opportunity—SELECT FROM THIS BOOK AND SEND IN YOUR ORDERS AT ONCE.

With us. We give you a square deal, and expect a square deal from you.

All Dealings Confidential

WHEN YOU ORDER goods from us they are shipped to you marked with plain tags. We do this because, as a rule, our customers do not want their local dealer to know from whom they are buying. He gives no liberal credit, his prices are high, and his assortment does not compare with ours. This is why people prefer to buy from us, because we make our open-charge-account credit STRICTLY CONFIDENTIAL. Every precaution is taken to insure each transaction being held PRIVATE. We even address letters to you in envelopes that do not bear any mark of our being a credit-giving house. No one need feel embarrassed, however, because they buy on credit, but most people prefer to keep such affairs to themselves. Credit is a thing one should be proud of; because, it shows you are trusted and are considered honest by those who extend the credit.

How to Send Money

THE SAFEST and most satisfactory method of sending money is by POST OFFICE MONEY ORDER, Express Money Order or Bank Draft. Either of these must be made payable to the firm, using the full name as given. It is not advisable for you to send us your personal check, because there will be a charge at this end for collection. Should you send cash, it should be by registered letter. If payment is made by money order or bank draft and either should be lost in the mail a duplicate may be easily procured and the money would not be lost. If you live on a R. F. D. route, give your letter and money to the rural mail carrier. He is authorized to make the money order out to you and send it to us. Write your name EXACTLY THE SAME WAY EACH TIME YOU WRITE TO US; it will enable us to reply promptly and will eliminate mistakes.

Our Stock ready to ship

WE CARRY THE LARGEST FINISHED, READY-TO-SHIP STOCK OF HOUSE-FURNISHINGS IN THE UNITED STATES. A large percentage of the goods you order from this catalog will be shipped in one shipment, direct to you from Chicago, instead of coming from various points. All goods, whether shipped from Chicago or factories, or warehouses, are carefully inspected before being packed. We take every precaution to see that goods reach you in perfect condition. Occasionally, it is necessary to ship large, bulky articles "knocked down," shipped in a "knocked down" state, you save money on the lesser freight charge, and the large articles are easier to handle, thus saving them from possible injury.

No Cash Discount Allowed

WE QUOTE ONE PRICE to all, whether you pay us cash or buy from us on credit. This is as well as welcome to our Bargains as credit customers. It is simply impossible for us to give any discount whatever, because our catalog prices are figured with only ONE small percentage of profit added to the SPECIAL LOW FACTORY PRICES we obtain through our great quantity buying power. You pay us no middlemen's profits as this is entirely eliminated. There is NOTHING ADDED for the credit we extend, and, as our price on every article we sell is lower than that of dealers and mail-order houses, you can see that it is absolutely out of the question to allow any discount for cash.
WE ACCEPT ORDERS FOR ANY AMOUNT, but we do not open charge accounts for less than $5.00. Should you wish to order small priced items amounting to less than $5.00, please send the full amount with your order. We advise you to order goods amounting to more than $5.00, as it is more profitable to you; besides you get the advantage of our long time credit. We NEVER SHIP GOODS C.O.D., because we sell on open-charge-account, credit-terms. We take all risk by allowing customers to have full possession of the Goods before they are paid for, and after comparison and inspection, you decide not to keep them, the goods may be returned to us at our expense, as per our legal guarantee, and any money you have paid us as well as freight charges paid out by you will be promptly refunded.

CUSTOMERS PAY THE FREIGHT WHEN THEY RECEIVE THE GOODS, EXCEPT WHEN WE SHIP GOODS to any prepaid station where there is no agent to collect the freight charges, these charges must be prepaid by you. Figure the freight charges to some town near you, which is equally distant from Chicago; by referring to page 14 for table of freight rates. Look over the freight rates carefully; if your point is not mentioned take the nearest town to you as a basis, and you will have no trouble in estimating the charges. In the case of prepaid stations, include the extra amount for prepaying freight with your order so that we can prepay the freight for you. Be liberal in your freight allowance; if you send more than is required the balance left will be credited to your account.

We are MORE than glad to answer customers’ letters at ALL times; glad to give you any information about our prices, terms and freight rates. However, correspondence and time may be saved if you will READ THE INFORMATION PRINTED ON THE FRONT PAGES OF THIS CATALOG. The wish to avoid, as much as possible, all unnecessary correspondence in order to keep our expenses down so that we can always quote our low prices. It requires an enormous army of clerks to answer letters from over a million customers, and we ask you to co-operate with us by studying the information and instructions printed in this catalog. If you will observe the rules we have outlined, we feel confident we can adjust all matters satisfactorily.

OUR SHIPPING STATION HAS IMMEDIATE ACCESS TO THE TRACKS OF 24 RAILROADS and is located right in the heart of Chicago’s most important transportation center. This gives us the advantage of getting shipments out in the quickest possible time. Monstrous elevators load all outgoing freight directly into cars, switched immediately before our great merchandise building, where the goods you order are selected, inspected and carefully packed.

WE GUARANTEE SAFE DELIVERY and exercise EVERY effort to prevent the LEAST mishap or damage to goods while in transit. If, in order to completely relieve our customers of every element of risk, we take it upon ourselves to guarantee safe delivery, subject please read “DAMAGES AND ERRORS” below.

BEFORE YOU RETURN ANY GOODS, on account of error or any dissatisfaction, BE SURE TO WRITE US. State in your letter what you desire; advise us fully as to the number of articles, the date of your purchase, and your account number. We can then adjust matters to your entire satisfaction. All transportation charges in adjusting errors are paid by us. We promise you the best care and attention to every detail and guarantee to please you ABSOLUTELY and THOROUGHLY. We take all the risk, selling under LEGAL GUARANTEE of satisfaction or your money back. Our intention is that anything you buy here shall be not only satisfactory, but GOOD VALUE for your money. Big value is a part of the satisfaction we guarantee, AND WE LIVE UP TO OUR AGREEMENT.

IT IS VERY IMPORTANT that you be careful and inspect your shipment BEFORE accepting it from the transportation company. This should always be done so that they can be held responsible for damages or shortages which sometimes occur. Should you discover either, SEE THAT YOUR AGENT MAKES NOTATION ON THE CONDITION OF GOODS ON THE RECEIPT EXPENSE BILL he gives you for freight you pay.

BE SURE to have the agent write the nature of the damage or shortage, if any, in full, for with this agent’s notation on the expense bill, you are then in position to secure satisfaction. Send the expense bill with its notation, to us, and we’ll take it up immediately and do all in our power to protect you from any loss.
The Views on this and following Pages give a splendid Idea of the Immense
Size of the Hartman Concern and the completeness of its Organization

GREAT

CONCERN
Here are Interior Views of Our Administration Building

A BUSINESS CONCERN as large as Hartman's cannot afford to be SMALL in anything, nor can we afford to misrepresent anything; therefore when we unreservedly guarantee EVERYTHING we sell, and GUARANTEE your satisfaction, we KNOW that we can please you. We KNOW that we can save you considerable money on furniture, and we KNOW that after you have once dealt with us you will THINK OF HARTMAN'S when you next think of buying furniture.

It is, and always has been, A PERSONAL OBLIGATION with us to please a customer in EVERY respect, and to this we pledge ourselves fully.

THE PICTURES on this page are photographs of some of the departments of our great mail-order plant, which covers an entire city block and has a frontage on four important streets. These offices are used exclusively for the transaction of business with our vast army of customers located in cities and towns, villages and farms, all over the United States. It is here that over a million and a half happy families send orders for things they want—buying by mail, on our modern open-account-credit plan, the furnishings that make their homes beautiful, their farms profitable, their surroundings pleasant, and their lives more enjoyable.
YOU WOULD ENJOY visiting our big mail-order plant in Chicago. But, since only a few of our customers come here, we reproduce photographs of our beautiful buildings, and some of their interiors, for the benefit of all who desire to know what their present or prospective trading place looks like. If you could see these great structures and study their wonderful arrangement, we know you would be wonderfully impressed. They are the finest, most modern, best equipped mail-order merchandising buildings in the United States, and if you ever visit Chicago, we extend to you a cordial invitation to call on us and inspect our wonderful institution.

OUR MODERN OFFICES marvelous shipping facilities, convenient location and fireproof construction of our buildings, make the handling of your mail orders rapid, economical and absolutely safe. Every modern office and warehouse appliance known has been installed, permitting us to handle every order with ease and with the highest possible degree of satisfaction to our customers. All this reduces our working expenses and naturally contributes to the reduction of our prices. In every manner possible we always strive to reduce the cost of home-furnishings, and other goods we sell, to a point that no other concern can equal.
HARTMAN'S ENDORSED BY LEADING BANKS

THE BANK LETTERS PUBLISHED ON THE FOLLOWING PAGES show you CONCLUSIVELY how the prominent officials of the GREATEST, STRONGEST banks in the United States bear official and personal testimony to the financial responsibility, honest mercantile reputation, and absolute DEPENDABILITY of the Hartman Furniture & Carpet Company.

THESE EXPRESSIONS WERE MADE only after a long business acquaintance and close association; and every man and woman in the United States may accept WITHOUT QUESTION the statements of these great banks with their total of many millions of capital and surplus.

WE NOT ONLY GUARANTEE, BUT WE INSIST on your complete satisfaction in every transaction with us, and back of that pledge, is not only our enormous capital, running up into figures that are several millions of dollars MORE than any concern in our line of business, but a deep sense of our MORAL obligation as well.

IT IS AGREED, UNDERSTOOD AND GUARANTEED that all goods you order from us must measure up in every particular to our claims, and more—they must prove as MONEY-SAVING and VALUE-GIVING as we claim them to be. We leave the decision entirely in your hands.

IF YOU ARE NOT SATISFIED IN EVERY PARTICULAR in your dealings with us, you are at perfect liberty to return the goods AT OUR EXPENSE, and we will immediately, without ARGUMENT or DELAY, either send in exchange any other article you wish, or refund your money—TOGETHER WITH EVERY PENNY you have paid for freight BOTH WAYS. A fairer, squarer offer never was made by ANY firm; and you can see that you risk NOTHING in dealing with us; and you can see how genuine is our desire to make a friend of each customer.

THREE SCORE YEARS AGO WHEN WE STARTED OUR BUSINESS we knew that our success depended in a large measure upon our customers' confidence in us. We realized that it was within our power to make or break that confidence. Millions of people have since given us their utmost confidence and in return we always give them a fair and square deal and have treated them in the fairest way we know how. We will do the same by you. Send us your order and let us prove it.
HARTMAN'S IN BUSINESS TO STAY

ON PAGES 6, 7, 8, 9, 10 AND 11 YOU SEE PHOTOGRAPHS

of our great Chicago mail order plant and our chain of big retail stores in the principal cities of the United States. We show you these actual photographs that you may better realize the great size of our concern. Look at all these buildings carefully. To build up so great an enterprise has taken many years and the investment of many millions of dollars. The very vastness of this enterprise is your most binding guarantee. It means that for sixty-one years we have been here, and it means THAT WE ARE IN BUSINESS TO STAY!

IT STANDS TO REASON that such a great enterprise as ours, serving over a million and a half customers, could never have been built if we did not give the people BETTER values at BETTER prices and BETTER treatment than they could possibly get anywhere else. Since we have been in business we have made beautiful many homes for the wage-earners of the country; people in every walk of life, who were shrewd enough to avail themselves of our liberal credit terms, and enjoy a fine home, while paying for it.

SO Gigantic A SCALE OF DOING BUSINESS and our enormous growth tell their own story. WE HAVE ALWAYS MADE GOOD! We will ALWAYS make good, and we will always back up every word we say. It is worth something to know that you are sending your order and your money to a firm that has given over sixty consecutive years of successful service to the public. You take no risk—you are not EXPERIMENTING when you deal with Hartman's.
To Whom It May Concern:

It affords us much pleasure to certify to the very high standing in this community of the Hartman Furniture & Carpet Co. They have had an account with this Bank for over eleven years, and have always maintained a high standing in their credit, and our business with them has always been satisfactory.

The Company's capital is large, their financial responsibility excellent, and, in our opinion, prospective purchasers need entertain no hesitation whatever in having their orders accompanied by remittances.

The officers of the Company are very well and very favorably known to us, the business ability and their part of any contract into which they enter will undoubtedly be carried out to the letter.

Yours very truly,

President.

To Whom It May Concern:

We are pleased to state that the standing of the Hartman Furniture & Carpet Co., of this city, is excellent. They have always maintained a high standing and our business with them has always been satisfactory, and we have found that they manage their affairs on good business principles.

Yours very truly,

Vice-Prent.

To Whom It May Concern:

It is a pleasure to certify to the very pleasant relations which have existed between the Hartman Furniture & Carpet Co. and this Bank extending over a considerable period. We have always maintained high standing and our business with them has always been satisfactory.

Yours very truly,

Vice President.
TO WHOM IT MAY CONCERN:

The Hartman Furniture Company established at Peoria one of the chain stores five years ago, since which time they have done a large and successful business, with steadily increasing trade.

They have kept an excellent bank account with us, and their large cash resources enable them to purchase goods on the best advantage, thus giving the trade the benefit.

The Managers of the Company are well and favorably known to us, being men of high moral standing and excellent business ability.

We take pleasure in recommending purchasers to them, and in our opinion they need have no hesitancy in accompanying their orders with remittances, as we consider them perfectly responsible.

Very truly yours,

Frank Leuty
President.

THE BURNS NATIONAL BANK

TO WHOM IT MAY CONCERN:

The Hartman Furniture & Carpet Company have been vouched for by us for a great many years. We esteem them very highly indeed, and believe of that lasting business relationship we are in a position to speak adversely of the splendid character and large business interests of this firm. They have stores in Chicago and this city and other cities, and all their business transactions have been an unbroken record of steadfast fidelity to high business ideals.

Mr. Leon Hartman is a gentleman of high character and prowess of large wealth, and gives his entire and exceptionally able attention to this business. It affords us much pleasure to commend him to your most favorable consideration, believing we do not pay you remittances will be attended to in the entire satisfaction.

Very truly yours,

J. R. Burns
President.
The Rates Given Below are per one hundred pounds. As we could not print them all, we have selected prominent cities in various sections of each state and give the rate to those cities. If the name of your city does not appear in the table below, you may obtain a very fair idea of the rate to your city by noting the rate to the city which is situated nearest to you.

</table>
With credit as easy to get as it is from Hartman's, there is no reason in the world for people to live in poorly furnished homes. It must not be forgotten that home happiness depends on being easily and economically acquired by this broad, liberal credit plan of ours. No matter what you are—where you live—what you buy on credit from us. After you have once started dealing with us, and found out how fair and honest our methods are, we are sure that you will at no time order home furnishings elsewhere. A trial order and comparison will settle that question.

**THE CARPETS AND RUGS** shown on the following colored pages are the product of the most reliable mills which have established a wide reputation for high quality, best design and beautiful colors in floor coverings. We buy these goods at decisive savings in large lots. It is the demand of our great army of over a million customers and our enormous capital that gives us the power to buy these big bargains at a price which permits us to offer them to you at our low prices.

**WE WANT YOU TO KNOW** that not only did our mammoth purchasing power enable us to buy our present line of rugs and carpets at a saving but our prestige in the market is so great that we practically had the choice of all the new and best designs.

**WHEN YOU ORDER A RUG** carpet or any other floor covering from this catalogue you have new patterns and colorings to choose from. So that you can prove all this to your own satisfaction, you can take ample time to compare prices and quality, as we will send any rug, carpet or curtain to you for examination. All you have to do is send your order—receive and take the goods in your home—let your entire family see, use and judge them—give them any test you please—then, if you are thoroughly satisfied—satisfied that the price, quality and all are just exactly as we tell you—buy them on our liberal easy payment plan. But, if for any reason whatever, you are not pleased, return the goods to us at our expense and we will be more than glad to refund your money, including the freight charges. Our policy is to satisfy.

**THE FIRST IMPRESSION** in buying a rug or carpet is usually made by its appearance. If the pattern is pleasing and the color combinations harmonious, the sale is usually made—but greatest care should also be given in examining the actual quality of the materials that enter into the manufacture of the goods. A rug of beauty in often like human beauty, "only skin deep," but our entire business policy is based upon a more substantial foundation than appearance. We are sure of the quality before we offer the article for sale.

**THE RESULT** is that you take absolutely no chances when you buy by mail of us—you are positively sure of getting the most desirable product of the best looms. We couldn't afford to ship carpets, rugs, etc., to customers unless we were pretty sure the goods would prove themselves worthy of making the order a home life sale—so you see we rely upon the Quality and Price as well as our liberal credit treatment to make you our steady, satisfied customer.

**ACTUAL COLORS SHOWN** The following pages faithfully depict, describe and illustrate, in actual colors, our rugs, carpets and draperies so that you may get an idea of how beautiful our line really is. You have our binding guarantee as to low price, excellence and lasting quality. Now, with all these assurances, don't you think you can feel just as safe—just as satisfied—in doing your buying by mail as though you were in our establishment to make your choice?

**SAVE MONEY** Our offer of low price bargains makes up a great sale of floor covering and curtains. If you are in need of such goods, you will make a very wise purchase by sending us your order for whatever your wants in this line might be.
HOW MANY YARDS Figuring out the number of yards of carpet necessary to cover a room is a somewhat difficult task for the inexperienced and often leads to confusion through errors. In order to simplify matters for our customers and relieve them of the trouble of figuring just how much carpet they need, we have prepared and printed on this page a table showing the amount of carpet that will be required for various situations. Measure the length and width of your room in feet. Then refer to the table printed below and you can quickly tell just how many yards of carpet you need.

TO GUARD AGAINST ERRORS we ask you, when ordering, to send us a diagram of each room that you wish carpeted. On this diagram plainly mark the length and width of your room in feet and inches. If your measurements are correct, there can be no errors. In ordering, be sure to state which way of the room you wish the strips to run.

PROJECTIONS—BAY WINDOWS, ETC. In case there are any bay windows, fireplaces or alcoves, or projections in your room, be sure to include them in a plainly marked diagram. Show their exact location and be careful to give us exact measurements of such irregular places. These measurements should be given separate from measurements of main room. If you feel that you cannot figure the exact amount of carpet, if your room is odd-shaped, having a bay window, fireplace or alcove, give us the measurements in feet and inches, and we will be pleased to quote you the price of any quality of carpet you wish.

WE MAKE NO CHARGE whatever for matching and seeing carpets that are to be made without a border. On carpets made up with border, however, we make a small charge of 3c a yard to cover a part of the cost of seeing on the border by hand. You should agree that this is a very liberal offer, as 3c a yard does not cover the cost of the work to us. Remember, this charge of 3c a yard is for bordered carpets only—plain carpets are priced absolutely free.

IF YOU WANT A BORDER around the Brussels, Velvet or Axminster carpet you order, be sure and allow the correct carpet width and the correct number of inches. The diagram shown on this page is of a room 12 feet 6 inches by 9 feet 6 inches, and if you will follow instructions given we do not think you will experience any trouble in ordering enough carpet and border to fit your room.

MEASURE THE DISTANCE AROUND THE ROOM IN YARDS, which gives the exact number of yards of border required.

TO GET THE NUMBER OF STRIPS OF CARPET necessary to go inside of the border, divide the width of two strips of border or 44 inches from width of room. Divide by 27 inches, which is the width of one strip of carpet, which gives the number of strips of carpet needed.

TO GET 2 LENGTHS OF STRIPE, deduct the width of two strips of border (44 inches) from length of room, which gives the length of strip.

**Waste in Matching Carpet Explained**

For the Benefit of Those Who Do Not Thoroughly Understand Why There Is a Waste in Cutting Carpet So That the Pattern of Each Strip Matches, We Wish to Submit the Following Explanation: The Figure on the Edge of One Strip of Carpet Must Match the Figure in the Pattern of the Strip Adjacent. If Several Strips of carpet are run together, as might happen, the figure on the end of the last strip would be cut off. This is exactly what happens in the case of Brussels carpet, where the figure on the end of the last strip is cut off. For matching purposes, Brussels carpet is cut only in the length of 36 inches.

Given Length, hence the necessity of cutting the carpet at the next figure that will match, resulting in waste of material. We always cut carpets to match perfectly, with the least possible waste and ask an allowance of only 1 1/2 yards for waste to every 25 yards you buy. This 1 1/2 yards allowance is a low estimate. On all carpets with borders this waste must be cut off in order to make up the carpet to fit your room exactly. On carpets without borders, this excess is left on end of carpet and must be turned under when laid.

WHERE OUR LACE AND WHITE GOODS ARE MADE

This colossal mill employs a large force of thoroughly experienced and expert designers in this country as well as abroad. They are kept in constant touch with all the developments in the field of decorating, and every new tendency is reflected at once in the conceptions that are brought out in our goods. We particularly direct your attention to the large variety of lace curtains on the following pages of this catalogue. Look over carefully for a full appreciation of the magnificent designs, excellent values and reasonable prices.

UNSURPASSED QUALITY. The cotton yarns which are chosen in the manufacture of our lace curtains have long, strong fibers, which ensure good wearing quality. This is a point worthy of consideration, because you are certain of securing the kind of curtains which every particular housewife should demand. Service is an important factor, for the reason that when you buy lace curtains you do not wish to have them last only for a long period of time. The bleaching and every one of the processes of finishing tends to increase and improve the wearing merit of our lace curtains.

HARTMAN'S COLUMBIA VACUUM SWEEPER

Has Perfect Brush Adjustment—Operated by Foot. New Slotted Hinged Nozzle and Spring Nozzle Clamp. Noiseless Fibre Bearings

ABSOLUTELY NEW. "Hartman's Columbia" vacuum sweeper is absolutely new in all important respects. It represents features that are not found in some of the more expensive vacuum sweepers on the market. It is made of heavy gauge steel, absolutely sound and tight. It is a very sanitary machine and is absolutely reliable. Another feature is the noiseless brush and duster, all metal parts being heavily nickel plated. There are four wheels on the brush, three balls and a 12-inch noset.

NEW FEATURES. Among its new features are the following: Perfect brush adjustment by the foot, new slotted hinged nozzle and spring nozzle clamp, wheels flanged— which does away with no trouble, noiseless fiber bearings and connecting rods. All metal parts are heavily nickel plated. This machine is the result of many years experience in vacuum cleaner building and is made by experts in the most perfectly equipped vacuum cleaner factory in the world. The manufacturers of "Hartman's Columbia" make the highest price without any sacrifice of quality, but we can sell it at the lowest price. We offer the vacuum cleaner that will permit us to give it to our customers at the remarkably low price shown below.

No. OK2878. Price..................$4.89

HARTMAN'S IDEAL VACUUM SWEEPER

Three Bellows Pumps Extract The Dust From The Carpet, And The Revolving Brush Removes The Lint And Threads, Etc.

"HARTMAN'S IDEAL" is an indiscutible cleaner. It is simple, direct action, consisting of three bellows pumps which extract the dust from beneath the carpet and threads and lint out and down the brush. It is the only one of its kind. Its simplicity makes it extremely strong and durable. It will last a long time with ordinary use. It is designed so that the revolving brush can be quickly and easily detached for cleaning and tightening. Dust receptacle is of liberal size and has shaped-handles which carry the metal frame next to the floor, safely enclosed and sanitary.

REAL ECONOMY. In the purchase of a vacuum cleaner you should always try to buy the best, and be sure you get your money's worth. It is possible to find a machine that will give you a good service for less money, but if you will compare the price of a "HARTMAN'S IDEAL" with any other, you will find that the savings are well worth it.

No. OK1888. Price..................$5.98

"HARTMAN'S GUARANTEED" VACUUM CLEANER

A Combination Cleaner and Sweeper That Comes Complete With The Brush Attachment

THE METAL TOPS are made of carefully selected, rustproofed steel. Three coats of high grade enamel are then applied, each coat baked and sanded before the next is applied. The whole process takes place in a dust proof factory. All metal parts are carefully balanced and milled to a fraction of an inch, so that the machine will operate smoothly and quietly. No screws or bolts are used in the construction of the "HARTMAN'S GUARANTEED" VACUUM CLEANER.

MODEL "P" combines a combination cleaner and sweeper. The advantage of both machines is found in the head of the "HARTMAN'S GUARANTEED" VACUUM CLEANER. It is a combination machine that will take care of all your cleaning needs. The advantage of both machines is found in the head of the "HARTMAN'S GUARANTEED" VACUUM CLEANER. It is a combination machine that will take care of all your cleaning needs. These machines are so designed that the price is kept as low as possible. The "HARTMAN'S GUARANTEED" VACUUM CLEANER is a complete machine that will take care of all your cleaning needs.

No. OK1267. Price...............$7.85

Dust Pan Dust Bump With One Push of Button

This Is A Combination Cleaner And Sweeper Of Merit At A Low Price.

A—Handle Ball—Pressed steel seamless handle with taper thread insert; a permanently tight-fitting handle; head made of hardwood with stained mahogany finish.

B—Dust Pan Emptying Button—Empties both pans at once. One push does it.

C—Brush Disconnector—By pushing the knob marked "P" up to "O", the highest notch, the brush is raised clear of the carpet and ceases to revolve.

D—Brush Adjustment—By pushing "P" to different notches, the brush is lowered to get best results on carpets having a heavy, medium or light nap.

Don't Overlook These Features

E—Brush Wheel—Tapered friction with rear wheels to cause positive drive of brush.

F—Front Supporting Wheels—Make the machine move smoothly. They are made of rubber and are placed in a way that gives a lustrous finish to the front of the machine.

G—Felt Bumper—A heavy head, held by four brush wheels prevents it from scratching the floor.

I—Brush Wheel—Tapered friction with rear wheels to cause positive drive of brush.

J—Front Supporting Wheels—Make the machine move smoothly. They are made of rubber and are placed in a way that gives a lustrous finish to the front of the machine.

K—Felt Bumper—A heavy head, held by four brush wheels prevents it from scratching the floor.

L—Brush Wheel—Tapered friction with rear wheels to cause positive drive of brush.

M—Front Supporting Wheels—Make the machine move smoothly. They are made of rubber and are placed in a way that gives a lustrous finish to the front of the machine.

N—Felt Bumper—A heavy head, held by four brush wheels prevents it from scratching the floor.

From this detailed illustration and the explanation given in conjunction therewith, you can readily understand the many important features that make this combination sweeper and cleaner possess.

For a left.
It has been felted and has been a beauty. Luxurious and soft, there's a new comforter that we offer. Made to order, it's a wonderful addition to your bedroom.

The standard features of our products ensure the best possible quality.

**UPHOLSTERING FACTS**

- Figured Velour is woven similar to velvet, having a heavy loop and pile pile. Colors are made by use of the manufacturer's own formulas.
- Cut Velvet, a heavy quality material, is similar to carding, except that it is woven into heavy black and white designs. Colors in similar protected rolls of felted material are also available. Very durable.
- Silk Plush, a very wide fabric generally manufacured, is a combination of velvets, high grade Parker furniture. It is available and made by the manufacturer, and is in every respect better than any other standard grade.

**LEATHER**

- Genuine Leather that we use is of a high grade and is recommended for all upholstered, and unqualified color and grain. This color remains true to the color and grain of the leather, which is the leather we use.
- Genuine Spanish Leather which we use is of a very high grade and is recommended for its durability and grain. This leather is used in our upholstered furniture, and is in every respect better than any other standard grade.

**FELT PADS**

- For sofa, bed, and chair, we offer felt pads at $1.50 extra. See pages of Davenport's for complete catalog.

**THE ROCKERS**

- When we offer are made with the best rockers, and in cases with large springs, all are properly upholstered as indicated.

**THE AUTOMATIC**

- "Monarch" Davenport, although it is illustrated on this page, is not shown elsewhere. Can be quickly and easily converted into a full size bed by simply raising the seat and lowering the back parents mattress. To change back to a davenport, raise the seat again and lower the back and mattress. The sectional seat can be used in the same way as the sectional seat can be used in the same way.

**ABSOLUTELY SANITARY**

- In the manufacture of our upholstered furniture, we use synthetic leather. It is made from only the best materials available, and it is a fact that no other upholstered furniture is manufactured as ours is. The materials used are designed to be sanitary and to be used in the home, and to be used in the home, and to be used in the home.

A MASSIVE ROCKER

Made of Solid Oak In An Attractive Up-to-date Smart Design

OLDHOOD SHOWS THE MAN very much as the face indicates the day. Yet there is a difference that is yet more vital. Human strength is the power to alter the fact. A man's power can often influence the man if the child. Your signs are not favorable. A child's home is like a garden of vice, in which the plants develop the good side of the man's character. So, after all, the home is where the family. If you are not pleased with the name you can return it to us and we will cheerfully refund your money.

CH A ROCKER as this one will help to make your home complete. It is a solidly built piece of furniture, with Substantial solid oak frame made from oak. The finish is a high-gloss, hand-rubbed oak. The armrests are made from oak. The seat is covered with oak. The back is upholstered with oak. The covering of the seat and back is of oak. The seat is sprung, being 24.5 inches high. The distance between arms is 20 inches and the height of the back is about 27 inches. Shipping weight, about 50 lbs.

No. 1K2282. Price $5.45
It Has Removable Seat Containing Six Springs

The Elaborate Carvings Add Greatly To the Fine Appearance Of This Rocker

Upholstered In A Thoroughly Workmanlike Manner

Order by this Number: No. 1K2196. Price $4.95

THE VALUE OF "VALUE." When you buy a piece of merchandise, let "value" be your watchword. We encourage the standard of value, not court competition, because we thoroughly appreciate the value of our values. We have anticipated the demands of our shrewdest buyers and that is, in a word, why we do not hesitate to ask them to compare the offerings which we make with those of other mail order houses; in fact, a comparison with the buying opportunities found in the ordinary channels of trade will only strengthen our claims. A tremendous purchasing power places us in a position to secure merchandise at prices that are positively unbelievable. An endless array of customers enables us to sell this same merchandise with comparative ease. The patrons who have made this institution what it is have the confidence that has encouraged us to develop our wonderful and successful business enterprises. This rocker is an example of true HARTMAN value.

THIS MASSIVE ROCKER represents far more in actual worth than our low price would indicate. The arms are made of early grafted genuine quarter-sawed oak, the back of the frame being of seasoned and kiln-dried solid oak, hand rubbed, and the seat is upholstered in a rich golden leather. The attractive mahogany-stained leather is used to give a rich golden color. The attractive mahogany-stained leather is used to give a rich golden color. The attractive mahogany-stained leather is used to give a rich golden color. The attractive mahogany-stained leather is used to give a rich golden color. Genuine Quarter Sawed Oak Arms; Balance Of Frame Made of Substantial Solid Oak

Comes In A Rich Golden Finish

Has Fine Strong Spring Seat Construction

Price $4.95
The Finish is a Beautiful Golden Oak Color.

There Are Six Springs Under The Seat.

Sold To You On Credit

THIS ROCKER will delight every member of the family. All the materials used are of solid oak, the balance being of solid hardwood. The deep carvings on the front and back are well defined and beautiful in style. The finish is a rich golden oak, so popular as to require no special comment. The seat is firm and roomy, and never seems too small a space. Over these springs there is a filling of tow with jute covering. The upholstery is a high grade leather which is known for its long wear, and its remarkable resemblance to genuine leather. Below we give the dimensions of this excellent rocker. From these measurements you can easily see what a splendidly proportioned rocker this is. It is really a wonderful piece of furniture in your home. Order it on approval.

MEASUREMENTS. The seat measures 27 inches wide, 18 inches deep, and 19 inches high. The back is approximately 40 inches high, 19 inches wide, and 3 inches deep.

The arms are made of 1 inch stock, and 4 inches in width and 5 inches in height. The seat is 27 inches wide, 18 inches deep, and 19 inches high.

Price...

$5.65

THE BEST at the highest price is no more to be desired, from a standpoint of value, than the "cheaper" at the lowest figure. We list all grades of merchandise and in each grade we state emphatically that we offer the best quality at the lowest price to be secured through either of the various channels of trade. This is a pretty strong statement, but we can back it up every word of it in every instance. See the rocker illustrated to the right as a convincing example.

IT IS MADE in a substantial manner, all the finished parts being constructed of thoroughly seasoned solid oak, the balance being of hardwood. The front legs and chair are lavishly carved, as shown in the Illustration. The finish is a rich golden oak. The upholstery is of the popular imitation Spanish brown leather, which looks like the real Spanish leather and price an end of satisfactory service. The filling is of soft wood-fiber or tow, with strong jute covering. Next inspect fabric bands.

SIX SPRINGS are used to support the seat. This method of construction means not only long life to the rocker, but added comfort to the one who is lucky enough to select this rocker. Next measure 19 inches in back to back. The lumber from which this rocker is cut is 1 inch stock. The height of back is approximately 27 inches and the other dimensions are of that a right size to give this piece of furniture both graceful and symmetrical lines. Shipping weight about 50 pounds.

THE UNITED STATES occupies an almost unbelievable area in comparison with the European continent. If the U.S. were to be divided into the relative size of the two—Europe with its many countries, the United States, consolidated under one central government—yet in spite of the tremendous size of our country, you would be disappointed at the relative size of the two—Europe with its many countries, the United States, consolidated under one central government.

HARTMAN'S FEATHERS THE NEST of families found from the Atlantic ocean on the east to the Pacific ocean on the west. Think what this commercial supremacy means! And although we occupy only an enviable position, bear this fact in mind: We are just as glad to receive a small order as a large one; that may seem strange to you, but it is true in our business. The fact is, we are building up a commercial supremacy on a basis of satisfaction to our customers, and we find that as every order is satisfied, the more orders we receive, the greater is our business.

THIS EXCELLENT ROCKER is priced at $5.49. A superbly designed chair that has added to the comfort of the home. The heavy, quartered oak is used on the arm; and the panel separating the upper and lower portions of the back. The balance of the exposed parts of the frame are made of solid, substantial, high-grade solid oak. Finish is a rich golden. The seat is nice and comfortable, measuring 20½ inches long. It is supported by six springs and is filled with excelsior. The covering used on the seat and back is imitation Spanish brown leather, looks like the real Spanish leather and gives very satisfactory wear. Measurements as follows: Arm, 4½ in.; seat, 17 inches from floor; back, 23 in.; seat to top, 20 in.; distance between arms, 20 in.; arm rest is 11 in. above seat. This piece is the cornerstone of the foundations of the home. We offer it at only $5.49.
Solid Oak Rocker

Genuine Quarter-Sawed Oak Arms

Springs Support The Seat

LADDER OF LIFE is filled with millions upon millions of people. It is a ladder that no one can climb to reach the top. The rungs, however, are filled with the achievements of those who have climbed. It is a ladder of success, and it is a ladder of failure. The rungs are filled with the achievements of those who have climbed, and it is a ladder of success. It is a ladder of failure, and it is a ladder of success.

The Seat is supported by 6 resilient springs of good strength. This seat is filled with a mixture of wood and web, making it soft and comfortable. The attractive 2-panel back is covered with a mixture of brown leather and the appearance of a soft material. The front seat, made of upholstered wood with a high back of the arm rest, is made of upholstered wood with a high back of the arm rest. These arms measure in width, height and length, over the seat. The arm rests, 5 in. in width, 6 in. in height, and 19 in. in length. These arms measure in width, height and length, over the seat. The arm rests, 5 in. in width, 6 in. in height, and 19 in. in length.

OTHER SIZES.

Extremely small, the distance between arms is 26 in. The seat back is 28 in. high. The seat is 27 in. deep. The seat height is 22 in. The arm rests are 5 in. in width, 6 in. in height, and 19 in. in length. These arms measure in width, height and length, over the seat. The arm rests, 5 in. in width, 6 in. in height, and 19 in. in length.

The Back upholstered, is reinforced with steel bands.

The Roomy Seat Has Strong Springs Supported On Steel Bands.

Quartered Oak

And Solid Oak Rocker In

A Very Artistic Design

DOLLAR FOR DOLLAR, point by point, we consider this a very excellent chair. The solid oak frame is supported by a combination of steel and wood. It is a beautiful quartersawn oak chair, the back is made of upholstered wood with the appearance of a soft material. The front seat is made of upholstered wood with a high back of the arm rests.

ONE OF the features of this rocker is the shaped back, it is placed on the front seat, and is supported by upholstered wood. Although you can obtain an idea of the beauty of the design from the illustration, we urge you to order this rocker on approval for a full appreciation of its worth. Then, if you should not be pleased in any way, you are under no obligation to keep it.

THE BACK upholstered is reinforced with steel bands. The measurements of this rocker are given below, at our back.

THE TEST OF TIME. There is no test as positive and as powerful as that of old Father Time. He gets the flax and shame the spotlight on the best of every thing. Time is the one factor that will not harbor misrepresentation, and he is also too pensively kind to our record of thirty years of successful business conduct. Our principles have been based upon fair and square treatment to our customers. That has been the very essence of the House of Hartman and the guiding star of our business career. Satisfaction is a very big word, yet it was never so big that we could not meet it, and the test of time has brought it home. Quality, standard products, service, and credit and an iron-clad guarantee demand an equal share of attention and have received their due share of consideration accordingly. In presenting the mammoth value on this page we want you to consider that the highest care has been exercised to maintain our reputation for superlative service; in fact, we have gone an extra step, if possible, to make this a lasting opportunity of unusual treatment and advantage to our customers.

THE IMPORTANT FACTS regarding this rocker are recorded below:
- Made of quarter-sawed and solid oak
- Upholstered in Spanish leather
- Full shaped back

Order this superb rocker and enjoy its comfort and elegance today!
Quarter-Sawed And Solid Oak Used In This Elegant Rocker. Excellent Up-To-Date Style

The Masses, Not The Classes. Abraham Lincoln faced the people. There is a little episode that is typical of the great man that will bear repetition. He happened to be within earshot of a woman who commented to her companion: "What a lonely man the President is!" Lincoln turned to her, smiled, and said: "Madam, God loves lonely people, that's why he made so many of them." The martyr of President was of the people. He was a thin, poor man who made good. There are hundreds of names who belong to the masses whom we want to tip make good." We cater to the masses not the upper classes and particularly seek to serve the hard working people of this country.

LET US AID YOU to furnish your home. Permit us to send this rocker to you upon approval. We know that you will be elated with it, because it is one of the newer and better conceptions in the art of furniture building. It is made of solid and quarter-sawed oak, in a fine golden color. The arms are made of quartered oak, while balance of rocker is of solid oak. The upholstery is imitation Spanish brown leather, which not only looks like real Spanish leather, but which gives extraordinary service. One of the features of this rocker is the loose, removable spring seat. The carvings, likewise, are very lavish, the pattern on the top of the panels supporting the arm rests being an innovation in low priced rockers. Observe the shaped back and the attractive panels across the top and at the sides.

The Proportion Throughout Is Very Generous, As Shown By The Measurements Which We Give Below. The Extreme Height Of The Rocker From The Floor Is 38 Inches; The Height Of The Back From The Floor Being 35 Inches. The Seat Is 18 x 18 Inches; The Width Of The Arms Is 14 Inches, The Depth Of The Seat Is 17 1/2 Inches; Width Of Panels Under The Arms Is 10 1/2 Inches. The Rocker Is Made Of Solid Oak And Materials That Enter Into The Construction Of This Rocker Are The Very Best Obtainable At A Price Like This. Shipping Weight, About 55 Pounds.

No. 1K861. Price. $6.65

Genuine Quarter-Sawed And Solid Oak Rocker In A Rich Golden Color. You'll Be Well Pleased With It

There Are Six Springs In The Roomy Seat

The Man Who Makes Big Money But Who Doesn't Save It Must Be A Sinner. One Of The Worst Of The Worst Of That Class Said You Wouldn't Spend His Money On Himself. He Was Wrong. You Are Spending Your Own Money On Your Own Comfort. You Are Fulfilling Your Home And Therefore, You Have A Permanent Investment.

The Frame. The arms and posts are made of attractive hardwood. Until polished, genuine quarter-sawed oak is lighted and polished solid oak. The remainder of the frame is made of steel, substantial hardwood. The front legs are actually individual, and are, as you will see, the result of an examination of the illustration shown. The cushion is the soft, pliable, gold-leaf material which harmonizes so well with all surroundings. The upholstery is imitation black leather. The arm rests are 10 1/2 inches high and 2 inches deep. The back is of genuine leather and is recommended for its good wearing quality. It is a two panel back with arm rests illustrated, and two rows of planks on either side. A very handsome design.

The Seat. The seat contains six strong springs and is covered with either leather or tow filling with leather covering. The entire frame is cut from solid wood and the seat measures 19 x 20 inches. Notice the shaped, tapering arms, each supported by three rails. The construction of this rocker throughout is very substantial and the design is indeed out of the ordinary. The weight, carefully packed for shipment, is approximately 60 pounds.

QUARTER-SAWED AND SOLID OAK

Genuine Quarter-Sawed Oak Arms

The Rich Carvings On The Frame Of This Rocker Enhance Its Attractive Appearance

THE DESIGN of this massive rocker is of a type that is in keeping with the progress that we have made in furniture construction; and once you see it in your home you will agree that it is an extraordinary value for the money. One of its outstanding features is the nicely shaped back and the removable slip seat. The elaborate carvings on the ears and front posts are of a pattern that should appeal to lovers of artistic home furnishings. All of the exposed parts are made of durable seasoned solid oak, the wide arms being constructed of genuine quarter-sawed oak. These arms are gracefully shaped, as shown in the illustration above, receive the panels under the arms and finish golden finish. The back is divided into two panels, the lower one being set off with a neat ruffling across the top. The seat is supported by six, steel springs, placed on strong channel bars and is reinforced with corner blocks. See page one for our liberal, easy on the pocket terms.

THE UPHOLSTERY is of a desirable quality. Wood flour is used as a base, with oak or similar material as a covering over which is placed an exceptional Spanish brown leather, which resembles the genuine Spanish leather, has good wearing qualities. The measurements are as follows: extreme width about 44 inches, height of seat from floor 19 inches, height of back seat about 30 inches, width between arms 21 inches. The seat is 14 x 19 inches. The attractively shaped arms measure 1 inch in width, the front posts about 24 inches and arms about 15 inches. Our liberal guarantee of satisfaction applies to this rocker. We feel certain that you will be more than pleased with the value here offered you to send for this rocker upon approval with the understanding that it does not cost you more, you are not obliged to keep it. Shipping weight, about 60 lbs.

The legs are 17 inches wide, height 22 inches. The legs are made of solid oak.
QUAR TERED AND SOLID OAK MORRIS ROCKER

Fitted With Patented Adjustable Recliner
Attachment And Special Foot Rest

FEATURE

of this rocker is found in the fact that you can adjust the back to five different positions without leaving the seat. Another point of advantage is that the foot rest slides on metal bars and can be pulled out to different lengths and swung from side to side. By this arrangement, if foot rest is extended you wish to change your position, with your feet resting on the floor, it is not necessary to push foot rest back. Merely swing it to either side and it is out of the way, without the inconvenience of having to get up and pull it out.

GENUINE QUARTER-SAWE/D OAK

is used on the arm and front legs; the solid wood oak; all other parts of the frame are finished in durable hardwood. You can have your choice of glazed golden or fumed finish as you desire. When ordering, please state which one you prefer. The cannon feet are neatly shaped and are approximately 2 1/2 inches long. The arms are made from 3/16 inch stock and measure about 2 1/2 inches in length. This rocker is furnished with 6 tempered coil springs. The filler is made of wood and filled with jute. You have the choice of either imitation oak or imitation Spanish oak. Each of which is made to resemble the real leather. When ordering, make sure to give the correct number to insure your receiving the upholstery you desire.

A BARGAIN ROCKER

In the true meaning of the term, Sides of back are enhanced by ruffling and seat front set off with neat pleats and tassels as shown. Frame made entirely of kiln-dried hardwood, with the exposed parts beautifully finished in mahogany. There are five strong springs in the seat, supported on steel brackets to prevent sagging. There is a two-inch cotton filling, on top of which is placed the imitation leather, made to look like the genuine. Measurements are as follows:

Height of seat from floor, 17 in.; of back from seat, 20 in.; of seat, 20 in.; depth of seat, 21 in.; width of seat, 21 in.; width of frame, 18 in. These are supported on steel brackets, as is the mahogany frame, and the back is finished in cotton, the same as is used in the seat. The frame is kiln-dried hardwood finished in mahogany. This rocker is in stock ready to be shipped at the price. For payment on approval, 1.25 lbs. per rocker. Price in imitation Spanish leather (as illustrated) $7.95.

A STYLE WORTH WHILE.

We have taken most of the good points of this type of furniture and combined them in this beautiful rocker. The frame is made entirely of kiln-dried hardwood, with the exposed parts beautifully finished in mahogany. There are five strong springs in the seat, supported on steel brackets to prevent sagging. There is a two-inch cotton filling, on top of which is placed the imitation leather, made to look like the genuine. Measurements are as follows:

The Style
of this comfort-giving Morris rocker is shown to advantage
in the illustration above, although the picture was made
from an actual photograph of the rocker itself and looks as if we
were enthusiastic about this offering that we are sure that after seeing it
in the store, you will be even more thoroughly impressed with it than
from a mere examination of the illustration shown on this page. The
construction is of the sort that will appeal to all true judges of artistic
home furnishings. The backrest is divided into two sections, as shown.
The large armrests are well padded to add to its comfort-giving qualities, as
well as its attractiveness. It has the beauty of many regulation style
rocking chairs and is in harmony with the new reclining back
adjustment which we explain in detail below. Read this
over carefully for the full details of operation.

BACK RECLINES by means of an automatic spring
and knob reclining adjustment on either side of the rocker. Merely turn the knob to
adjust the back to the position that you prefer. By this
device, it is not necessary to have the chair to adjust
the back to the angle that is desired. The foot rest,
which is shown in the small illustration to the left may
be folded underneath the seat entirely out of sight
when not in use. That you may have a better
understanding as to the proportions of this Morris Rocker,
we list the measurements below: Height of the seat
from the floor is 16 inches, the height of the back from
the seat measures 27 inches and the height of the back
from the seat is 25 inches. The seat measures 20½
30½ inches, the width of the back 21 inches. It is
in every way a splendid value for the money. Order
this handsome rocker to be sent to you on approval.
Shipping weight, about 70 pounds.

SPLENDID ROCKER

An Excellent Substantial Model Made With Comfortable Seat And Back Construction.

WITHOUT DOUBT this is one of the best values in a potter rocker that has ever been brought to the market. Hand made from genuine leather, the appearance of the leather is so good that it will give you long and comfortable wear.

SOLID OAK is used on the exposed parts of the frame, having the handsomely burnished finish. Jacobean style from posts are about 24 inches wide. The seat and back are of 18 inch width, giving a full spring construction. The legs and arms are of 18 inch width, giving a full spring construction.

DIMENSIONS: Height over all 40 inches, length of back 30 inches, width of seat from floor 18 inches, width over all 23 inches. Order this rocker as it is for easy delivery of the credit. Shipping weight, carefully crated, is approximately 75 lbs.

No. 1K2256 Price - $13.85
A REAL ROCKS BARGAIN

Is Splendidly Upholstered and Has Durable Spring Construction. Legs and Runners Are In Fumed Oak Finish.

TO IT NOW. "Never put off till tomorrow what you can do today." This bit of philosophy can aptly be applied to your household requirements, of course, it was necessary for you to pay cash for the goods you need, this time-honored slogan might not apply. But recall the fact that when you deal with us your word is as good as cash. That is why we trust you. If we had any doubt to your sincerity, surely we would not offer to send this rocker on approval. Take advantage of this chance to order and "do it now."

HERE'S A ROCKS that is made for genuine comfort. Just see how lusious is the soft roll. Think of coming home at night all fatigued out and sinking into its inviting seat. It has a patented spring construction, having a spring seat and back. The upholstery is Italian Spanish brown leather, which looks like the genuine article and wears wonderfully well. The frame is of new, long hardwood, the legs and runners being finished in artistic oak. Note the overstuffed construction over the rolls, the gracefully shaped sides enclosing the pillow roll and the comfortable pillow roll head rest. You will never regret having ordered this fine rocker. We protect you by our legal guarantee.

MEASUREMENTS: The extreme height is 33 inches. The width across the back is 27 inches; height of back from seat measures 27 inches; whereas the extreme width across the arms is 24 1/2 inches. In presenting this piece of furniture to you we want to impress you with the fact that its construction is exceptionally rigid, being made to withstand everyday wear. It is graceful in style as well. We are giving you in this rocker every penny's worth of value that it is possible to offer at this exceptionally low price. Shipping weight, approximately 70 pounds.

No. 1K2257. Price . . . . $12.65

COMFORTABLE PILLOW ROLL HEAD REST. SPRING SEAT AND SPRING BACK

GRAND ROCKS OFFER

It Is A Remarkable Value In A Parlor Rocker and Is Strongly Made. Legs and Runners Fumed Oak Finish.

YOUR ORDER for the rocker here shown will prove a convincing argument in our behalf. It will show in a conclusive manner that we make regarding our merchandise can be relied upon absolutely. It is a rocker of exceptional beauty of splendid workmanship and durable materials. And yet the price is exceptionally low. The frame is of seasoned hardwood, the legs and runners being finished in the regular and artistic fumed oak. This rocker is generous in proportion, the seat and seats being well padded to insure comfort. The illustration is a good reproduction of this piece of furniture.

THE UPHOLSTERING: This rocker is filled with tough wood fiber with cotton top, over which is placed the very artistic imitation Spanish brown leather. This covering has the appearance of real Spanish leather and is known for its excellent wearing qualities. There are six strong springs in the seat and four in the back. These springs add life to the rocker as well as comfort.

THE DIMENSIONS: Extreme outside measure from arm to arm, 30 inches; seat 21 inches deep and 19 inches between arms, back from seat to top 36 inches; height of back from floor to top 37 inches. The strong legs are cut from 2-inch stock, runners being made from 2-inch lumber. Arms measure 11 1/2 inches high from front of seat. Shipping weight, about 70 pounds.

MUSEUMS OF ART

We are a rocker that was used by Washington, a

chair from the palace of Napoleon, the bed in which

worn out, and pieces of furniture that were owned by the family of Romans

in wood. In your own family no doubt you will come in contact with

and mothers, and fathers, and your father or great grandfather, perhaps. Some day your children will feel the same about

furniture that you have and that they remember from their childhood. That's a

and argument in favor of substantial, durable furniture such as this, because the

furniture isfidence of material, and of craftsmanship that are generations

cherished and admired. This is an exceptionally fine rocker at the

price quoted, and because it is such a splendid value we are devoting an entire page

to exploit its meritorious qualities. You must see this handsome rocker before you commit

yourself to the purchase of one. It is at this price. Read the

titled descriptions in the paragraph to the right and you will marvel at the possibility

of such a high-quality product.

FEATURES OF THIS ROCKER: Observe the luxurious, comfortabable back

between the two impressive double-

ruffled wings, the soft diamond tufting, and the handsome clawed feet.

The seat is joined by the same great big roll arms in a symmetrical design. And how tasteful is

the front, set off by the single row of ruffling just below the seat. Remember that the

fine Turkish rocker has NINE SPRINGS IN THE SEAT, and is expertly filled with
tow, cotton, and hair. It is also equipped with strong coil rocker spring. The frame is

made of kiln-dried hardwood with handsome carved claw feet; and the platform base, and all exposed wood parts are finished in rich mahogany color. Seat is 17

inches from floor, height of back 27 inches, depth of seat 18 inches, width of seat 22 inches, width over all 35 inches. Shipping weight about 90 lbs.

No. 1K2203. Price in Imitation Black Leather $12.65

A Rocker Value That Is Sure To Astound You

FINE SPRING CONSTRUCTION

SECURE THE BENEFIT of buying from this great house of bargains. When you go into your local store to make a purchase, remember that the manufacturer has made up his mind to sell you. He is going to do all in his power to make a sale, and in his desire to do so he is likely to say something friendly to make you favor him, or the commission dealer may make other false statements. All men will not do this, because some are too fair to make worthless remarks. Don’t be hoodwinked by dealers because you can’t have confidence in what they tell you.

YOU CAN BUY Turkish rockers in your home town, no doubt, but you will not find the equal of this one at our prices. The frame is made entirely of kiln-dried hardwood with the exposed parts exterior finished in a rich mahogany color. The back is exquisitely diamond button tufted. The head, arm, feet, arms of seat and back are artistically tufted as shown in the illustration herewith. The carved claw feet are of a striking design. The upholstery can be either imitation black or imitation Spanish brown leather, both of which look so wonderful resemblance to genuine leather and wear remarkably well.

THE SEAT has six strong springs supported on steel bands to prevent sagging. It is filled with tow and cotton and is equipped with strong coil rockers springs. The measurements are as follows: height of seat from floor, 17 inches; height of back from seat, 22 inches; depth of seat, 15 1/2 inches; width of seat, 21 inches; width overall, 35 1/2 inches. Comfort, appearance, durability and beauty are the features of this fine Turkish rocker. Shipping weight, about 90 lbs.

DIAMOND TUFTED BACK

NO ORDER is too small for us to handle, nor is there any charge for small orders if they are shipped in our hands. You may be sure that any order of ours will be given immediate attention. We have built up this business largely on the strength of our work, and we are satisfied that we can appeal to the most particular spot. The various prices are given as above and you will be surprised at the quality and low price. A fine value for the money.

TAKE THIS ROCKER as an example of value-giving, and you can see what it will do for you or anyone you know who may be in the market for rockers. Take the price, the material, the workmanship, the comfort, and all things into consideration. We consider this one of the most valuable pieces of furniture we have ever offered.

THE SEAT is styled for spring construction, having nine springs concealed in the seat. The height of the seat from floor to top is 17 inches; the height of the back from seat to top is 28 inches; width of seat is 21 inches; width overall, 35 1/2 inches. The back is upholstered in a fine fabric, and the seat is covered with a gold lurex. The upholstery is entirely finished with a unique stylish design, in the color of the floor in your home.

FOUR PIECE LIBRARY SET

An Unequalled Value For The Money

NO. 5K937. PRICE COMPLETE

QUALITY IS THE FIRST CONSIDERATION IN MISSION FURNITURE. Each piece of this massive library suite is made of solid oak, and will find scrutiny dependable in quality; in fact, you will find every detail of construction fully up to the standard of the best makers of mission furniture. This style of furniture has become immensely popular, and is in use in the homes of those who require the best in style and comfort.

WE WOULD like to call your special attention to the beautiful natural grain of the oak. This wood is carefully selected, and each piece has a full box frame with seats securely fitted and joined in the massive corner joint. The posts in all the three chairs are of solid oak, saddle shape. The panels backs are high and broad, the table has a 36x22 inch top with full box mit, panelled ends and a broad lower shelf complete with convenient drawer in center. You can't afford to overlook this big value!

WE INVITE the most critical comparison of this splendid four piece suite, with any other suit offered by other dealers. If you desire to purchase one or more pieces separately, you may do so, but we strongly urge the purchase of the entire suit, as they match perfectly.

ATTRACTIVE and artistic mission design, made of substantial quartered oak, with shapely seat and back, made to last. The seat is reinforced with strong woven webbing, the legs are rock and roll in solid oak, the back and sides are upholstered in richly colored brown leather. Price, $5.85 per piece, $54.50 per dozen. Dimensions: Seat 19¾ inches wide by 17⅜ inches deep, height of back from seat 23 inches.

MISSEFEO

Made of solid oak in the fine fumed finish, like the rocker to the right, it is well balanced and sturdy. The upholstery is fine imitation Spanish brown leather—a true representation of the genuine article. Seat is 19½ inches wide, 18 inches deep, from post to 19½ inches above the seat. Take a good look at the illustration and you won't help but want this rocker at this price. Shipped, about 40 lbs.

Mission Rocker No. 1K2261. Price $5.35

THIS ROCKER is substantially and durably built throughout. The material used in construction is solid oak in the beautiful fumed finish. It is upholstered over four springs with burlap, moss and felt. The covering is a beautiful imitation of Spanish leather to look and wear like genuine leather. Measurements are as follows:

Seat 19¾ inches wide, 18 inches deep; front posts 17¼ inches; arms 32 inches; back, 30 inches wide and 23 inches above the seat.

Shipping weight, about 40 lbs.

MISSION DESIGN 4-PIECE LIBRARY SET

Made Of Solid Oak In Fumed Finish

THE TABLE is exceptionally well made for one marked at so low a price. It is constructed of genuine, well seasoned solid oak and finished in the popular fumed color. The roomy top measures 26x40 inches in size. Thus a convenient, stationary drawer fitted with two drawer knobs (cut shows only one). It is typically mission in style, the straight line effect being apparent throughout. Its shape below is 8 inches wide, two panels on either end as illustrated. The legs are cut out from 2-inch stock and the rim measures 1 1/2 inches deep. It is fitted with "domes of silence" instead of casters, preventing the tearing of rugs or maring of hardwood floors. Shipping weight, carefully packed, is about 60 pounds.

No. 5K1007. Price $6.10

Order Any Or All Of These Pieces On Credit

No. 5K1006. Complete Suit of 4 Pieces
Price $25.00

ARM CHAIR is made to match the other pieces on this page. It is of correct mission design, substantially constructed of thoroughly seasoned solid oak in the rich looking fumed finish. The seat is supported on 4 legs with wood fibre and jute filling. The back is built with 2 steel slats supporting it. The upholstery used is imitation Spanish brown leather, which looks like real Spanish leather and gives very satisfactory wear. Stretcher across the front is let off in an attractive manner. Measurements are as follows: Extreme height 31 in., extreme width 23 in., distance between arms 19 in., height of seat from floor 19 1/2 in., of back from seat 21 in. Weight of back 13 1/2 in., seat measures 38 x 18 1/2 inches; arms 24 1/2 in. wide. Fitted with "domes of silence" instead of casters. No tearing of rugs or maring of floors, a feature that will appeal to the particular housewife. Shipping weight, about 40 pounds.

No. 5K1008. Arm Chair
Price $4.85

No. 5K1008. Arm Chair
Price $4.85

THE ROCKER right is a duplicate in style, construction and material of the arm chair described above. The only vital difference is found in the back and which of course are not possessed by the chair. The total height, the size is different, the rocker measuring only 24 1/2 inches overall. The fumed finish, solid oak frame, the simple mission design, the attractive imitation Spanish leather upholstery, all combine to make this a desirable rocking chair for the mission or rocking room. Strong spring construction under the seat and back is designed to support the operator. Shipping weight about 44 lbs.

Chair And Settee Fitted With "Domes of Silence"

No. 5K1010. Settee As Illustrated Above
Price $8.90

See Page 1 For Terms

THE SETTEE is illustrated to the left. This picture shows the straight line effect that is characteristic of the mission pattern. But it does not show the rich fumed finish presented by the article itself. It gives you a fair idea of the strong solid oak used in construction, but it cannot convey the solid character of this piece of furniture and the good workmanship involved in making it. For that reason we ask you to send for this settee on approval, so as to examine yourself of its neat appearance and dependable quality. We are sure that you will be as well pleased with it as we are glad to assume all risk. If you are not satisfied in every way, remember that you can return it to us at our expense.

THE SEAT measures 40 inches wide by 18 inches deep. It sets about 18 inches from the floor and is supported by 4 all-steel uprights resting on 3 channel bars. The back measures 30 inches high from the seat and is fitted with interlaced metal slats. Wood fibre and jute filling is used in the upholstery, over which is placed imitation Spanish brown leather. This is made to resemble the real Spanish leather and gives very satisfactory wear. The width overall is 64 inches, the arm rests 21 inches wide and extend 11 inches above the seat. Back is 30 inches wide. A stretcher extends all the way across the front to correspond with the chair and is fitted with "domes of silence" instead of casters. Shipping weight, about 62 pounds.

THE ARM CHAIR. The frame is made of solid oak, in either golden oak or fumed finish. In ordering, please mention which finish is desired. Upholstered in imitation black leather or imitation Spanish brown leather, both of which look like the genuine and render exceptional wear. Seat has four springs, over which there is burlap, wool and felt. Seat measures 19 1/2 inches wide, 18 inches deep. Front posts are 1 1/2 inches square, arms are 21 1/2 inches. Back is 18 inches wide and 25 inches high above seat. Arms are neatly decorated with wood buttons. The seat frame is solidly joined to the front posts and back.

THE TABLE is built in true characteristic Mission style with plain set of stained legs. Made of solid oak in either golden or fumed finish. States finish desired when ordering. Measures 24 x 36 inches. It has convenient drawer 12 1/2 inches, nicely set off with wood knob. Legs are solid and sturdy, made of 2-inch square stock and are constructed of color and finish described below affords a convenient place for books and magazines, where the unusual design of the table at either end of this table. They are tapered to match upper part of back panels on both chair and rocker, and add to the style of the piece of furniture.

A NEW DESIGN 3-PIECE LIBRARY SET

Made Of Solid Oak In Fumed Or Golden Finish

Order Set By No. 5K994

Table Top Measures 24 x 36 in.
A Strictly Mission Design With Attractive Cut-Out Panels. As Shown In Illustration. For Credit Terms See Page 1.

THE TABLE used in this library set is well proportioned, attractive in style, excellent in workmanship. The material used is kiln dried, seasoned solid oak. You can order this set in fumed oak finish, which is so universally used in library furniture, or if you prefer, you can have it in golden oak. We particularly direct your attention to the next panels enclosing the magazine shelf at either end. These panels are of excellent design, solid and strong. The armrests perfectly with the center back panel used on the chair and rocker. The table top measures 24 x 36 inches. Handy stationary drawer fitted with Mission style drawer pull. Legs are 21 1/2 inches high. The table is not excessively low, and the size that will fit many of your needs for it and we have no doubt that you will be as satisfied with our selection. The description of the chair and rocker is given in the paragraph to the right. This attractive Library Set is an exceptional value at this low price.

A CHAIR AND ROCKER. These two pieces are perfectly and at some time harmonize in style with the table, described to the left. Fine genuine quarter-sawn oak is used on the backs of the chair and rocker being of all solid seasoned solid oak. Each is made with two padded burlap back panels and Mission design arm rest. Genuine oak meat filler is used throughout. The seat is supported on four steel coil springs. The upholstery used is Mission black leather or imitation Spanish brown leather, which closely resembles the leather and are constructed for spring support on the right and left. Front posts are 1 1/2 inches, back legs 2 1/2 inches, seat is 18 inches wide, 25 inches high above seat. These measurements apply to all pieces. Shipping weight of complete set, about 155 pounds.

Table
Top Measures
24x42
Inches. Has Two End Shelves

The Three Pieces for
$15.85

The Arm Chair
Illustrated above is a true mission model, harmonizing perfectly with the other pieces of this handsome three-piece library set. It is made of solid oak, in the rich fumed finish. Upholstered over four springs with burlap, moss and felt. Covering is the popular imitation Spanish brown leather, which looks and wears like real leather. Measurements are: Seat, 19½ inches wide; 18 inches deep; front posts, 11½ inches; arms, 15 inches high above the seat.

THE ARM CHAIR

The Table is unique in design, yet very practical in construction. It is made of solid oak in fumed finish. Has a 24x36 inch top, which is just a nice size, fitted with easy sliders drawer with pigeon design drawer pull and very convenient magazine racks at either side. Observe the tasteful cut-out panelled ends as shown above. Solid, substantial construction, excellent workmanship and striking style make this table a piece of furniture well worth having. This is a remarkable bargain and makes a very convenient set at a low price.

THE TABLE

The Rocker is built exactly along the same lines as the chair illustrated and described to the left. Solid oak, fumed finish, imitation Spanish brown leather upholstered, resembling the genuine leather. Next cut-out wood panels on both sides of the upholstered back. Good strong rocker. Upholstered over four springs. Shipping weight of complete set is approximately 150 pounds. Order it upon approval and if it does not please you in every way we will gladly refund your money.

QUARTER-SAWED OAK

TABLE TOP IS 26x42 IN.

No. 5K975 Price $7.75

THE TABLE is illustrated directly above and shows the elegance and simplicity of this fine Mission design of library furniture. The table top is made of genuine quarter-sawed oak and measures 26x42 inches; the balance of the table being constructed of thoroughly seasoned and kiln-dried solid oak. The continuous look shelf at either end and the entire lower shelf are desirable features, as they give added strength to the table and at the same time afford additional space upon which can be placed books and magazines. The panels are made to match those on the backs of the chairs and rocker and the magazine rack. This table comes in the attractive fumed oak finish and in an approved Mission design. If you do not order the entire set of six pieces illustrated and described on this page, we would particularly urge you to choose this table and one of the rocking chairs and the arm chair to make up a three-piece set. The pieces are so reasonable and our terms so liberal that you will not pass the turining point that we are shipping weight of table, about 60 lbs.

THE DESIGN of this couch recommends itself to those seeking beauty in their household furnishings; for, without question, it is one of the most artistic couches to be secured at a moderately low figure. The frame is made of substantial hardwood, veneered with genuine quarter-sawed oak. The moulding, as shown in illustration above, conforms to the curved lines of the couch itself, giving a very harmonious effect. The finish of the wood is the rich golden oak so popular the country over. Order it on approval, according to our liberal credit terms as explained on page 1.

UPHOLSTERING is the attractive imitation black leather which looks like genuine leather. It has a spring edge and full steel spring construction, having 21 springs in the body and 4 springs in the head. Over these springs is a covering of heavy duck canvas and a fine tow and cotton filling. This couch measures 27x75 inches, which is just the right size for comfort. It has deep diamond tufting, as illustrated, with an extra row of tufting buttons just below the edge. Shipping weight about 100 pounds.

No. 2K573 Price $13.75
BUY THIS HANDSOME CARVED COUCH

Note the Beautiful Style of This Number Figured Quarter-Sawed Oak Veneer Frame

This Couch Measures 27 x 76 Inches. Has Steel Spring Construction. This Handsome Couch Is Upholstered In Imitation Black Leather

FULL STEEL CONSTRUCTION. There are twenty-four springs in the seat and back in the head, making twenty-six in all. These are covered with heavy duck cambric and an extra fine flax hemp edging. Over this there is the imitation leather upholstery with deep diamond tufts, which double the spring and button tufting. It is made to give a very good spring edge construction.

THE FRAME OF THIS COUCH is made of thoroughly seasoned hardwood, faced with beautifully grained veneers. The square-cut legs and cross bars of hardwood are polished in a beautiful golden color with a high gloss finish. The picture also shows the close-up photograph of the couch itself, in any glow of being in the home, as well as in the home, as well as in the home.

ABANNER 5-PIECE PARLOR SUIT OFFER

This Splendid Suit Comes Handsomely Finished In a Rich Mahogany Color

Artistically Carved Top Panels On All Pieces.

Is Very Handsomely Designed

IN THIS PARLOR SUIT we are offering you one of the most pleasing designs in a suit of unusually good character, both in point of appearance and construction. While the prices are exceptionally low, the suit is made with due regard to great strength and durability—the quality being there just the same as if it cost more than the price we ask. Every home should have one of these fine parlor suits. Hartman brings the price away down—saving you many dollars.

COVERINGS are made of durable high finish materials, and no matter which you select you will be charmed by the appearance of your parlor suit when you put it in your living room. It's perfectly natural, though, that the more you invest for the upholstering of your parlor suit, the better quality of fabric you receive, and for that reason we suggest that you select one of the genuine leather coverings. The back of each piece is diamond tufted, each tuft being secured by a steel crowned upholstery's button. The seats are constructed with a setting of “Monarch” oil tempered steel springs.

THE FRAMES are constructed in a serviceable manner, being put together most substantially, every joint well mortised and doweled. The top panel on back is adorned with a deeply carved head and rich scroll design, which greatly enhance the beauty of this elegant suit. The arms of the divan, arm chair and rocker are completed with a beautifully carved head at the front. The Birch used in the construction of these 5 pieces has been thoroughly seasoned and kiln-dried, and is finished in rich mahogany with a high finish. This suit is made to last and will give good service.

WE WANT YOU to take advantage of our generous credit plan, which is freely offered to our friends and customers, and order this magnificent suit now. Have it shipped to you on approval—examine it closely and you will find it to be the great bargain we claim. If you will come to our local dealer's store or from any other home furnishing concern at the low prices we quote and an extra saving in price to our liberal credit terms, and furthermore, you get a year's time to pay. Shipping weight of entire set, about 255 lbs.

OUR PRIZE 5-PIECE PARLOR SUIT VALUE

This offer will astonish you because it is one of the best values ever added at the prices in a desirable and exceptionally durable Upholstered Parlor Suite. The upholstery will give you an excellent idea of the sturdy frame, the elegant and elaborate carving and the strength and solidity of each piece. This fine suit includes one of the comfortably springing platform chairs which is not often included in a suit at this low price. A splendid suit at these exceptionally low prices. It will be an ornament to any home. See page 1 for terms.

No. 2K576

Five Parlor Pieces at Very Low Prices

Pride of the Parlor

Choice of 5 Different Coverings

One of the biggest price concessions we have ever made is the offer of our customers in this bargain. We are offering you this elegant, beautifully designed, well-crafted and stylishly upholstered 5-piece Parlor Suite at moderate prices. The price is not in any way answered to the requirements of more expensive suits. We sell it at a very low price, and will give purchasers a year in which to pay. In fact, we will promptly ship this suit to anybody ordering it so that they can examine and try it in their own home, before actually buying it. We have our guarantee to protect you.

Material and Workmanship are splendid, because "Monarch" furniture covers for customers are very particular. They use high-grade materials. The frames are carefully made, the finishing is excellent and the upholstery is skillfully done. The carving, which can be plainly seen in the illustration, indicates the amount of care exercised in producing this suit.

The Massive Frame is of fine mahogany, birch, with heavy scroll-shaped arms and legs, which terminate in hand-carved claw feet. It is "Monarch" upholstered, containing steel spring construction with box, cotton and wool fiber filling, the backs are diamond tufted and the seat cushions are large and comfortable, shipping weight, about 225 pounds.

Genuine Quartered Oak, Walnut Veneer or In The Mahogany Finish at

$35.75

Your Choice Of Imitation Black Leather At Above Price Or Of Other Coverings as Quoted Below

Hand Rubbed And Polished Finish

A Design That Will Always Attract

EXAMINE THE ILLUSTRATION of this beautifully proportioned, elegantly designed parlor suite. It has a style that will appeal to those who have a keen appreciation of true furniture style. If you order it upon approval, place it in your parlor and see it among your surroundings. You will then realize how advantageously you can utilize your home ap- pertainances. You can have your choice of genuine quartered oak veneer, American walnut veneer, or mahogany finish, as you prefer. Each piece is hand-rubbed and polished, giving it a rich, mellow finish. When ordering, be sure to select the wood that you desire. You can also have your choice of imitation black or Spanish leather, genuine black or Spanish leather or florid designed tapestry at the prices quoted at the bottom of this page. Each one is an excellent value at our very reasonable price.

SPRING CONSTRUCTION. There are 5 oil tempered springs in the seats of the chairs and rocker and 8 oil tempered springs in the seat of the settee. These independent springs are similar to those found in the most expensive parlor suites. This construction adds firmness and lasting qualities. We direct your attention to the graceful shape of the arms, the curved lines of the backs and the pleasing center of the front posts. These also bear the diamond tufting on the backs. These are secured with steel pronged upholstery buttons, having the tiniest firm and secure. Take advantage of our liberal credit terms.

MEASUREMENTS. The settee measures 41 inches high. The seat is 26 inches deep and 27 inches wide. The chair and rocker each has a 24-inch seat, the side chair, each has a 25-inch seat. These side chairs are of particularly attractive appearance with long sweeping arms, as illustrated. This suit has our heartiest endorsement and guarantee. Ponderous weight carefully packed is about 600 pounds.

The Medal That Kroehler Won

Produced by Kroehler, Winner of the Panama-Pacific International Exhibition

Acknowledgment

If the great supremacy as well as recognized supremacy was the earnest of the first prize to the creator of the famous Kroehler bed design, the Kroehler received that distinction. When expert judges indicated their recognition of this manner, the consumer has a guarantee of merit that is lasting in no particular. The model which we show on this page is one of the most interesting patterns that has ever been produced by the great Kroehler factories and it will be sold at a price that makes it one of our greatest values.

The Construction:

Genuine quarter-sawed oak or mahogany finish. The oak design is made with genuine quarter-sawed oak veneer for rail, arms and front, with solid genuine quartersawed oak panels; the entire frame being made of hardwood thoroughly seasoned solid oak. When finished in golden oak, you can have a choice of dull or polished finish. The mahogany finished design is constructed with genuine mahogany veneer, in dull or polished and finished finish. When constructed of mahogany, the panel is made of mahogany back.

Prize at the Exposition

Showing This Duofold Opened Ready To Be Made Up As A Bed. Size of Bed 72 x 48 inches. Length of Sofa Closed 52 inches Between Arms.

Made With

The renowned Kroehler Duofold seat and back construction. Seat has spring support, made of steel crimped wires running lengthwise and crosswise, fastened to hardwood frame on ends with helixes, making elastic support for upholstery springs.

Genuine Quarter-Sawed Oak Veneer Or Mahogany Veneer. Used On This Elegant Model

There Are 18 Premier wire springs in the seat which are neatly fastened on top. Heavy duck canvas over springs, fine flax fiber with heavy layer of cotton felt filling, firm edge. Spring back with tough wood frame and cloth filling. Construction has proven very satisfactory.

The Device

Used on back of this davenport is a new invention. It automatically releases and partly opens this sofa bed for unfolding. Bed frame is shown in the small picture at the top of the page. In its position for unfolding, it becomes iron, fold and unfolds with as little real quiet motion as you see by the illustration. You don't keep on the upholstery. Nor as can be used on this davenport is removable for dusting.

No. 2K536. Price...$4.65

Very Massive

This is an exceptionally massive piece of furniture. Yet in spite of its size and proportions it is a wonderfully graceful article. Observe the pleasing contour of the Colonial scroll shown in this number. With this ease you make your living room serve as a bedroom at night. You can take care of two guests without having an extra room. Shipping weight about 260 pounds. $29.95 The Medal That Kroehler Won

UPHOLSTERY is imitation Spanish brown leather, a covering which is an excellent substitute for real leather, resembling it in appearance and found to be very substantial and durable. It attractively set off with real sewed seat front, as shown in the picture above.

CHICAGO

CHOICE OF QUARTER-SAWED AND SOLID OAK OR GENUINE MAHOGANY VENEER, UPHOLSTERED IN IMITATION SPANISH BROWN LEATHER, AS SHOWN.

THE ROCKER. Genuine quarter-sawn oak veneer is used on this rocker. The panels being of solid quarter-sawed oak. The remainder of the frame is of kiln-dried, seasoned, solid oak. Beautifully gilded or finished. It is also made in mahogany finish. The top, arms and entire front being genuine mahogany veneer. The balance of the frame being constructed of mahogany birch. This rocker has slip seat with heavy springs supported on steel band irons. It is upholstered in genuine leather. This rocker is made to order.

THE CHAIR. The general construction of this piece is the same as the rocker. It likewise can be ordered in either oak or mahogany finish. The former has genuine quarter-sawn oak veneer top, arms and entire front, with solid quarter-sawed oak bands, the balance of the frame being constructed of seasoned solid oak. When ordered in this model it comes either gilded or finished, as you wish. The finish preferred. If desired in mahogany finish, advise us accordingly. When so finished, the top, arms and entire front of the frame. The balance of the frame being constructed of genuine mahogany veneer, the top, arms and entire front are constructed of genuine mahogany veneer. The balance of the frame being constructed of mahogany birch. This slip seat has 5 steel springs supported on steel band irons, securely fastened. Mahogony Spanish brown leather is used upholstering this chair. This covering bears a close resemblance to genuine leather, but is preferred for its excellent wearing qualities. The beautiful Colonial feet in front and Colonial area are made to correspond with those of the rocker. Shipping weight, about 60 pounds. No. 2K595. Price $10.85

THE DUOFOLD can also be so ordered in your choice of finished or solid oak or mahogany finish, the construction being the same as shown in both the chair and rocker above. The seat has a spring support made of steel crimped wires in running and crosswise, fastened to the hardwood frame on the ends with helical springs, making an electric support for the upholstery springs which are interlaced into three crimped wires.

IT IS made with 15 spring compression and crimped wires in the seat, securely secured on top. Heavy duck canvas over running and crosswise with heavy layer of cotton fillings. When so fastened, full swing back with tough webbing and cotton fillings. Upholstered with imitation Spanish brown leather. Looks a great deal like genuine Spanish leather. New device automatically releases and returns to a horizontal position. Shipping weight, about 25 pounds.

WONDERFUL BRASS BED VALUE
Has 2-Inch Posts and New Polet Finish

THIS BRASS BED is in every way at the price we ask and is beyond comparison. The finish is the New Polet style, which is a satin finish on the posts, fillers, and top and bottom cross rods, and bright finish on the mounts. The bright brass ornaments form a very striking contrast to the satin (dull) finished parts. The bed is of the continuous post style, with 2-inch posts, making it very massive. The mounts are unusually large and imposing. The design of the bed is one of our new patterns for this year and is sure to meet with much favor with our customers. You should not delay in sending your order, for you can buy it on our liberal credit terms shown on page one.

YOU CAN have your choice of ordering this bed in any size: 3 ft., 3 ft. 6 inches, 4 ft., or 4 ft. 6 inches (full size), at the same price. It is sure to stand size or wish, when ordered. This is an elegant bed and is of a design that is fine enough to be placed in the best rooms of the best appointed homes. It stands 28 inches high at head end and 28 inches high at foot end. Fillers and cross rods are 1 inch in diameter. Shipping weight about 125 lbs.

This is a Sensational Bed Offering That Will Positively Astonish You!

Choice of White or Green Enamel or Vernis Martin

This Massive Bed is a true value of the "pay less" type. We think so much of it that we devote an entire page to this one and we see how simply it can be done. We see how many people throughout the country are buying new beds in this style and it is still the same value. It is a setting for beds with iron fillers. You can have your choice of beautiful white or green enamel, or if you prefer, we will mail you the booklet "Vernis Martin," 18 page bound booklet, including all the information you need to know. The panels are of a distinctive design and finish. In ordering please tell us which you desire. The panels are of beautiful floral pattern executed in a manner that will please the most fastidious. The panels come in four sizes, which is 12.5' x 14'. The posts are 1 1/4 inches in diameter. The cross bars are 1/2 inch. The tube is 4 1/2 inches high, the base is 7 inches high, and the smaller parts at the head end are 4 1/2 inches long. The bed ends are 2 1/2 inches high, the foot end is 4 1/2 inches, and the beautiful corbels of the panel frames the unusually ornamental design and the heavy metal mounts. Sliding weight about 100 pounds.

No. 3K1715. Price... $6.95

Number 3K1715
In the production of these beds the manufacturer has successfully attained strength without weight. Cold rolled burnished steel tubing is used. This lessens the freight cost and gives the housewife a lighter article to handle, reducing the marring of floors and tearing of rugs and carpets. The steel surface is bright, smooth and is highly polished. The finish which this kind of surface takes, approximates perfection. Have one of these beds sent on approval.

**THE SImpLICITY of the pattern shown to right is in keeping with high-class brass beds. Has 2-inch continuous steel posts. 1/4-inch bottom rods, 1/16-inch filling rods. Choice of white enamel or Vernis Martin (gold brass) finish and made in following widths: 3 ft., 3 ft. 6 in., 4 ft. and 4 ft. 6 in. State size and finish preferred. Head rod measures 22 inches high; foot end 26 inches high. Shipping weight about 70 pounds.**

**Lighter Than Iron Beds**

**Pillars are 14 inches in diameter for bottom and filling rods each 10 inches in diameter. The head end measures 28 inches in height, the foot end measuring 38 inches. We recommend this bed as an excellent value at price. Shipping weight about 72 pounds.**

**STUDY THE ILLUSTRATION of this simple and attractive bed. It has the earmarks of the more expensive brass beds and still possesses reasonable simplicity at a moderate price. The high quality cold rolled burnished steel tubing used is lighter in weight than the iron bed rods and still possesses great strength and durability. The housewife will appreciate the fact that it is built in weight and therefore easy to handle without sacrificing its massive and pleasing lines.**

**WHEN ORDERING please tell us whether you prefer the white enamel or Vernis Martin (gold bronze) finish.**

**Corner bend on continuous post is practically perfect. Upright filters tightly cold-fitted into sockets which have been electrically welded to bed frame. By this electric welding metal rod ends are fused into bed frame, resulting in one solid piece of double thickness insuring rigidity.**

NEW PROCESS STEEL BEDS

In these models the manufacturer has successfully produced light weight, high quality, cold rolled, burnished steel tube beds. They are lighter in weight than iron beds and yet are wonderfully strong. This lighter weight reduces marring of floors, tearings of rugs and carpets and likewise reduces the freight cost. This steel is about one-third the thickness of the old gas pipe. Be sure to mention in your order which finish you prefer to have us send to you.

All Have Massive 2-Inch Pillars

The Corner Bend on this model is in true and even lines and know that you will be highly pleased with it in every way. Read the details of construction explained at the top and bottom of this page for a fuller understanding of the advantages of this model. The corner head in true and even and the upright fillers are tightly cold fitted into sockets which have been electrically welded to the bed frame, resulting in one solid piece of double thickness.

Continuous Pillars: measure 2 inches in diameter. The two top poles as well as the bottom cross rods each measure 1 1/16 inch in diameter, the upright filling rods being of the same size. You may have your choice of white enamel or Venezia Martin (gold bronze) finish. This design is made in 5 ft. 6 in. and 4 ft. 6 in. sizes. Please state the finish and size you prefer when sending us your order.

No. 2K1812, Price $10.65

The steel surface is bright, smooth, and as highly polished as the blade of a saw. The finish which this kind of surface will take is superior in every way. The enamel used on these beds almost as smooth as glass.

The Finish Is Close To Perfection

You May Select

Lighter In Weight Than Iron Beds

A Rich Design is a steel tube bed as shown above. The attractive pattern may be ordered in either 5 ft. 6 in. or 4 ft. 6 in. sizes. When ordering kindly state 5 ft. 6 in. or 4 ft. 6 in. size. Also whether white enamel or Venezia Martin (gold bronze) finish.

The finish is cold-rolled and burnished. The head end is 52 inches high of head end is 25 inches. This design will stand the daily wear and tear of the hardest and most demanding use. Also the cost is very reasonable. The shipping weight is about 80 pounds.

No. 2K1814, Price $11.25

We Recommend the purchase of this steel tube bed and know that you will be highly pleased with it in every way. CHICAGO 141

HIS COLD ROLLED BURNISHED STEEL TUBE BED IS A WONDERFUL MODERN ACHIEVEMENT — Bright — Beautiful — Sturdy — Inexpensive

STEEL BED in a popular design. This is not merely a statement, but a fact. In this number, the manufacturer has successfully made a light, high quality, Cold-Rolled, Burnished Steel Tutto Bed. He has succeeded where others failed. It is lighter than the Iron bed, yet is wonderfully strong. In fact, it has strength, without weight. This is a feature of two-fold advantage: it lessens freight cost and renders the housewife a lighter article to handle. This lighter weight reduces the marring of floors and tearing of rugs and carpets. The steel is about one fourth the thickness of the old gun pipe, and the decrease in weight is proportionate. This advancement has been achieved in the finish. This year sees the perfection of finish—perfection that in the specialized treatment of the metal surface and in the application to this perfected surface. The steel surface is bright, smooth and as highly polished as the blade of a saw. The finish which this kind of surface will take, surpasses perfection. We direct your attention to the corner bed, which is absolutely perfect and even as in the higher priced brass beds. Freight fillers are tightly corbonized sockets which have been electrically welded to the bed frame. By this electric weld, metal red ends are fused into bed frame, resulting in one solid piece of double ends.

THE WONDERFUL FINISH is explained in the paragraph to the left. But you can not appreciate how fine a job is done until you see the finished product. The stamped and formed parts on this bed are smooth as glass. You can have your choice of White Enamel or Vernis Martin (gold finishing) finish, as you desire. When you send your order, kindly tell us which finish you prefer. By describing this wonderful bed, we have explained how light it is to handle, in proportion to its size. But do not be misled as to the magnitude of its proportions. It is a mammoth looking bed yet an extremely graceful one. The continental posts are 2 inches in size; the cross rods and fillers likewise measuring 2 inches in diameter. The head and foot are 62 inches from the floor. The foot ends 25 inches high. These rod measurements include casters. We offer this extraordinary number in the full size, which is 6 ft. 6 inches in width. Our experience in the sale of beds dates back many years. We have bought and sold hundreds and hundreds of them in a comparatively short time. But better in the history of our experience have we seen an offering that can compete with this one in a steel tube bed. The value is stupendous at this incomparably low figure. Shipping weight, about 96 pounds.

CONFIDENCE plays a big part in the purchase of goods of any kind. It is especially important when it comes to buying goods by mail; because you must have confidence in us, and we must have confidence in you. We state frankly that we have the utmost confidence in the average person. We trust our customers absolutely. That’s why we are going to let you try this bed on approval, with the understanding that if it is not satisfactory you don’t have to keep it. If it pleases you, pay for it according to our easy credit terms.

THE FINISH is the new Polet style, which is a finish adopted on the posts, fillers and top and bottom rails and head, which is a finish adopted on the posts, fillers and top and bottom rails and head, and is a finish adopted on the posts, fillers and top and bottom rails and head. The finish comes in a striking contrast to the customary brass bed. The fillers are 2 inches in size, making this a new bed that the custom is exceptionally fine and lasting. It is a finish adopted on the posts, fillers and top and bottom rails and head. Our finish is applied to the posts, fillers and top and bottom rails and head. Our finish is applied to the posts, fillers and top and bottom rails and head.

REMEMBER that you can have your choice of any size that you desire—3 ft., 3 ft. 6 in., 4 ft. or 4 ft. 6 inches at the same price. In sending us your order be sure to include with it the size you wish. This is a bed line enough to be placed in any bedroom no matter how elegant. Heads are made, 24 in. long and 24 in. long. The leads are shorter than most dealers ask for Pollet beds of this size. Fillers are made to order and top and bottom rails are 1 inch. Shipping weight about 116 lb.

ORDER THIS FINE BEDROOM SUIT AND MAKE A HANDSOME SAVING.
We Will Send It To You On Approval

Nicely Made of Durable Hardwood
Finished in American Quartered Oak

YOU WILL GET A BARGAIN if you send us your order for this fine bedroom suit, for we believe that at this price it will be found hard to equal. It has been carefully constructed and was designed by our merchandising department to be a bedroom suit that would be a substantial, durable set and yet sell at a low price. We think we have accomplished our purpose very thoroughly and we feel that to overlook this offering is to pass up a real good value. Take advantage of the liberal offer this page contains. You are entitled to every advantage this book offers and we invite you to buy this handsome bedroom suit or anything else you may desire and take a whole year to pay.

IT IS OUR POPULAR MODEL and one of the neatest bedroom suits ever built for the amazing low price. It is made throughout of durable hardwood, to which is applied a finish in imitation of quarter-sawed oak, that closely resembles the real wood. All drawers are constructed so as to slide in and out very easily. The joints are expertly fitted as well as every mortise, brace, hinge and moulding.

THE BED is 60 inches high at head end and is 4 feet 6 inches wide. It has broad, three-ply, built-up panels at head and foot. The carved ornaments on the head and foot ends, together with the unique post tops, make this bed decidedly artistic in appearance. It has stout corner posts, heavy side rails and bed slats, and is a bargain at our price.

THE DRESSER has two top drawers and two long deep drawers below. The top of the dresser has straight side and front edge and is 33 1/2 inches in size. The base has panel cuts and strong corner posts. Has a large French beveled mirror measuring 22 x 15 inches. The mirror standards are scroll design and mirror frame is decorated with artistic carving, about 500 pounds.

THE COMMODE included in this bedroom offer has top measuring 20 x 13 in., with straight cut edges. Has long deep top drawer, commodious cupboard below, fitted with two doors and paneled ends. Top is fitted with sharply pointed with strong towel rod.

IT IS for sale complete on our easy credit terms with over a year to pay, as indicated on page one of this catalog. Suit comes restored, fitted with attractive drawer pulls, locks and keys, shipping weight, about 500 pounds.

THE PRINCESS DRESSER

No. 3K1742. Price $13.75
All Three Pieces Are Beautifully Finished In A Rich And Very Attractive Golden Color. Note The Pretty Carvings.

Order Suit By No. 3K1637. Price, $26.75

THE DRESSER is made throughout of thoroughly seasoned and kiln dried oak, golden color. The single end panels are of durable solid oak and the back panel is 2-ply lumber. The attractive serpentine shaped base top adds greatly to the appearance of this dresser. The shapely mirror frame standards, and neat carvings shown, combine to make this dresser one that demands your attention. To be sure, it is not overly lavish, and it is its very simplicity that will appeal to all critical buyers. The base top measures 38 x 19 inches and the French bevel plate mirror is 20 x 18 inches. Total height is 66½ inches. The two overhung top drawers and the two full length drawers below afford ample capacity for the needs of anyone. Round wooden knobs used on the drawers. Observe the French shaped feet and the near panel across the bottom of this dresser. Complete with hardwood casters.

THE BED is very well constructed in a workmanlike manner and made throughout of thoroughly seasoned and kiln dried oak, golden color. The panels in both the head and foot ends are made of 2-ply lumber. You will observe that the carving at the top of the bed and that across the foot end harmonize beautifully with the embellishment appearing on the dresser as well as the commode. Like those other two pieces, the finish is a rich golden color, which will be found to be very appropriate with all surroundings. Next French shaped front bed are attractive in appearance as is the entire design of this piece of furniture. The rails are 32 inches long, the slats are 4 feet, 6 inches, the height over all is 66½ inches. The top is furnished with hardwood casters.

THE COMMODE is the counterpart in style of the dresser shown and described above. The solid oak standards are gracefully curved to correspond with the mirror frame standards on the dresser. The deep carving is made to match perfectly the shapely serpentine front of base top corresponds with the dresser to perfection. This commode has a full length top drawer and a double door cupboard below, as illustrated. Drawers and cupboard door both fitted with round wooden knobs. It is made throughout of thoroughly seasoned and kiln dried oak, the single end panels are of solid oak, while the back panel is 2-ply lumber. The finish is a rich golden color to match both bed and dresser. The base top measures 30 x 17 inches, being just a nice size, and the height is 37 inches from the floor to the extreme top. This commode is fitted with hardwood casters. The shipping weight of these three pieces, all carefully packed to insure safe arrival, is approximately 290 pounds.

ALL ARE SPECIAL LEADERS. The wonderful values given on this page are made possible through a very fortunate purchase, and we can therefore offer them to our customers at prices lower than those usually quoted by any other house furnishing concern in the country for merchandise of this quality. This suit is made of hardwood, to which is applied a finish in imitation of quarter-sawn oak, that closely resembles the real wood. We particularly invite you to compare this suit with any similar one, and thus see that much greater values are given here than anywhere else.
THREE-PIECE BEDROOM SUIT

Very Stunning Colonial Design
Substantially Constructed of American Quartered Oak In The Rich And Attractive Golden Color

TAKE A YEAR TO PAY

We Trust You

ORDER ABOVE SET BY FOLLOWING NUMBER
No. 3K1644. Price $30.65

THE DRESSER is the latest product of one of the largest furniture factories in America, as are the bed and commode forming this extremely attractive, highly serviceable bedroom suit. The dresser is constructed throughout of durable thoroughly seasoned hardwood, to which is applied a finish in harmony of genuine quarter-sawn oak. The three-ply, built-up stock is used in the back and drawer bottoms, a method of interior curetting being applied to this piece of furniture perfectly square and very rigid. The base measures 20x38 inches and the French bevel mirror with rounded top is 26x21 inches in size. Colonial arms of polished quarter-sawn oak correspond with the sharply corner posts in the base. Features a rich gloss finish, overlying top drawers and two full length drawers below, as illustrated. Bound wooden knobs.

NAPOLEON BED is made of the same durable materials as the dresser and the Napoleon posts have a fine beauty with the shapely contour of the dresser posts. This very massive bed is made of thoroughly seasoned hardwood, to which is applied a highly figured imitation quarter-sawn oak finish. It bears a remarkably close resemblance to genuine quarter-sawn oak. The high gloss golden oak finish enhances the appearance of the bed, making it exceptionally pleasing to the eye. The height of the head end is 56 inches, and the foot end measures 55 inches from the floor. This is not a small size bed by any means, as it measures 1.51 inches in width (4 feet 6 inches.) It is constructed throughout in a workmanlike manner, all parts being carefully cut and finely jointed. The panels are made of three-ply built-up stock which will not split or crack.

COMMODE is also constructed of kiln-dried hardwood, finished in a rich imitation quartered oak. As described above, this finish bears a wonderfully close resemblance to genuine quarter-sawn oak so much so that the average person could not tell the one from the other. Comes in a golden color and matches the other pieces of this set. The base measures 18x22 inches, which is just a nice size and will prove sufficiently large for the needs of anyone. This commode stands perfectly solid, this substantial construction produced by reason of a system of interior bracing. Although this construction does not appear from the outside, it is but another example of our sincerity in presenting to you merchandise that is not skimped in any way. The back and drawer bottoms are made of three-ply stock. Has full length drawer and double door commode. Shipped weight of complete set, about 300 pounds.

NEW "IMPERIAL" CIRCASSIAN WALNUT

Or Imitation Mahogany Finish Is Used In This
FINE COLONIAL BED ROOM FURNITURE

These pieces are made by a special process. The finish used is substantial, durable hardwood to which is applied a matte finish. Circassian walnut finish, or a dull-rubbed mahogany finish, either of which is exactly reproduced and given to the genuine wood that it is difficult for the nonprofessional to detect the difference.

This Dresser is a very satisfactorily priced piece of furniture. It has the French bevel plate mirror and two large drawers with wood dowels from top corner posts. The front corners of the drawers are of Colonial design to match the mirror standards above. The top of the drawer measures 22x12 inches and the height of the base is 36 inches. It matches the other pieces of this set perfectly. Shipping wt. is about 150 lbs.

Price: $19.75

No. 3K1645

Princess Dresser

This Princess Dresser is the other piece shown on this page. It has a top and 18x20 inch French bevel plate mirror. The two extended top drawers are straight and the two large drawers have a swell front. Weight is 30 pounds.

Price: $18.75

No. 3K1649

The Commode is a very tastefully priced piece of furniture with imitation Circassian walnut or imitation mahogany finish to match the other pieces of this set. There are two small drawers in the front compartment under the mirror, and the French bevel plate mirror is of walnut finish. The top measures 22x12 inches. The height of the top is 36 inches. It matches the other pieces of this set perfectly. Shipping wt. is about 240 lbs.

It Is A Wonderful Bargain

18x32-in. Base Top

Bed Is Full Size Measuring 54 in.
No. 3K1746

THE BED is a Napoleon type with attractive Colonial scroll front posts. Its made of hardwood to which is applied a finish imitating genuine quarter-sawn oak. This gives a golden finish. Height of head end is 58 inches, front and 56 inches, full width bed, measuring 34 inches. Comes complete with covers as shown. Shipping weight, about 150 pounds.

THE COMMODE is a solid, Colonial design to correspond with the other pieces of this set. It is made of durable, hardwood to which is applied a well known American quartered oak finish. Gives the appearance of real quarter-sawn oak. Has heavy scroll posts, overhanging top drawer and straight feet. 48.52 inches high. Shipping weight, about 100 pounds.

THE DRESSER is a striking Colonial design. It is likewise made of substantial hardwood with the attractive American quartered oak finish. This is applied to the hardwood as to give the appearance of real quarter-sawn oak. Has a high gloss finish. Two top drawers, slightly overhang at two large, empty drawers below. Heavy Colonial posts and standards, together with the scroll feet add greatly to the appearance of this model. Base measures 21x42 inches and the French bevel plate mirror, 21x39 inches. Each piece is strongly constructed and backed by our guarantee of satisfaction or your money refunded. See page 1 for liberal credit terms. Shipping weight, about 150 pounds.

“Let Hartman Feather Your Nest”

ORDER FROM US

A Year to Pay

THE SET is made for the kind of wear that you are going to give it. “Beauty is only skin deep” and if we could say nothing more about this set than that it is handsome, we would not give it an entire page in our catalog. But it is strong, durable, serviceable and practical. Take us at our word, test it out in your own home and judge for yourself. Then if you do not care to keep it, you are under no obligation to do so. It is made of genuine quarter-sawn and solid oak.

THE BED is of unusual design, with bold, effective carvings in the head and foot, as illustrated. The attractiveness of this piece will at once appeal to the love of beautiful bedroom furniture. Note the heavy claw feet, the splendid rich grain and the artistic tone that this fine bed possesses. It is 4 feet 6 inches wide; head measures 8 inches high. Bed panels are three-way rotary oak, which insures service, and the large roll on the footboard is quarter-sawn oak.

THE DRESSER will back up every contention that we make for its service-giving qualities. And we say positively that no matter how far you look you will not find a more practical dresser included in a bedroom suit at our exceeding low price. It is made to match the other pieces shown in this outfit. The entire front is made of fine factory quarter-sawn oak. Has two small top drawers, 2 large drawers, all with attractive swell front. The mirror is a fine French Bevel Plate, measuring 24x16 inches. Has heavy claw feet resting on easy sliding casters. Base measures 41.14 inches. Is fitted with locks and key.

THE COMMODE may be secured either with or without the mirror. It is made of quarter-sawn oak and harmonizes perfectly with the other pieces in beauty of design and serviceability. Has large shaped top drawer, two smaller drawers below and compartment as shown in the illustration. This compartment has panel door. Base measures 34.12 inches and the mirror is 14.12 inches. Proven by our liberal offer and have this fine set of furniture sent to you. You are protected by our legal guarantee, and are taking no chances whatever. Ship. wt., about 219 lbs.

Made of Genuine Quarter Sawed and Solid Oak
In Bungalow Design

SIMPLICITY OF STYLE in bedroom furniture is what you want to be desired when such simplicity results in the execution of such a suit as the one illustrated on this page. It is the kind of furniture that is particularly adapted to summer use—whereby it gets its name. The Bungalow design has met with great favor among the practical women of today. They see in it not only statelyness and beauty, but its sanitarian features as well. For this furniture can be kept clean with great ease.

THE DRESSING TABLE illustrated to the left is made of substantial solid oak and comes in either a golden or fumed finish as you prefer. In ordering kindly state your preference. Like all of the other pieces in the set it is built in the mission style, Bungalow design. The top of the base is a convenient size, being 20x26 inches. The drawers are fitted with maple wheel casters. Shipping weight about 395 lbs. No. 3K1000. Price $13.50

Stupendous Values

CHIFFONIER is a typical mission piece in substantial Bungalow design. It is substantially made of durable solid oak and comes finished in either glossed golden or fumed, as you prefer. Please state your preference in writing your order. There are two top drawers and four full length drawers as shown, all fitted with finely designed wooden drawer pulls. The French beveled plate mirror set into a square frame rests between two mission designed standards and measures 43x24 inches. It is a very fine looking piece of furniture, standing 60 inches in height, the top of the base is 21x24 inches. It is built by thoroughly experienced makers and is a very exceptional value at our exceptionally low price. In shipping please state your preference and it is sold under our legal guarantee of absolute satisfaction or your money refunded. Fitted with maple wheel casters. It weighs 495 lbs. packed ready for shipment.

No. 3K1001. Price $21.65

No. 3K1003. Price $9.25

Bed No. 3K1002. Price $13.75

This Striking Bed is an excellent example of real Mission bedroom furniture. It is made in the Bungalow style, and is made throughout of strong, solid oak. You can have your choice of either golden or fumed finish. It stands 46 inches high at the head end, and comes in full size only, which is 74 inches. The posts measure 1 1/2 inches and the pillars are all 1 1/2 inches in size. It is a bed that you will be mighty glad to own and one which we endorse very highly. It is fitted with maple wheel casters. It weighs, packed for shipment, about 125 lbs.

No. 3K1004. Price $22.85

WASHSTAND shown to the right is made of durable solid oak in glossed golden or fumed finish. It matches the other pieces perfectly. Has full length drawer and two door compartment below as well as towel rod supported by Mission standards. Wood drawer pulls and maple wheel casters. Top of washstand measures 24x21 inches. A very exceptional value. Shipping weight about 195 lbs.

No. 3K1005. Price $22.35

PRINCESS DRESSER corresponds exactly with the master dresser shown in the above golden or fumed finish. It is likewise built of solid oak, in your choice of either finish. Has a heavy French beveled plate mirror measuring 38x19 inches. It stands 72 inches high and has a large key top. These drawers have wooden drawer pulls. Fitted with maple wheel casters. Shipping weight is about 200 lbs.

No. 3K1003. Price $9.25

The bed is made with artistic turned posts as illustrated. Although this bed is maple in style, it is substantial in construction. You can order it in genuine quarter-sawn oak or bird's-eye maple. Please mention which you desire. Has sanitary metal side rails—a very commendable feature.

You should order this number if you want to combine appearance with fine workmanship. The posts are 42 inches high and the width is 4 feet 6 inches; this being a full sized bed. Is equipped with maple wheel casters. A great value at the price, shipping weight about 150 pounds.

No. 3K1180
Price $21.95

The chiffonier is shown directly below. This is likewise made of selected quarter-sawn oak (except the posts, standards and mirror frame) in golden color, glass finish or can be had in bird's-eye maple—state which you prefer. Two top drawers with octagonal raised panels; four full length drawers below.

It is of the Tudor period. Has bird's-eye maple, turned posts, octagonal shape French bevel plate mirror measures 18x26 inches. Weight 6 inches thick. Turned standards and feet. The shipping weight, carefully packed, is about 125 pounds.

No. 3K1181
Price $22.65

The dresser is illustrated above in the large picture. It not only serves as a true representation of the dresser itself, but shows to advantage, the beautiful lines, maple knobs, maple wheel casters, octagonal shape French bevel plate mirror measures 18x26 inches. Weight 6 inches thick. Turned standards and feet. The moulded mirror frame, of octagonal design, corresponds with the octagonal raised panels on the two top drawers. And be sure to note the heavy plank base top. There are two full length drawers below. For further particulars about this dresser, read the paragraph to the right.

No. 3K1184

You should order this number if you want to combine appearance with fine workmanship. The posts are 42 inches high and the width is 6 feet 6 inches; this being a full sized bed. Is equipped with maple wheel casters. A great value at the price, shipping weight about 150 pounds.

No. 3K1185
Price $18.75

The princess dresser is an art in grace and beauty. Like the other pieces this page it is designed in the true Tudor period with turned mirror frame standards legs. You can order it made of genuine quarter-sawn oak (excepting the posts, standards and mirror frame) in golden color, glass finish or handsomely bird's-eye maple. When ordering please state which you prefer. One of features in the stunning moulded mirror frame shown in the picture above.

This value can be appreciated thoroughly only by actually seeing the princess dresser itself. The mirror frame and mirror are of the striking octagonal shape and the two top drawers have octagonal raised panels to correspond. There is a full length mirror below. Drawers are fitted with oak knobs. Maple wheel casters. A great value at the price, shipping weight about 150 pounds.

No. 3K1185
Price $18.75

The dressing table can be secured made of a genuine quarter-sawn oak (except posts, standards and mirror frame) in the golden color, glass finish. Or you can have the same piece made of bird's-eye maple at the same price. Has oak knobs and maple wheel casters. Two drawers with octagonal raised panels. Tripple mirror as illustrated below is a feature; you can get it in black or gold leaf. Center mirror, French bevel plate, 15x26 inches. Two side mirrors, plain plate, 6 inches high, 4 inches wide. Weight 12 inches thick. Turned standards. A typical Tudor period dressing table of this kind has an overall size of 62 inches high, 30 inches wide, 20x26 inches. Total weight, about 125 pounds.

**THE ATTRACTION DRESSER**

- Designed directly above. This full-size bed is made of genuine quarter-sawn oak in choice of waxed golden or fumed finish, or ivory enamel. The panels are constructed of 3-ply built-up stock, which reduces the warping or split. The five-slat design in the head and foot ends results in the artistry to the bed to a degree. You can order it in your choice of ivory enamel, waxed golden or fumed oak finish, which will be shipped in Adams period furniture. It is made of thoroughly seasoned and kiln-dried solid oak throughout, with the back, end and drawer bottoms made of 3-ply built-up stock, which lessens warping and splitting. This dresser is made of drawers; two full length, one of drawers below and three small ones above, the center top drawer being set off with neat period straight line decoration. The base top measures 30 inches in size, and the French plate mirror is 35.5 inches wide. We give you your choice of waxed golden, fumed oak or ivory enamel finish. In any case, please advise what you prefer. The trimmings used on this dresser are unique in style. Are made of brass and just as shown in the illustration. They correspond with the trimmings noted on the chiffonier and dressing table described above. Shipping weight: 150 pounds. | $16.75

Colonial Dresser

The MONEY PROBLEM confronts every human being. The man who makes his money do the greatest amount of work for him makes his money do the greatest amount of work for him. Without a doubt, the greatest problem of success. We are in business to make our money do more. By doing so, we likewise place ourselves in a position to increase the value of our investment because naturally the better our business grows. The size of our business is directly responsible to the fact that we have offered such high values to our customers.

THE BEAUTIFUL DRESSER is a typical HARTMAN value. It is made of thoroughly seasoned hardwood and is the proper imitation quarter-sawn oak. This is made to resemble quarter-sawn oak and to the average eye looks just like the real quarter-sawn. The octagon-shaped mirror frame and French bevel plate mirror add to its very attractive appearance. The style is enhanced by the Colonial mirror standards and corner posts, as well as the two overhanging top drawers. This goes to a perfect Colonial design and is built upon lines sufficiently large to prove a lasting piece of furniture. The finish is the rich golden oak.

There are two full length drawers below the base, which afford ample capacity for storing. The base is made of three-panel built-up stock, which prevents splitting and warpage. The grain prevalent on this piece of furniture is even throughout and adds to all critical judges of household furniture.

Shipping weight, carefully packed, is about 32 pounds.

Princess Dresser

This Is A Very Attractive American Quartered Oak Dresser. Has Heavy Plank Top. Swell Lower Drawers.

THE TIME TO BUY. When you are ready in need of furnishings for your household, then is the time to fulfill your requirements. We do not advertise you for purchasing merely because our merchandise is low in price. We will say frankly, however, that because of our liberal offers of times the great number of orders and the effort to fill our stock, it is well to place your order early to avoid possible disappointment. It costs so little to have just what you want that you would not wish the feeling amount it costs. For this reason it is to your advantage to send us your order without delay, if you see some article that suits your fancy. Take for example this fine Princess dresser.

THE PRINCESS DRESSER is made of hard wood to which is applied a finish to simulate quarter-sawn oak. It has a heavy plank top measuring 28 x 44 inches and an attractive long French bevel plate mirror measuring 20 x 24 inches. The mirror rests between two gracefully shaped Colonial standards, as shown in the illustration. There are two straight overhanging drawers in the top, and two full length drawers below, the latter being made of quarter-sawn oak. The corner posts are made of beautiful Colonial design to conform with the shape of Colonial standards above. This Princess dresser is fitted with wooden drawer pulls as shown. Base height, 31 inches.

YOUR BED ROOM will be more complete if it contains this fine looking piece of furniture and after once having as you will wonder how you ever managed to get along without it. Send for it upon approval, and judge for yourself whether it comes up to the claims of extra quality. We feel that you will be well pleased with it and be glad to avail yourself of our liberal credit terms shown on page 1. However, if it does not satisfy you in every way and you do not desire to keep it, remember that you can return it and we will reimburse you for every cent that the transaction has cost. Clearly this is a liberal proposition. Shipping weight, about 159 lbs.

A NEAT COLONIAL DESIGN

In An American Quartered Oak Dresser of Substantial Construction. Has Overhanging Top Drawers As Illustrated.

$13.85

TriPLICATE MIRROR

Is The Feature Of This American Quartered Oak Dresser. A Fine Value At This Price

$14.95

THE LUMBER used in this dresser is substantial hardwood, to which is applied a finish in imitation of quartered oak. It has two overhanging top drawers and two full length drawers below. The neatly shaped front posts terminate in Colonial scroll feet, as illustrated. Drawers are fitted with round wooden knobs.

TRIPLICATE MIRROR enables you to observe your reflection from the front as well as left and right profiles at the same time. This is easily accomplished by having side mirrors slightly forward and a small picture to the left. This is a very desirable feature in a low priced dresser.

MEASUREMENTS. The base top measures 48 inches wide and 10 inches deep. All three mirrors are French beveled plate, the center one being 22 inches in size, the side mirrors each measuring 22 inches. The center one is of neat design. Fitted with locks, key and casters. Shipping weight, about 110 pounds.

NEAT COLONIAL DRESSER

Of Massive Proportions. Made Of American Quartered Oak Has 45 In. Heavy Plank Top And Rounded Mirror Frame

Order
The Chiffonier To Match

IF YOU STUDY the illustration of the dresser shown to the left, you can gain some idea of the excellence of this wonderfully built, thoroughly substantial article. It is made of hardwood, to which is applied a finish in imitation of quarter-sawn oak, which gives it the appearance of genuine wood. It has a tasteful rounded mirror frame, beautiful heavy standards, massive plank top and corner posts. The excellent construction of both dresser and chiffonier is such as to appeal to you.

THE BASE particularly we wish to call to your notice, because it measures 45 inches across, being 21 inches deep. The mirror is nice and large, measuring 24 x 32. There are small top drawers made to resemble four, as shown in the picture and two full length drawers below. These are all dovetailed, allowing sufficient space for the needs of anyone. They are easy to slide in and out and are fitted with round wood knobs.

AND NOW that you know the details of this superior piece of furniture, we want to say a few words about it. We consider it one of the greatest offerings that we have ever made. In fact, we want you to shop around and see if you can find anything like it at our exceptionally low figure. Then you will really appreciate what a wonderful value it is and we know you will send in your order. Shipping weight about 150 pounds.

Quarter-Sawed Oak Dresser With Serpentine Front And Very Attractive French Bevel Plate Mirror. 42x21-Inch Top

THE GREAT DIFFERENCE between homes is not confined to the exterior, or outward appearance, of any house. To a great many homes that appear to be almost identical from the outside are in reality very different inside. What makes this difference, we ask? Is it the amount of money spent on the furnishing? Not always. Because we have seen many homes furnished by Hartman's with really very handsome equipment that surpass others even which cost twice what our goods sell for. The taste of the individual coupled with the total of what you buy, very largely determines the attractiveness of your home. Furthermore, when you buy from us you are taking no chances. You can place the goods in your home and if they don't measure up to your opinion of what they should be, ship them back and we pay all expenses.

ON THE OTHER HAND if the goods you buy please you, you can always make your payments a little at a time as explained in detail on Page 1 of this bargain book. Order this dresser and let us refer to the fact. It is substantial in every sense of the word. Genuine quarter-sawed oak is used on the entire front, base top and mirror frame and standards, the sides being of quarter cut solid oak. Quarter-sawed front is carried out on the drawers and top with the mirror frame designed to correspond. The finish is a high gloss golden oak, which harmonizes as well with the usual surroundings. There are two 4 drawers and two full length drawers, all fitted with turned wooden knobs. The deep top eases the appearance of that high-class piece of bedroom furniture.

THE ARTISTIC DESIGN is further improved by the French shaped mirror and French bevel plate mirror. Half inches wide and 21 inches high. The French bevel price of this item is because of a good size, being 21 x 32. When this dresser was conceived, the designer and maker spent a great deal of time in producing a model to sell at this price. In fact, it should be sold for more money. But both the manufacturer and ourselves have attained a point to give you something better, something finer than usual. And it is with a sense of pride that we present this model to you at this figure. Shipping weight, about 150 pounds.

HANSDOME COLONIAL DRESSER

IN YOUR CHOICE OF RICH QUARTER-SAWEAD OAK
IMITATION CIRCASSIAN OR MAHOGANY FINISH AT

$19.85

WE GUARANTEE IT: if we sell it, that is the policy of this company. It applies to every single article of furniture that we offer. We do not guarantee any article, nor do we claim perfection in our work. On the other hand, if you find an error in any one of our books, it will be good enough to be ended and frustrated by this institution. But the person you are taking absolutely no chances in any way, no matter what you decide to buy from us.

TAKE YOUR CHOICE of substantial, durable hardwood, to which we have applied a secret satin (not imitation) pine finish, which closely resembles genuine Circassian walnut and is not subject to the difference of mahogany finish or of genuine quarter-sawn oak. The top and end, plus golden maple, solid oak finish: top of the dresser 22½ inches, height of base 30 inches. The extension front top drawer and two long solid front drawers, all fitted with solid drawer pulls. A true Colonial model. Mirror frame set backs two artistically designed standards in fine French belt plate, measuring 24x24 inches. Gracefully curved colonial corner posts. Weight of dresser, 315 pounds.

THE CHIFFONIER to match the dresser can be ordered at present at a special price below. It is a very handsome piece of furniture that comes in genuine Circassian walnut, mahogany finish, or made—genuine quarter-sawn and solid oak, golden maple to match the dresser. Top measures 22½ inches and French belt plate measures 14x20 inches. There are two small extension top drawers and four full height drawers below with metal slides from fitted with turned wood dresser pulls, with brass escutcheons. Shipping weight, about 200 pounds. $19.85.

COLONIAL DESIGN DRESSER

IN THE GENUINE QUARTER-SAWEAD OAK OR ImitATION CIRCASSIAN OR MAHOGANY

THE ELEGANCE of this design is such as to improve the appearance of the bed room in which it is placed. Its rich Colonial lines are straight and strong, as shown in the illustration. Observe the slightly curved, rather bold form, and the graceful, pleasing lines and attractive wood finish. The two-boarded sideboard frame, the shaped front and rounded top drawer front are characteristic features of a piece of this nature. It is a fine piece of workmanship which you can see from the illustration. But the quality of the materials and the durability that results are features that you cannot always see, and therefore, make an examination of the dresser itself. Send for it upon approval to examine yourself of its merits.

QUARTER-SAWEAD OAK is used on the front, top and sides. If you prefer the Circassian walnut finish, ask, we can order this dresser in "beechy" or imitation Circassian walnut, which is a satin (not imitation) pine finish applied in such a way as to give the appearance of the real wood. We also furnish this model in imitation mahogany in an handsome, rich finish. When ordering you are urged to state which finish you desire to have on your dresser. The wood is manufactured to your order, and you will receive a good value regardless of which finish you select. Our guarantee of satisfaction is in your protection.

THE PLANK TOP measures 42 inches in width and 21 inches in depth. The French belt plate measures 22½ inches in size. Below the mirror frame is a background of a style to correspond with the Colonial idea which prevails throughout the design of this dresser. It is in every way a piece of fine room furniture that you will be glad to own, and pass on with our heartfelt endorsement. Our liberal credit system enables you to pay for it as you use it, with a cash discount, about 17½ percent.

SUPERB CHIFFOROBE

QUARTER-SAWED OAK OR "IMPERIAL" CIRCASSIAN WALNUT

A Remarkable Value

This article is one that will prove a source of real comfort in the home, as well as being an article of beauty. It contains a large, roomy wardrobe compartment, as well as drawers. The space is divided into sections, as illustrated in the smaller illustration below. This is fitted with four large drawers, of which one is divided into two, to accommodate smaller articles. The design is strictly Colonial style, with the posts and tops being heavily finished, giving it a classic appearance. The wood used is of the finest quality, and the construction is solid and rigid. You can have your choice with plain panel doors, which are available at the prices quoted below.

MADE of durable solid oak with genuine figured quarter-sawn oak, the style is known for its strength and beauty. The design is simple and elegant, with the posts and tops being heavy, giving it a substantial appearance. The wood is of the finest quality, and the construction is solid and rigid. You can have your choice with plain panel doors, which are available at the prices quoted below.

The mattress is made of durable Sanitary Steel, which is strong, durable, and will give the greatest satisfaction.
Sanitary Steel Frame Bed Spring

OF COURSE WE CAN TELL YOU that this is one of the best springs we ever offered for the money—but you may discredit our statement. The best way to prove it is to see the spring itself, examine it carefully and convince yourself of the truth of this claim. We court investigation and the better your ability to judge a real bargain the more quickly will you take advantage of this great offer. This angle iron spring has single and double fabric top. It can be ordered with or without two rows of copper wire supports braced by wire attached by helicals at the ends of the spring. Shipping weight, about 43 pounds. State whether springs are wanted for iron or wood beds; also give width of bed.

No. 3K1805. Price With Wire Supports $3.25

Link Fabric Steel Frame Bed Spring

WHAT DOES $3.35 REALLY AMOUNT TO when compared to the cost of this double bed spring? It is a link fabric spring with copper wire edging. The links are attached to ends by heavy oil-tempered helicals. The heavy angle iron frame is well finished in black jap and is strong and substantial. Compare our price with that of others for a spring of equal merit, and we feel sure that you will send us your order without further hesitation. Shipping weight about 40 pounds. State whether springs are wanted for iron or wood beds; also give width of bed.

No. 3K1806. Price $3.35

Crown Brand Steel Fabric Spring

HIGH GRADE STEEL FABRIC BED SPRINGS made of best material, with frame of 1 1/2 inch steel tube side rails, with an iron ends and high rise corner castings. These corner castings are around the angle iron ends, making a smooth and round corner, then protecting the mattress and bedding from catching or tearing. The castings (shown in enlarged view immediately below) elevate springs five inches. Frame is finished in golden bronze, giving appearance of solid brass. Fabric is made of Crown patented double wire, close mesh, tinned, with 54 oil tempered steel helical sprin with 1/2 inch steel strap edge. Shipping weight, 18 pounds. State whether springs wanted are for iron or for wood beds; also give width.

No. 3K1808. Price complete $5.50

The heavy double arm protected malleable steel corner casting, which we show to the left in an enlarged view, elevates the bed springs above the side rails of the bed in a manner that gives a better spring effect and makes an exceedingly comfortable spring.

Interweave Slat Fabric Bed Spring

SANITARY SLAT FABRIC BED SPRING. The illustration to the right tells a story without words. It shows clearly and decisively the superior, durable construction of this exceptionally fine bed spring. It shows how the strong slat fabric is interwoven to produce the desired effect. The spring is firm yet resilient and will give no end of satisfactory service. The sanitary feature is of great importance. Being made of metal it will not harbor dirt, filth or vermin. There are 52 oil tempered helicals which join the horizontal slats to the end rails as shown in the accompanying illustration. They 1 inch malleable corner rise, 1/2 inch straps and 1 1/2 inch tubular frame. An enlarged view of the corner casting is shown above. This spring is made by one of the best bed spring factories in the world. Each spring is carefully inspected before it is shipped, and passes the most rigid examination possible. Shipping weight, about 20 lbs. State whether springs wanted are for iron or wood beds; also give width.

No. 3K1889. Price complete $5.85

Guaranteed Bed Springs

We have the exclusive sale of these nationally advertised products among the credit mail order houses of America.

THE WIT-EDGE is a feature found on No. 3K1841 and 3K1842 springs illustrated and described on this page. This is one of the very desirable features of the Englander products and is a point of advantage that deserves special mention. The small picture to the left shows a mattress placed upon a spring having the famous WIT-EDGE. Lock this over carefully and observe how this edge holds the mattress in place.

All Springs Come in Following Sizes: 3 ft., 3 ft. 6 in., 4 ft., 4 ft. 6 in. State Size Wanted and Whether for Metal or Wooden Beds.

ENGLANDER WIT-EDGE SPRING

The advantages of the WIT-EDGE are explained in the paragraphs of this page. This feature is possessed by the spring illustrated to the right. With these patented upright extensions on either side the mattress not only will not spread or shift from side to side but furthermore add a reinforcement to the sides of the spring, giving added strength and comfort. It is a bed spring guaranteed by us and backed up in every way by the Englander factories.

Your Choice of all sizes for beds. When ordering state size that you desire. The Englander link fabric is reinforced by your 1/2-inch steel. Two tempered helicoils attach the fabric to the 2x15 inch angle iron ends. The 2x15 inch angle iron ends are reinforced by the 1 1/2 inch tubing, as is the fabric. The spring is constructed in longitudinal units to absolutely withstand the strain of wear. Ship. wt., about 51 lbs.

No. 3K1816 Price $5.95

KANE KORE KABLE EDGE

A feature of this spring is the Kane Kable Edge. This feature is round cane, light, in very strong, which is introduced into the edges of the spring shown to the left. It is a feature that reinforces the springs where the greatest wear and strain are always applied and prevents the possibility of the fabric from sagging. It will keep the springs straight and firm as in a very desirable point. Other features of importance are covered in the following paragraphs.

SIDE RAILS are heavy tubing 6/16-inch diameter. These are fastened to the iron corner blocks which elevate the fabric 5 inches. The link fabric top is connected to the angle ends by 65 helical springs. These ends are very substantial, being constructed of 2x15 inch strips. Two steel bands through the center add to the strength and firmness. These bands each measure 1 inch wide. This spring comes in all sizes and is made for wood or metal beds. State size on order. Weight about 48 pounds.

No. 3K1841 Price $7.15

Orders for these springs should be placed at once. No defects allowed. Mail orders taken with due regard to satisfaction. Orders filled promptly.

A Splendid Value in Our "Dreamo" Special Guarantee Hair Mattress

EVERY WORKER IS ENTITLED TO A GOOD NIGHT'S SLEEP. Our "Dreamo" will satisfy everybody. A particular point we wish to call your attention to is that this mattress is full 18-pound weight, not lined, as is generally the case with hair mattresses. It is also at a low price. The quality of hair used makes this mattress a good grade and thoroughly guaranteed. It is covered with fancy 2 ounce ticking and made with Hartman's own built up edge, double tacked and double stitched. It is extra well constructed in every detail and will give exceptional service. The deep fill is held by leather turnings that will not pull out. You are getting a superior article at a very low price. When ordering please mention size wanted.

No. 3K1680. Price, all sizes, each, $15.00

SANITARY Mattresses For Cribs, Folding Beds and Couches

Excellent Elastic Felt Mattresses

Guaranteed To Be Built Of Layers Of 100% Pure Cotton Felt—No Insanitary Materials

Illustration Shows The "Ideal"

THE "IDEAL" is an elastic felt mattress that will prove thoroughly satisfactory yet is reasonably in price. The inner construction is brought out clearly by the use of the magnifying glass. It shows the texture of cotton felt as they actually are. Material is guaranteed 100% pure cotton felt and not to contain any inert, shady, or other insanitary substances. Covered with beautiful floral art ticking and finished with Imperial roll edges and biscuit tufting. It is 45 pounds weight in full size.

QUARTER-SAWED OAK

And Selected Seasoned Solid Oak Home Writing Desk In Either Golden Or Fumed Finish. Absolutely Complete

THIS GREAT DESK is made of solid oak throughout with a hand-rubbed finish, the table top being quartered oak in front. The desk lid is a beautifully grained quartered oak, both inside and out, and the desk is finished in a handsome golden color. Over this is placed a fine varnish finish that lends tone and elegance to its appearance. Also comes in fumed finish, which is desired. It has three roomy drawers below the lid, as illustrated. Upon opening the door of the compartment on the right a secret cash drawer is disclosed as well as two commodious letter sizes. The upper portion is equipped with a number of pigeon holes for papers and partitions for books. These are of simple size and number to sufficiently answer the needs of the average family. In the paragraph below we give further particulars of this very practical writing desk.

IN ADDITION to the pigeon holes there is a small drawer, below which are racks for pens and pencils. The desk lid, three elastic drawers and door to compartment are all fitted with good, strong locks, insuring privacy to the entire contents. The top is neatly set off with a lock of double design and the desk is finished at the base with attractively patterned feet. All joints are securely put together, which means durability, service and long life. This exceptionally attractive and practical piece of furniture is well proportioned in every line and it is a value that you will find hard to duplicate. If stands 16 inches high, has a hand-topped shelf measuring 32 inches wide, and the body of the desk is 16 inches in depth. Shipping weight, about 150 pounds.

QUARTERED OAK

Used On The Front Of his Combination Bookcase And Writing Desk MISSION DESIGN

EARLY ALL of us, at some time or other, are overtaken with the sickness. Nor does it always come at a time when we are in the best position to pay the doctor's and druggist's bills. Our easy payment, long time credit plan is a Godsend to the weary one that finds itself facing such a condition. It is like a health insurance policy in that it enables you to use your money for other purposes when the necessity arises. And that is one of the many good reasons why you should buy from us in preference to purchasing your school goods for cash.

SELECT THIS ARTICLE if you wish a combination bookcase and writing desk of superior design, rich graining, excellent materials and superb workmanship. Genuine quartered oak is used on the front, the balance being of seasoned kiln-dried solid oak. You can have your choice of fumed oak or stained or glossy golden finish. In ordering please state which finish you desire us to send. This desk is typical Mission, with lattice ivy over the glass in the doors and tasteful decorations on the desk top to correspond. Both the upper and lower sections are equipped with pigeon compartments, the upper one having shelf, as illustrated.

HE DESK is complete with pigeon holes, as illustrated. There is an easy sliding, full length drawer. Wood knobs on drawers and cabinet doors. The latter are equipped with reliable spring hinges. The dimensions throughout are designed to be of sufficient size to comfortably care for the requirements of the average home, being 62 inches high, 30 inches wide and the depth 16 inches. Take no chances in ordering this combination bookcase and writing desk on our approval plan. If it does not please you, we do not ask you to keep it. Shipping weight, about 150 pounds.

A Mission Style Bookcase
In Neat Sectional Design

Solid Quarter-Sawed Oak Front

$14.95

THE STYLE of this piece of library furniture is that of a sectional bookcase. It looks like a bookcase of that type, but is not built in sections, being constructed in one unit. Although you can not add to it, as in the case of the sectional type, it is built large enough and roomy enough to apply provide for the demands of the average family. Genuine quarter-sawn oak is used on the entire front, presenting a rich and pleasing appearance. You can have your choice of golden or fumed finish, as you prefer. When ordering, please state finish.

THE CLIDES with which this bookcase is fitted protects the rugs and carpets as well as the hardwood floors. The case stands 58 inches high from the floor, measures 22\% inches wide and 14\% inches deep. It is made with 4 doors and as many shelves, the latter being constructed of 3 ply veneer. The back panel, likewise, is made of 3 ply veneer to reduce the chances of warping and splitting. The doors are fitted with wood knobs. Three top sections are 11\% inches high inside, bottom section measuring 13\% inches in height, inside. All are 29\% inches wide (inside measurement). This is a typical mission pattern at a price that is within the reach of all. Shipping weight about 15 pounds.

No. 5K1017. Price $14.35

Neat Carvings A Stylish Design
QUARTERED OAK

Is Used On Front Of This Mission Bookcase and Desk. Also Comes In Mahogany Finish

THIS COMBINATION is a practical one for every family. Contains commodious bookcase compartments, as you can see by a glance at the illustration of this neat piece of furniture. It is of true mission design with scroll-shaped front feet. Genuine quarter-sawed oak is used on the front of this piece, the ends being of durable seasoned solid oak. You can have your choice of golden or fumed finish, or if you prefer you can order this combination bookcase and writing desk in mahogany finish. Both the birch and golden oak are made with two heavy coats of glass finish. When ordering please tell us whether you desire this model in mahogany finish, or in oak. If desired in oak, state whether you prefer the golden or fumed finish, as this will simplify the filling of your order.

THE DESK compartment is complete in its construction. It is equipped with pigeon holes containing several divisions and many shells. Observe the neat "roll-top" desk lid, as shown in the picture. The bookcase section has four adjustable shelves and the drawer is fitted with wooden knobs. A highly cushioned is provided below the drawer for storing stationery, letters, and the like. The height is 42 inches and the width is 29 inches. Clear crystal glass is used in the top of the bookcase door, which measures 11x18 inches, the same being true of the glass used in the cupboard over the desk section, this likewise measuring 11x18 inches. The depth of the ends of this combination bookcase and writing desk is 15 inches.

THIS CASE comes complete with locks and key. We recommend that you order the books shown in the illustration as they are not included. We recommend this exciting mission design piece of library furniture as being one of the best values that we have ever had the pleasure of offering to our customers. The illustration is taken from an actual photograph of the case itself and shows the neat and attractive lines of this style. Shipping weight, about 110 pounds.

QUARTER-SAWED OAK

And Solid Oak Combination Bookcase And Writing Desk In Rich Colonial Design

YOU BELIEVE in some people, yet you distrusted others; you have considered some stores, yet you are skeptical about others; you ignore catalogs, yet others interest you and hold your attention. Why is it? Because we have learned the basis of discrimination. You know right well that the concern to please you once, the house that will do all that human power can do to satisfy you, is the store for you. That is why we really ever lose a customer, and continue to sell to our ever-increasing number. We guarantee satisfaction, and live up to the terms of our guarantee, every day of the year. In looking over the descriptive illustration of this superior combination bookcase and writing desk, bear this in mind, and also remember that if, after receiving it, it does not please you to any detail, you are not obligated in any way to keep it.

THIS COMBINATION bookcase and writing desk is of beautiful Colonial design, with straight door glass in the bookcase compartment and with three straight drawers beneath the writing desk. The timber used is substantial solid oak, with the exception of the glass door frame, which is genuine quarter-sawed oak. Desk fall has quarter-sawed oak veneer front. The pilasters at each side and at the ends and top are also of substantial solid oak, so cut as to give the appearance from the front of genuine quarter-sawed oak, which is golden. The inside of the desk compartment is fitted with pigeon holes and inside desk construction. Particularly observe the handsome mission design en-suite, and above the bookcase compartments, both of which harmonize perfectly. The easy sliding, roomy stationery drawers are fitted with round wood drawer pulls. The desk is set off on each side with heavy end pieces as shown.

DIMENSIONS. This case stands 72 in. high and measures 51 in. in width. The mostly desirable features, French bevel plate mirror is but a size can see this fine as a piece of furniture of very substantial proportions. Such an article in the home encourages reading for happy writing desk and convenient place to keep maps of importance. It is a mission case, with a map drawer, key. The bookcase compartments, both of which harmonize perfectly. It is set off on each side with heavy end pieces as shown.

MAIN POINTS

The exceptional beauty of this remarkably beautiful table are many. It has the large top, a drawer of two-inch stock, dressed to three-quarters thickness, and the large base, made of heavy stock, which is perfectly suited to the handsome outline of the table. The table throughout is of hardwood, in imitation quartered oak, bearing a close resemblance to the genuine thing.

THE LARGE SHELF

Particularly adapted for books and magazines. The shelf is well made in a shape that will harmonize with the furnishings of almost any room in your home. The top is 4 inches wide by 42 inches long. A large drawer below the center of the broad top is handsomely finished.

Invisible Slides Prevent Scratching or Marring of Floors

Try to Match This Value At Our Price

See Page One for Credit Terms

Colonial Design
American Quartered Oak Table

IT IS a typical Hartman value and is only one of thousands of popular offerings found in this great bargain book. Take advantage of our long time happy credit plan shown on Page 1 and send us your order. This table is sold under our legal binding guarantee of satisfaction or your money back.

HAS INVISIBLE SLIDES. Although the illustration shows ordinary slides, this excellently constructed table is fitted with invisible slides. These modern, up-to-date slides prevent the scratching or marring of hardwood floors and at the same time save your rugs and carpets against the wear and tear exerted on them by the old time casters. Surely you will admit the great advantage of this feature.

Handsome Polished Top
Large Drawer

28x42 Inch Top $9.85
No. 5K624.

The Invisible Slides are a great advantage in this model. They take the place of the old-fashioned casters, and are a new feature which makes it easy to move the table about. They will not mar or scratch hardwood floors, nor will they wear out rugs and carpets. This table is a true Colonial model table of rare design and embodies good workmanship. Shipping weight is approximately 100 lbs.

### THREE BIG VALUES IN MISSION LIBRARY TABLES

**Elegantly Designed Solid Oak Library Table**

For **Less Than the Usual Price**

**IF YOU WANT** an inexpensive library table that will surely please you, this is the table for you. Never before have we been able to offer such a good, substantial table in strictly mission style at such an economical price. You will have immediately upon looking at it that the quality is unequal for a table at this price, and it will truly appreciate your library. We know what a rare bargain this table really is at this low figure and you will find it so, too.

**DETAILS.** The top measures 42x28 inches and is securely glued and mortised to the box frame. There is a bookcase framing inner frame fitted with wood pulls. The lower shelf board is a very convenient feature and the finish at each end is most attractive, as may be seen in the illustration. All in all, it would be hard, indeed, to find a more handsome table in this particular style at any price. The corners of this table will appeal to all members of mission furniture, and at this price it is a most desirable bargain. You will be proud to have such an article in your home. The proportions of it are such that in a short time you will wonder how you ever did without it.

**SHIPPING WEIGHT.** Carefully crated, about 150 lbs.

<table>
<thead>

</thead>
<tbody>
<tr>
<td>5k108</td>
<td>$7.65</td>
</tr>
</tbody>
</table>

**BOOK SHELVES.** The lower shelf board is a very convenient feature for magazines, books and periodicals, while the lower case can be utilized for many articles. It is practically a library table and bookshelf combined—two pieces of furniture in one piece. Hand-crafted, practical, and built to last for years. This one shipped to you on approval. If you don't like it, return it to us, but we know you'll be well pleased in every way.

**CONSTRUCTED** in a fine way, this strictly Mission Library Table is a very good example of this popular style of furniture. The heavy square legs, straight line top and panel underframe combine absolutely to the true mission style. It is made of thoroughly seasoned, solid oak, carefully finished in Fumed oak. A table like this is necessary to complete the appointments of your library.

### Solid Oak Library Table With Quartered Oak Top

**LOOK AT THE DESIGN** of this table and see how convenient it will be with book shelves, large top and spacious drawers. This is a real off table at the remarkably low price with a year to pay, either with its size, massiveness, quality of handiwork and finish, it is a bargain that cannot be beat. You will notice by glance at the illustration that the quartered oak has been perfectly cut and that it is a table unusually of the true spirit. If you wish furniture built along mission lines you can select a better model than this true table.

**IT IS MADE** of solid oak, with quartered oak top, in a style that will be extremely popular. It is solid oak through and through with a quartered oak top. It looks very handsome in either finish, and it is a rare and artistic idea in library design. This is important. The quartered oak top is of a shape with square or rounded edges and measures 44x28 inches in size, the quarter board, of course, being at the expense of the quartered oak. The second shelf, finished to the quartered oak, is of solid oak and is finished to the quarters oak. This makes the table practical and gives it a very fine finish. The price includes half the shelf to the top frame. Shipping weight, about 150 pounds.

**Genuine Quartered Oak Table With Writing Desk**

**THIS TABLE** is a very handsome design and one of the latest mission style, combination library tables offered at this very low price. Nearly all oak Mission and rich Mission design as shown in the illustration. The largest piece of oak is 46x28 inches in size and constructed of quarters oak and oak, and is exactly fitted to the article. The shelf and table, which are of solid oak, is a writing desk. It is constructed with quarters oak for the top, and

**DESCRIPTION.** It can be ordered finished in either Fumed or Golden Oak. It is extra well constructed and finished throughout. The top of the table measures 18 inches long by 28 inches wide. The solid oak book shelf under the table makes it possible to get away with a table, which has many uses. The side case is a cutting shelf top board which pulls out and makes a perfect cutting board and is fitted with an oak well, forming the lid to be placed on to protect the firm from being cut. By taking the desk lid you have access to a large spruce drawer. Wooden drawer pulls of square brass, hand-crafted made with the general style of the table, are engraved with a swag of vine, about 12 inches high.

Golden Or Fumed Finish

In TIME of peace prepare for war," said one of the famous patriots of this country. The theory of preparedness may well be applied to the homefurnishing of the household. When circumstances are pleasant and you are earning money, lay a foundation for the future. Let us "foster your nest" so that you can meet the possible hardships ahead under the comforts of pleasant home surroundings. These dining room chairs will help to make your home complete.

THE SEATS are saddle shaped, preferred by many. There are 18 inches from floor to seat in 7 inches, and the height from seat to top in 21 inches. Sturdy stools are braced by strong side stretchers and center cross stretchers. Shipping weight of set of six, about 95 lbs. $13.2

Let Hartman Feather Your Nest

---

**THE LOW PRICES** make this table one of the most remarkable values ever offered by this institution. We placed a contract with the manufacturer for a large quantity of this particular design, and we obtained them at prices that enable us to offer them to you at these tempting figures. Select the size that you require and order it sent upon approval. It will go forward without delay.

**HEAVILY BUILT** through 8-inch top of well seasoned hardwood, to which is applied a finish imitating the genuine quarter-welt oak. It is offered, not as a remarkably high price, but as a fair value. The pedestal is non-dividing. The wood used in constructing the top and base is seasoned, and the entire machine, which is tested in splitting and warping.

**6 OR 8-FOOT LENGTHS**

Made Of Solid Oak

42-INCH TOP

Golden Oak Finish

---

**America's Easiest Credit Terms**

**THE DESIGN** of this dining table is not overly elaborate, but is sure to appeal to the taste of those who prefer the simpler patterns in dining room furniture. The carved, straight lines of the pedestal are enhanced by a mild molding, shown in the illustration, and are set off to advantage by the very attractive Colonial scroll design legs. For full particulars concerning this model read the following paragraphs.

**THIS TABLE** is made of solid oak throughout, in a rich golden oak finish. The top measures 42 inches in diameter, and can be ordered to extend to either 6 or 8-foot lengths, as desired, at the prices which we quote under the illustration. In ordering, be certain to specify which you prefer, so as to insure your receiving the correct lengths.

---

**Fitted With**

**THE TOP** measures 42 by 3 feet in diameter, a deep box rim, is fitted with sliding leaves and extra extension leaves. It is wide made and is not only simply because of its artistic presentation. In this extra table you secure a service article made in a splendid American furniture factory by skilled workmen who have perfected, and practice the art of table-making.

**WE GIVE YOU** the use of the table in your own home, passing it to your friends and neighbors. In fact, if you are not satisfied with your purchase you can return it and receive your money back, according to our approval plan. Our guarantee of satisfaction is your protection. Shipping wt., about 125 lbs.

**Fitted With**

**THE TOP** of this extension table is made of smooth running extension, which prevent “sticking” common among modern fitted dining tables. It is round with straight rim, which measures 2'/4 inches in size. Pedestal is 7 inches square, which is festooned a nice shape, supporting the 12-inch top, and gracefully shaped scroll design legs measure 11 inches and are made from 2-ply birch stock.

**THE LEGS** extend about 1'/2 inches from pedestal. This dining table is fitted with casters as shown, workmanship of this kind is of a grade that would expect to fit tables selling at higher prices. We ask we recommend it as the true type of the Hartman made table, shipping weights, etc.
DINING TABLE is an article of furniture that should be purchased with care. It is used for a great many purposes, so must be a strong, durable piece. This point is one which has been taken into consideration in the manufacture of the table we offer here. It is rigid and made to withstand hard and constant usage. You need a strong table to order this one.

URGE you to read every word of the description concerning the table. Then use it to your advantage. If you are not satisfied with the fit, do not return it. Return it to us and we will refund every penny of the transaction has cost. If you want to keep it, make your payment to order this balance as shown on the shipping ticket, please.

EXTENDING DINING TABLES in solid oak, with an extra leaf for extension according to size you select. When it is shipped and unpacked, it will enhance your surroundings of dining room in any home. The pedestal is beautifully designed, is large and substantial and is fitted with curved legs making it a splendid golden color. The pedestal is also solid oak and adds to the handsome lines of this handsome, substantial, a piece of dining room furniture. It is a real bargain for the money.

The top, as shown on this page, is made of solid oak, stained, and is fitted with a high gloss finish. It is strong and substantial and is fitted with smooth running extension slides permitting the table to be extended to 4, 8 or 12 feet, or 12 feet as purchased. The illustration was made from an actual photograph of the table itself and shows how the table really looks.

THE DESIGN is especially interesting and will enhance the surroundings of your dining room in any home. The pedestal is beautifully designed, is large and substantial and is fitted with curved legs ending in the handsomely designed 6, 8 or 10-foot size. The table is made of solid oak, and has a splendid golden color. The pedestal, likewise, adds to the handsome lines of this handsome, substantial, a piece of dining room furniture. It is a real bargain for the money.

The quality of this table is kept in line with the Hartman standard. We are happy that it will appeal to all who have done their buying here. This table appeal to you, and surely you will want it to be a beautiful table, too. We will send it on our free money-back if you are not satisfied, approval plus. This table is an exceptional value at the prices book.

ROUND TOP measures 46 inches in diameter and includes a 6-foot size. This table is thoroughly guaranteed to give you complete satisfaction in every possible way. The shipper will weigh the money, carefully packed, about 124 pounds.
SOLID OAK

Golden Finish
Highly Censed

45-INCH TOP
Made With 3-Ply Built-Up Legs

Order This Table

THIS TABLE has a 45-inch top and can be secured in lengths of six or eight foot lengths. It is made of thoroughly seasoned and kiln-dried solid oak, finished in a highly prized golden color, which is most generally used for dining room furniture. This is very attractive in design, and one which we know you will be glad to own. Order it in the size that you wish.

THE LEGS are massive in appearance, and embellished with metal carved designs, shown in the illustration. These legs are of 3-ply built-up style and extend 1½ inches from the platform. They measure 18 inches at the widest point. They are about 4½ inches thick. We recommend this dining room table to give satisfactory service in every way and urge you to order it.

Order This Table

THE DRUM is shaped and massive as well, measuring 6 inches in diameter. It is of standard size, b 2½ inches in width. The table is fitted with Hartman, good quality, easy running casters, which prevent it from sliding. It is a medium-priced dining table. In fact, this table is far superior in many ways to dining tables usually found at these prices.

WHEN YOU BUY

receive the benefit of many years' experience in household furnishing, low prices and liberal term. Secure this three advantages and select this desirable, reasonable room table. Order it upon approval and if it is not satisfactory to you, we're under the obligation to keep it. Shipping is carefully packed, 196 lbs.

**UNIQUE DESIGN IN A SOLID OAK DINING TABLE**

Take Your Choice of 6 or 8 Foot Lengths and of Fumed or Golden.

The Style of this dining room table is very unique, and attractive as well. It is a Mission type, with William and Mary design inlays standing out to rest within the seven squares of the drum. The illustration shows this style to great advantage and it will give you a clear idea of its very high quality. And yet the picture, at best, does not do justice to the table itself. To thoroughly appreciate the value that we offer in this model, you should see it at our store, or in your home. The thoroughly seasoned, fine grained solid oak is used throughout in your choice of golden or fumed finish. Please. When sending in your order, kindly tell us which finish you desire us to ship to you.

**WONDERFUL BARGAIN IN A 48 INCH PLANK TOP TABLE**

**THE DRUM**

The legs are each 3½ inches in width, and the thickness is 5 inches in the top of the drum. This is a desirable piece of room furniture. It is fitted on an expensive solid oak table, and planked on part of the bottom of the table. These cover the oak table.

**SATISFACTION**

Big word. But it is big that we do not elaborate the full scope of satisfaction when we say that our tables will not be delivered until the finish is satisfactory.

**ALL MEN ARE EQUAL**

Before the law. Likewise all men are equal before the law of God. And the law of God applies to us as a customer to the man who is the master of his own house and to the man who has no house. And the law of God applies to us as a customer to the man who is the master of his own house and to the man who has no house. And the law of God applies to us as a customer to the man who is the master of his own house and to the man who has no house. These Are Extra Great Bargains at Our Low Prices

THE TABLE illustrated to the right is a 48-inch, 6-foot extension table. We cannot impress you too strongly with the splendid high chair appearance that this table makes. The picture is a true representation of this massive article, and tells its own story more effectively than we possibly could, if made of hardwood, with imitation quarter-sawn oak finish that closely resembles the real wood. It is a truly Colonial design. Shipping weight about 150 pounds.

THE BUFFET Don't save up your money and deprive yourself of the use of a new home until you have accomplished the price to pay for it. Select the elegant Colonial piece of furniture illustrated above—have it sent on approval—and if you desire to keep it, pay for it on easy credit terms while you are using it.

THE SERVING TABLE is made of hardwood with imitation quarter-sawn oak finish. Has 3 drawers fitted with wooden knobs. Base measures 21x42 inches. As handsome a serving table as you will find anywhere in the country at a price like this. Shipping weight, about 150 pounds.
ORDER THIS DINING ROOM SUIT

No. 4K939. Price $9.95
COMPLETE NEW DINING ROOM SET consists of handsome buffet, china closet, extension table, six chairs as illustrated, no either fumed or golden oak as you prefer. All of the pieces harmonize beautifully and make a perfect set of furniture.

BUFFET is made of genuine solid oak in a very artistic Mission design. You can have your choice of golden glow finish or fumed oak. The base measures 22 x 48 inches, it stands 54 inches high and has a French bevel plate for measuring 28 x 48 inches. Two center drawers, one for sits, two compartments on either side and full length linen drawers. Maple wheel casters. Shipping weight about 155 lbs.

HINA CLOSET is made of genuine quarter sawed oak in a very striking Mission design to match the attractive buffet described above. It stands 57 inches high and the top is 15 x 36 inches in size. A feature is to be found in the fact that there is a mirror in the upper section. It is fitted with adjustable shelves. (The dishes shown in the illustration are not included at the price quoted.) Shipping weight about 110 lbs.

EXTENSION TABLE has a round 44 inch top and can be extended to six feet. Has a heavy natural hardwood illustrated and is made of dependable solid oak throughout. It is fitted with easy running slides and a set of extension leaves. Fumed or golden finish. It weighs packed for shipment about 165 lbs.

SET OF SIX DINING CHAIRS can be purchased as illustrated above. They have golden shaped seats, and are made of solid oak throughout, in your choice of golden oak, fumed or finished oak. Set of seat 15 x 15 inches. Top 15 x 15 inches. Made of solid oak 13 x 12 x 17 inches. 2 lbs. back posts. Shipping weight per set of six, about 30 lbs.

HANDSOME DINING ROOM SUIT FOR $117.45

HIS GREAT DINING SET embraces the fine buffet, china closet, 48 inch, 6 ft. extension table and six genuine leather upholstered chairs grouped in the picture above. You will look a long way before you find equally fine pieces at our low harvest prices.

HINA CLOSET is substantially made of genuine quarter sawed oak in true Mission style. Comes either in golden or fumed finish. The base measures 57 inches high and the top is 15 x 36 inches in size. There is a mirror in the upper section. It is fitted with adjustable shelves. (The dishes shown in the illustration are not included at the price quoted.) Shipping weight about 155 lbs.

BUFFET is made of thoroughly seasoned genuine quarter sawed oak, and is constructed to match the antique china closet. It stands 54 inches in height and the massive plank top is 24 x 48 inches in size. The mirror is exceptionally well, being 12 x 44 inches. It is a true quality French bevel plate. This handsome buffet has either in golden or fumed finish as you prefer. It has two top drawers, one of which is fitted for silverware, a long linen drawer and two sturdy drawer compartments underneath, maple wheel casters. Shipping weight about 275 lbs.

EXTENSION TABLE is very large, having a 48 inch top, and can be extended to 6 feet. It is fitted with easy running extension slides and a set of seats to go with it. Has a heavy quarter sawed base with stout braces, riveted in true Mission style. Top made of genuine quarter sawed oak, has solid oak base, Fumed or golden finish. Shipping weight about 300 lbs.

GET THIS SOLID OAK SIDEBOARD AT ONCE

HAS FRENCH BEVEL PLATE MIRROR, HEAVY CLAW FEET AND DRAWER LINED FOR SILVERWARE

WHEN WE STATE with all the emphasis of our vast organization that this is the greatest sideboard bargain that we have ever offered, we mean exactly what we say. It has all of the important advantages of the high priced ones sold by others, and possesses all the beauty, substantial construction and satisfaction giving qualities that you have a right to demand in the furniture for your home.

HOW IT IS MADE. This massive sideboard is honestly made at every point in its construction. The wood is thoroughly seasoned, kiln dried, solid white oak. The graceful serpentine drawer fronts, the posts on the supports and the ornaments on the extreme back top are thoroughly seasoned, quarter sawed oak. It stands 39 inches high, 42 inches wide and 21 inches deep. The attractive French bevel mirror measures 24 x 14 inches. The end panels are three-ply rotary cut oak, displaying a fine large fancy grain.

OTHER FEATURES. The upper right drawer is carefully lined for silverware. This is a feature well worth considering. All drawers are large and roomy. The heavy claw feet not only add to its strength, but enhance the beauty of your dining room equipment. Sideboard finished in a rich golden color, is easily set off with wood knobs and six strong hardwood casters. Drawers fitted with strong locks and key. There is a handy shelf at top and a smaller shelf at either side supported by the standards. Below the two drawers at the top is a full width linen drawer and a large cup- board with two doors, each ornamented with carved designs.

EXAMINE THE PICTURE. The illustration shown on this page will give you a better conception of the excellence of this magnificent sideboard than any amount of lengthy description. Examine the picture. Then send us your order. Place the sideboard in your dining room, examine it carefully. Use it in approval, and if for any reason it fails to meet with your entire satisfaction, ship it back at our expense, and we will refund every cent that it has cost you. Can you ask for any fairer proposition than that? If you decide to keep it, you can pay for it in small installments as outlined in detail on page one. Shipping weight about 110 pounds.

The front legs are of claw foot pattern, to harmonize with the elaborate carvings.

Handsome New Substantial Sideboard
Made Of Seasoned and Kiln Dried Oak
Attractive Serpentine Top Drawers
Observe the Very Striking Carvings

BUSINESS METHODS have changed materially in the last sixty years. When we first opened our doors we found our competition all operating practically from one line. They all agreed that the only way to achieve success was to quote as much as we thought a customer could give. Our policy was different, we decided that by buying in large quantities we could buy for less and thereby sell for less. We found that this theory was correct, because our sales exceeded our finished hopes. Realizing that this was the proper policy to pursue we have been charging above these lower costs. The more we sell the more we can buy, the cheaper our price—and as our business increases the greatness of our values naturally improves in proportion. You don’t have to look far to become convinced of the truth of our assertions. For this fine new design carried oak sideboard is an excellent example of dependable value.

LOOK AT THE PICTURE. That is sufficient to convince you of the rare quality, beauty, artistic outline and splendid proportions of this fine piece of dining room furniture. It is made throughout of thoroughly seasoned and kiln dried solid oak in the handsome golden color. The beautiful serpentine top drawers are made of quarter sawed oak, and are lined for silverware. This sideboard has three-ply single end panels and is trimmed with wood knobs and hard wood casters as shown in the illustration. Particularly note the strong bold carvings at the top, on the panels of the doors below and on the front posts. There is a large full length beveled mirror below the two top drawers. Above the latter is a heavy top measuring 42 x 21 inches. On this top rest the two attractive standards which support the side brackets on either side of the mirror. The French beveled plate mirror is of attractive outline and measures 24 x 14 inches. Observe that the massive scroll on the standards correspond with those on front posts.

SEND US YOUR ORDER. It seems almost impossible to persuade you that you can have this elegant sideboard in such excellent, liberal credit terms; but that is exactly what you can do, and more than that, it will be sent to you upon approval and you have to return the balance. If it does not come up to your expectations, or you are not pleased with it in every way, ship it back to our store and we will return every penny it has cost you. If you care to keep it, make your payments according to our liberal terms as shown on Page one of this bargain book. Shipping weight about 150 pounds.

No. 4H669. Price. $18.75
TWO EXTRAORDINARY BUFFET BARGAINS

ARTISTIC COLONIAL BUFFET IN AMERICAN QUARTERED OAK FINISH, HAS 21x42 INCH PLANKED TOP AND LARGE MIRROR

The home is the anchor of a man's life. If you want to stop a ship, you drop the anchor. A man who wants refuge from the temptations of the outside world is naturally seeks his home. It stands to reason, therefore, that the home should be a place of rest and comfort. Enhance the appearance of your household, the right kind of furnishings and your home will be a "haven" for yourself and family. A buffet such as this one will help to equip the home as it should be. Beeswax not only gives you an article of merit from the standpoint of value, but is a remarkably attractive piece of niture.

THE MATERIAL is substantial and the construction is excellent. Strong hardwood is used in building this buffet, to which is applied a finish in imitation of hand-hewed quarter-sawn oak. This finish looks like the real quarter-sawn oak and will give good service.

The design is a true Colonial model as shown in the picture above. The curved pilasters supporting the top and the Gothic window design in the top panel correspond with the artistic corner posts. There are two top drawers under the heavy planked base top, one large for silver, two center drawers, cupboard on either side and a full length linen drawer below. Round wood drawer pulls. Comes complete with casters. Below give the dimensions of this number.

MEASUREMENTS: The top of this attractive buffet is 21x42 inches; being a very desirable size for an average family. The French bevelled plate mirror is 10x28 inches and the height over all is 54 inches. The posts measure 14 inches wide. Order this excellent piece of dining room furniture on approval. If it does not please you, do not keep it. Shipping weight, about 250 pounds.

No. 4K923. Price $14.85

AN ELEGANT WELL MADE COLONIAL BUFFET WITH RICH AMERICAN QUARTERED OAK FINISH HEAVY PLANK TOP

WE BELIEVE that the working people of this country deserve every consideration possible to make. Our great mass of employed are all well paid and well cared for. They conformed consent of rest rooms, board, dining room and every feature that could be desired to add to their convenience. Those working for others we want in every way, but we serve them in a different way. We fulfill their hold requirements and give them a year in which to pay their bills. We go further than that, we search the world's markets for the best values that can be procured and give our customers the benefits of our vast purchasing power and easy credit terms.

AS PROOF of our stupendous value-giving your attention is directed to this massive, heavy, plank top buffet. Its lines are graceful, its workmanship is excellent and will prove a wonderful value at the price. The lumber used is seasoned hardwood, to which is applied an imitation quarter-sawn oak finish in 3 inch golden color. This finish closely resembles the genuine quarter-sawn oak that it takes the eye of an expert to detect the difference. The large French bevelled plate mirror measures 12x2 inches and is gracefully rounded at top, as shown. The attractive top is supported by 4 artistic Colonial design pilasters to match the Colonial pattern posts. Also observe the shapely, scrolled ornament between the doors on either side.

THE PLANK TOP measures 20x12 inches. It is made of 1 inch chestnut core with two drawer cross banded veneer on top and bottom and 1/4 inch banded strip mortised around outside. There are 2 straight front overhanging top drawers, one of which is really lined for silverware. Below these top drawers is a full length drawer, as shown, for linen, below which are 4 compartments; the latter, as well as the drawers, are all fitted with rounded wooden knobs. Ship. wt., about 175 lbs.

PREPAREDNESS. Perhaps no one subject has been more generally discussed than that of national preparedness. The disastrous results of the lack of preparedness have been deplored by some of the countries involved in the European conflict. The matter of the country’s readiness for war directs our attention to another all important factor in our daily life and that is the preparedness of the home. Every household is a haven of rest. As such it should receive the attention that it deserves. Prepare it by furnishing it in such a manner as to make it a source of comfort at all times.

THIS BUFFET will help you in the fulfillment of your desires for a beautifully furnished domicile. It is made throughout of seasoned and kiln dried solid oak, with substantial large grained genuine quarter-sawed oak door panels. The end panels are 5-ply rotary cut solid oak which shows a large grain and it has three-ply back panel which gives the case added strength. You can have your choice of rich golden or fumed oak, State which you prefer.

THE TOP is a plank effect measuring 42 x 20 inches. The French beveled mirror is 24 x 10 inches in size. Shelf across top is supported by extra heavy hand sawed posts. Possesses two top drawers, one lined for silverware, a large open drawer in the bottom and spacious cupboard. Trimmed with wooden knobs and hardwood casters. Nicely set off at top with curving as illustrated. Observe the elaborate embellishment between the cupboard doors. Shipping weight, about 350 pounds.

BUY THIS BUFFET
AT OUR LOW PRICE

Made of Quarter-Sawed
Oak, Measures 48x23 Inches
Drawers Are Swelled Shape

THE CONVENIENCE of having plenty of ready
money is recognized by everyone, but there are times when you may not feel
that you have enough surplus cash on hand to pur-
chase the very article that you would like to have.
On the other hand, there is no reason, even though you have the money, why you should pay cash when
Hartman's offer such liberal credit.

THIS BUFFET is really a remarkably handsome
piece of furniture at a price that
will positively astonish well-informed buyers. Beautifully
planked quarter-sawn oak is used in its con-
struction; seasoned and kiln dried solid oak being
used in the ends. There is a full length shelf across the
top, supported by scroll shaped pilasters, termi-
nating in carved claw feet. The small shelves on
either side are mortised to fit into these pilasters,
giving a very pleasing effect. The top is surmounted
by lavish carvings in scroll effect.

THE MIRROR is nicely shaped, is a fine French level plate, measuring 16x16
inches. The planked top presents a handsomely
planked surface measuring 23x17 inches. Splayed in
full length top drawer. The
three compartments in the center are
of scroll design, presenting a
very pleasing effect. All draw-
ers fitted with round wooden
knobs. The compartments on
either side are fitted with 8x10
inch glass doors with attractive
three-ply quarter-sawn oak
grille work. These doors like-
wise are fitted with round pulls
and swing on carefully fitted
hinges. The total height is 61
inches. Shipping weight, about 214 pounds.
No. 4K971. Price... $33.50
EVERY HOME should possess a buffet, as it is a desirable addition to the dining room, but a combination buffet and china closet answers a double purpose and for that reason is even more to be desired. The one illustrated here is an exceptionally handsome piece of furniture and is highly recommended by us for its decorative appearance and service-giving qualities. It is extremely artistic in its design. Observe the attractive carvings on the top, which are skillfully executed. These add to the appearance of this handsome piece of furniture. Another feature is the rich wood scroll used in the door, as shown in the illustration. Observe also the French shaped legs, carved claw front feet and the neat carving on the apron across the front.

QUARTER-SAWED OAK is used throughout in the construction of this excellent combination buffet and china closet. The lumber used is thoroughly seasoned and is so made as to do the kind of service that you have a right to expect when you purchase a piece of furniture at this price. The finish is an attractive golden oak, which is found in so many homes, because it harmonizes so beautifully with most surroundings. We feel sure that you will be more than pleased if you send us your order for this model. It is sold upon approval and you can make your payments as outlined in detail on Page 1 of this catalog. Remember, that we feel our liberal guarantee of satisfaction applies to this desirable piece of dining room furniture.

THE CHINA SECTION. At each end of this buffet is an enclosed compartment and are fitted with double doors, intended for chinaware. The sides are of solid oak, the backs are louvered, and the doors of transparent glass. Below these china sections are two center drawers fitted with rounded, wooden knobs, and key. The left door below is likewise fitted with sound, wooden knob, as above. The base top measures 80 inches wide and 16 inches deep. You thus see that this is a good sized article that will accommodate and enhance the appearance of your dining room. There is a nicely designed frame enclosing an A5-inch French fret plate, mirror. This mirror is shaped in a pleasing design that harmonizes with the general style of this article.

WE KNOW that you are among the class of housewives who appreciate fine articles of china. This is a value article of Hartman's and one that we are proud to offer to our many friends and customers. You make a wise selection when you choose this combination buffet and china closet. Shipping weight, about 155 pounds.

No. 4K975. Price . . . . . . $18.95

A COMBINATION QUARTER-SAWED OAK CHINA CLOSET AND BUFFET OFFER

YOUR DINING ROOM is a room where greater interest is taken than displayed in any other room in the house. It should contain the very best furniture. Every housewife who appreciates art designs in dining room furniture will immediately see the magnificent of this article. It is not only the article itself of which this is made; it is in fact to be desired, but the way it is made, the quality of material and the low price at which we sell it. It is extremely practical and useful, being a buffet and china closet combined. Its construction is excellent, and a glance at the illustration above will enable you to see the many compartments there are in this article.

AT EACH END is a compartment for china, fitted with an individual best, each one being enclosed and backed. These doors are supplied with a lock and key, and the glass used is of double strength. The center compartments of large size and has a door fitted with wood grille work, wood center panel and door pulls. These are two advantages above this compartment, a having lock key and strong drawer pulls. At extreme bottom of center division is a large drawer for linen. These doors and compartments provide ample space for placing all articles used in the average dining room.

QUARTER-SAWED OAK is used in making this elegant combination buffet and china closet and is of splendid oak. The finish is golden oak, which is found in so many homes, because it harmonizes so beautifully with most surroundings. The wood is a large size and has a door fitted with wood grille work, wood center panel and door pulls. These are two advantages above this compartment, a having lock key and strong drawer pulls. At extreme bottom of center division is a large drawer for linen. These doors and compartments provide ample space for placing all articles used in the average dining room.

GENEROUS SIZE will be found throughout this article. The plank base is 17 inches deep and 45 inches wide. The French plate mirror is 47 inches deep and 45 inches wide. The French plate mirror is attractive top and bottom and measures 45 inches wide. It cannot add a better piece of china closet furniture for the money if you build the counter out, as it is of solid wood for a counter of your desires. A marvelous buying power to make such a wonderful offer. We bought these China Closets in thousands quantities and cut the finished cost. Better than your quicks, for it's a very low price. Shipping weight, about 175 lbs.

No. 4K735. Price. $27.65

THE BUSINESS OUTLOOK is great. We are not optimistic through theory but through experience. When others about us have said that business was bad and that the people were not buying, we looked at our record of daily shipments with a smile of contempt. But well might, because our business has been steadily increasing during the months that others complained. Such a condition is not an accident. It is the result of serving the people not as others have served them but in the unique Hartman way that's easy to get and easy to pay. Such values as this explain the reason for our giant strides.

THIS MODEL combines utility with beautiful design and substantial construction. The entire case is made of first class materials. Genuine quartered oak is used in building it, being stained in high grade, glazed, polished or fumed, as you prefer. Please state which you desire. It is double-top construction. The upper section has bent glass ends and center glass door, the latter made with grille work to correspond with the base. This base, in addition to the china cabinet with bent glass ends, is made with two drawers, one being lined for silverware. Equipped with shelves, as illustrated. This case is trimmed with wood knobs and casters.

BASE TOP measures 45x17 1/2 in. Two Colonial pilasters rest upon this spacious top and support the upper section. Behind these pilasters is a fine French bevel plate mirror measuring 40 x 5 in. The Colonial pilasters on either side of base harmonize with those above, as well as the Colonial scroll front feet. Next carving across center of back panel. Base back made from built-up stock. Height, 72 in. From the dimensions quoted you can gain a fair idea as to the size of this great big combination buffet and china closet. But even though the dimensions are large, it is not too large for the house. It is a very convenient size and filled to the brim. If you want it, we know you will be glad to have it. We believe it is one of the handsomest pieces you will ever see. It is very well proportioned and, we feel sure, will have a very large sale.

Choice of fumed or golden finish.

Two Fine China Closets Priced Very Low

$13.95
This One Has Genuine Quartered Oak Front Beautifully Finished In A Rich Golden Oak

YOU EAT TO LIVE. There are two classes of people in this world—those who eat to live, and those who live to eat. One doesn’t have to be a glutton to enjoy one’s meals, and even though you do not live because of the pleasure you derive from your food, there is no reason why your meals should not be enjoyable. Did you ever consider the effect that pleasant surroundings have upon the appetite? A snug, warmly appointed dining room is enough to take away the desire for food from even a hungry person. But there is no reason for any family to have an insufficient fitted unpleasant dining room because they can buy just what they want from us, and can pay for it on our liberal credit plan.

FINE WORKMANSHIP characterizes this newly designed piece of dining room furniture. The entire front and top shelf are made of genuine quartered oak, presenting a rich, handsome grain. It is finished in a beautiful shade of golden oak and is placed in an attractive manner. It can be had either with or without the mirror top at the prices quoted below. The oval mirror is a good quality French heeled plate, finished complete with interior adjustable shelves, made of three-quarter lumber. Has a handsome spring push button catch on the door, as illustrated.

MEASUREMENTS. This china cabinet stands 74 inches high with the mirror ornamented, and 61 inches high with the back board. In 35 square inches wide and 23 inches deep. The mirror is 168 inches, and the interior shelves are 3x2 inches. (The crockery shown in the picture is not included in the prices quoted.) If you are perfectly satisfied with this china cabinet, pay for it in small amounts. The shipping weight is approximately 142 pounds.

No. 4K1007. Price, with Mirror and Brackets (as shown) ....... 15.85

This One Is Made Of Genuine Quarter-Sawed And Solid Oak. It Has Neat Colonial Scrolls

THIS CHINA CLOSET will make a decided improvement in any home. Consistent with our methods of doing business, we offer it to you on easy terms as shown on Page 1, giving you a full year in which to make the last payment on it all. Genuine quarter-sawed oak is used in the shelf frame, the circle plate, and the back, the balance of the case being constructed of very durable, solid oak. You can have your choice of either solid or quartered oak finish as you desire. There is a second mirror which is made of glass set in a groove in each shelf for holding dishes, etc. This seems like a small detail, but will be appreciated by those who are familiar with the usual china cabinet construction.

BENT GLASS DOORS add style and class to this piece of furniture. The center doors are of continuous construction, embossed with scroll ornament to match those on either side of the French heeled plate mirror in the top. Three in the leg terminate in graceful, Colonial shape feet. Order this cabinet with or without mirror top at first quoted. Height, 74 inches; width, 26 inches; depth, 15 inches; weight, 224 pounds; length, 36 inches; French heeled plate mirror, 15x15 inches. Handles and glass shown are not included at prices quoted. Shipping weight is approximately 255 pounds.

CHICAGO
Solid Oak Kitchen Cabinet

A Well Made Kitchen Cabinet
With 41x26 In. Top. A Good Value

MOST MEN are not vitally concerned as to the method of running the household. But their seeming indifference takes another turn, should it not be harmonious and pleasant. The question of how the meat is prepared does not interest him nearly so much as how it tastes. Therefore when you start to prepare it does not bother him just so long as it is ready when he returns home, when the day's toils are done.

But women who have the responsibility of the management of the home must make every effort to make matters pleasant. It is to your interest to possess a kitchen cabinet such as this, because it will save you time, labor and vexation.

SOLID OAK is used in its construction, being thoroughly seasoned and nicely finished in an attractive golden color. The top section is fitted with two full length shelves, affording ample room for dishes, glassware, etc. This compartment has two doors of clear crystal glass, set off with artistic lattice work. The table top measures 41x26 inches. Under this top is a handy bread board. To the left of the base is a roomy cupboard fitted with shelf at top. The doors to this section, as well as to the cutlery drawer on the right and the cupboard doors in the top, are fitted with wooden knobs. Flour bin fitted with wood drawer pull. The base has paneled sides as illustrated.

MEASUREMENTS are as follows: height of cabinet is 67 inches. Size of table top, as mentioned above, is 41x26 inches. The bread board is 17x21 inches. The flour bin has a capacity of 46 pounds. Cabinet sets solidly on floor, and is built so that swaying under its full weight, is an easy matter. (Articles shown not included.) Shipping weight, 170 pounds.

No. 4K984. Price $12.85

Solid Oak Kitchen Cabinet
Complete Cabinet With Room For Everything. Has 42x25 In. Top

IN THE ORIENT there are women who prefer slavery to freedom while in the Western World, the wife is second in importance to the husband. In Europe, the wife is second in importance to the husband.

Fortunately, in America we respect womankind as queen of the household. Every attention is given to reduce her work and to lessen her worries. Every device that accomplishes this end is looked upon with favor by the American people.

The kitchen cabinet is a Godsend to the housewife, which we illustrate as to the left and describe hereafter.

THE KITCHEN CABINET is roomy, ample and convenient in size, and made of carefully Selected solid oak wood and measures 42x25 inches. Easy sliding kneading board is beneath the top, with a commodious flour drawer and a deep drawer below, fitted with nickel-plated drawer pull. Cupboard doors also with nickel-plated drawer pull on inside of lower cupboard door. Height is 21 inches. Construction at extreme top forms a very convenient shelf. (Only articles mentioned included.) Shipping weight, about 136 pounds.

There Is Plenty Of Room To Store Kitchen Utensils And The Price Is Low

EVERY HOME needs a kitchen cabinet. There are hundreds of times when a cabinet will prove to be a wonderful convenience and labor saver. It makes not how large or small your kitchen may be, or whether you live in a farm, in a flat, or on your own homestead. You will need a handy kitchen cabinet, such as the sanitary solid oak model which we offer, an absolute necessity. Thousands of families, who have found experience, say that a good kitchen cabinet is a great household convenience which they always strongly endorse.

THIS CABINET is built to render a greater degree of service. It embodies all the best features that could possibly add to the convenience and labor-saving value of an up-to-date kitchen cabinet. It is constructed of seasoned solid oak with an elegant finish that lasts. The hardware trimmings are of copper. Stands 62 inches high overall and is full 42 inches wide. The top contains a drop-end and regular tilting floor bin with upper attached: good-sized china closet with two doors, each of which has a wood panel with art glass at the top. Below this section is found a expands sliding shelf bin and two spice drawers. Articles shown are not included at our price.

THE BASE has a working top of 18 inches, below which is found a sliding bread board, 18 inches in size: a cutter drawer, bread or cake drawer and large cupboard for crockery. Food is closed with a door which contains wire rolling pin rack and wooden pan rack. The lower part of base is made in a neat design and can be easily fastened together to give the cabinet great strength. Every feature of this cabinet is modern in every way. Weighing weight of 158 pounds.

Order This Fine Sewing Machine By No. 7K1159

Has Drop Head

This Machine is fitted with strong, short needles which are interchangeable with Singer No. 27 or with the Free Sewing Machine Needles.

The Ball-bearing Action Gives Smoothness of Operation and No Noise

The Stand is of French leg type with graceful lines, easy to keep clean and made of the best iron, properly braced, handsomely finished and exceptionally durable. It has a full ball-bearing steel Plummer bushing wheel; the improved ball-bearing action gives our customer a machine that for ease of motion, smoothness of operation and lack of noise in running is excelled by any machine on the market.

Guaranteed 10 Years

The Cabinet of our Columbian "T" is absolutely durable, because of the fact that all wood parts are attached directly to the stand. Made of selected quarter-sawn oak of the choicest grade and carefully inlaid with rich carving. It has four drawers, large and roomy, with built-in slide rails. The entire cabinet is beautifully finished and will be in keeping with the finest furniture in any home.

ATTACHMENTS

They are the neatest in appearance, the easiest understood and a greater variety in style and number than are given by any other house. They come in a velvet-lined, highly illustrated box with a special device for easy attachment, so that they cannot be mislaid or lost. Each and every piece of our attachment set looks like solid steel, polished and nickel plated. The full set consists of the following: Needle, roller, binder, bobbin, bobbin, scissors, cutter, button, button, button, etc. These are warranted steel throughout. This machine with its free accessories is a far greater value than was ever offered by any other concern. Shipping weight of machine about 125 pounds.

No. 7K1159, $24.95

For Full Line of Sewing Machines See Other Pages of Catalog
Ww give attachments free

With every "Columbia" machine we give a beautiful little red hand-carriage, a jammed metal box as illustrated above, and a complete set of dress and hand attachments, and a practical length of bobbins and bobbins, and a practical length of bobbins and bobbins. 

A SEWING MACHINE is necessarily a very delicate machine and is supposed to be able to perform certain functions with the aid of the human hand. Building a sewing machine is like building a house. Each part must be perfect within itself, so that the part itself can function satisfactorily. The materials used in the building of a sewing machine must be of the best quality and must be properly selected and adapted to the parts. The workmanship in the head of a sewing machine is not only made of the finest quality materials, but the head is completely finished with the greatest care. 

DEPENDABILITY OF QUALITY. While we speak particularly of the excellence of the workmanship of our machines, we shall tell you of our great excellence and very low price, yet we wish to mention the fact that these machines are of great possible durability. We are proud to say that only the highest grade of materials are used and every little part is carefully selected and tested before it is entered into our cheap machines. We give ten years' guarantee with each machine we sell, regardless of the price. We can do this, for we have been in the business now for over 100 years, and our lowest priced "Columbia" is built right, will give satisfaction that will hold or warrant its durability and be a money maker as to make it a most profitable investment for the owner of the machine.

Woodwork and Positive Four-Motion Feed

THESE SHOWS THE SEWING CONSTRUCTION OF THE WOODWORK "COLUMBIA" MACHINES

Views showing automatic lift

Steel Bar Automatic Lift

"Columbia" machines are equipped with either hand lift or with one of the best automatic lifts ever invented. Instead of the long hand bar that operates to lift the head, there having been a short hand bar that raises or lowers the head. When you lift the old bar, the head comes up and when you are through sewing, lower the bar and the head comes down. This is a sectional view of the top and bottom of the "Columbia" automatic bar lift.

How "Columbia" stands are built

One of the most notable features of "Columbia" sewing machines is the high, sturdy, French leg stand, which keeps on the level at all times. The leg is made of solid steel with a balanced arm and a balancing weight. In that it affords a long and more direct drive for the pitman and makes the machine considerably lighter running.

AUTOMATIC BOBBIN WINDER

All "Columbia" machines are fitted with strong short needles which are interchangeable with the Singer No. 27 or "Columbia" machine needles. When ordering needles give No. on bed plate behind machine.

Ball bearing Pitman

BAll bearing Pitman

The illustration above shows in detail the construction and features of the "Columbia" stand. The hub of the driving wheel is supported on a strong brass ball bearing. This improvement makes these "Columbia" machines the most desirable, the most convenient. All ball bearings are set in special retaining rings. No ball bearing is exposed, every ball bearing is taken up at the front and rear.

Ball bearing Pitman, large size, solid, iron steel, and everything to make it thoroughly convenient.

Balling bearing and light running

In our ball bearing parts, each ball bearing is set separately in the ball retainers, thereby making the bearings more durable. If you are going to buy a bicycle you certainly would not buy one without a head ball bearing and this same decision should be made in buying for a sewing machine. The "Columbia" machine is a ball bearing type and is extremely light running and smooth; they are not surpassed by any machine on the market at the low prices quoted.

ABOUT EXTRA NEEDLES

All Columbia machines are fitted with strong short needles which are interchangeable with the Singer No. 27 or "Columbia" machine needles. When ordering needles give No. on bed plate behind machine.
Improved Columbian "A" Sewing Machine

FOR A MODERATELY PRICED, good quality sewing machine; one that is reliable and guaranteed by the manufacturers and ourselves, there is none to surpass this Columbian "A" for the money. When you stop to consider that machines of this style have been sold for many years and are giving satisfaction today, and have for years, you come to the conclusion that they are pretty good machines.

THE CABINET is made of solid oak and is nicely varnished. It has four drawers, the front panel is adorned with rich carvings, while the drawers on either side are fitted with neat ring pulls. The edges are expertly rounded. It is fitted with a high arm which when opened gives ample space for resting a large quantity of material. The table of machine is made to give plenty of working room and is not concealed, as is often the trouble with inferior brands of sewing machines.

STRONG STEEL WORKING PARTS. Every working part is hardened in oil and has a good surface, that is scarcely affected by years of hard use. The accurate fitting of these superior parts gives the machine the light running qualities so much sought after and well known to exist in our Columbian models. The fine head is of the improved type and is finished in black enamel and ornamented with decorative decorations. The stand is of a heavy design, under shuttle, automatic bobbin winder, ball bearing steel pivot, steel drawer runners and automatic drawer locks which do away with keys possessed by this machine.

TEST IT AT HOME by letting us ship it to you on approval. Before you have used it ten days you will find it all we claim for it. Although the Improved Columbian "A" has all of these desirable qualities we do not claim that it is as fine a machine as the more expensive models. In fact, we recommend one of the better designs for the fullest measure of satisfaction. When we say that for the money it is an excellent value. Shipping weight, 120 lbs.

No. 7K824. Price $16.85

Inlaid Tape Measure

Automatic Locking Drawers. No Keys Required

YOU CAN SAVE

the top of this beautiful, automatic lift, ball bearing, convenient, and fitted running machine in your home. The first year returns the money that will produce for you. It is true that this improved cabinet is self-adjusting, and the convenience that you will work will be thoroughly enjoyed. They are of most strength and better designed than any cabinet of the same type. No self-adjusting. When you turn lock lift, drawers unlock automatically. Steel bars, automatic lift is absolutely correct. No iron is required. It is made to do away with vibration. Has high balance used resisting action, worked for operated machine, and also makes it easier running. Equipped with fine working machine with upper lower on top of arm. Will automatically handle all classes of work.

IMPROVEMENTS constitute the following: First, floating drawers eliminate the necessity of using keys on this machine. It is all steel drawer runners, on which the drawers slide easily and smoothly without starting. Steel bar automatic lift, and lower automatically; the famous patented French for its wide, strong, beautiful in design, and being of superior pattern is very easy to use and handle.

OTHER FEATURES are the steel Pitman ball bearing, which is used in this old-fashioned wood Pitman, which breaks easily, and is far from satisfaction in results; the ball bearings make easy running; but ease running features a steel shaft to the woman who does a large amount of work. It is a substantial, durable, projector made for a pleasant operation. Too high, large balance wheel increases the speed as well as the ease with which this machine operates.

Possesses Numerous Time And Labor Saving Conveniences

TELE AUTOMATIC DRAWER LOCKS. NO KEYS REQUIRED

THE MACHINE is equipped with a splendid sewing mechanism. Has an apparatus, high grade cabinet made of fine solid, golden oak with quarter-sawed oak veneer lid; finish, golden, high grade. Four large drawers fitted with divided wooden pulls, raised ornamentations on pilasters and panel door. All parts of cabinet, drawers, panel, table and back are fastened separately to stand, including exceptionally strong construction. Cabinet head very high up to the head is strictly high arm, being 4 1/2 in. under arm to accommodate heavy and high tension; in fact, will do all your work in the very best manner and with the least amount of time, attention and trouble.

STEEL BAR AUTOMATIC LIFT enables you to open and close machine without touching head. You want the machine ready for work, simply raise and lock. Head drops automatically. When through sewing, turn the lid back to head drops automatically. All you see of the lift is a short, steel bar 3 inches long above the table. As counteract into the wood so that both surface is secured, is practically noiseless. When machine is lock, drawers lock automatically; no keys are required. If you want the drawers unlocked when the machine is closed, use the secret spring. This arrangement protects the parts against the meddling fingers of the mischievous children.

Lifted with strong, short needles which are interchangeable with Singer No. 27 or Free sewing machine needles.

THE MANY CONVENIENCES which save both time and labor:

Side tension, automatic tension release, self setting needle, self threading shuttle, automatic bobbin winder, positive four motion feed, independent take-up, feed plate adjustment. Head finished with triple coat black enamel, decorated with gold, silver, blue and red colors. Under parts of head fully nickel plated and baked as are many parts above bed plate. No wooden drawer racks, as drawers are on steel runners. Has famous French lacets of copper. Finish finished in jet black Japan. High balance wheel and long ball bearing steel pitman makes machine light running.

Has A Convenient Steel Bar Automatic Lift. Is Ball Bearing

Quarter-Sawed Oak Veneer Lid. Balance Solid Oak Golden Finish

SOLD TO YOU ON EASY CREDIT TERMS

This machine is of solid, golden oak with quarter-sawed veneer lid, high water polish throughout, 6 large, roomy drawers, rook ornaments and carving on drawer handles, blisters, and center panel round wooden knob. Separate parts of cabinet all fastened separately to the stand, ensuring very long life.

TRIPLE COAT black enamel on head, beautiful colored traceries fashioned over under parts of head and parts above bed plate: full nickel plated and buffed. Patented automatic lift device, superior to lost string, chains and foot teams in use on most machines. Take the lid and sewing head up automatically. When though needed, turn the lid back and head drops in place with very little weight. All that you see is a short steel bar about 3 inches long above the table. Contributes into wood, making smooth table surface. You will feel that the operation of this automatic feature is practically invisible.

DRAWERS LOCK when lid is dropped; no keys necessary. Unlocks when hand is raised. Secret spring unlock draws when machine is closed. Drawers slide on steel runners. Grey iron, black japanned French leg stand. High balance wheel, large steel pitman, ball bearing. Adapting skirt measure and hem guide

These Illustrations Convey Some Of The Desirable Features Of The "Marvel"

IMPROVED "Marvel" 16-Section Dress Form

UNDER THIS FORM and you can furnish your wardrobe with the latest dictates of fashion at a moderate cost. With the use of modern fashion books and patterns which are usually in advance ready-to-wear clothes, you can be the snap and save by wearing garments before they are worn in the most up-to-date style. This form gives you the advantages of bought to-order creations of the dress at a much lower cost—an advantage that will appeal to the nominal and thrifty woman.

THE PROBLEM of cutting has been solved by the pattern makers. The hem of fitting is solved by the marvelously adaptable Dress Form, stated on this page. When the form the sleeves are easily ed—stout the skirt may be draped or folded, for you can pin to the long body part which is covered almost to the knees and you can arrange the garment that it will hang to suit your type. You cannot make a jacket in the same length as you will have that the adjustable skirt measure and hem guide increase the length desired.

This Dress Form Meets Every Style Change Of The Future For All Women. It Is Really Almost As Essential As A Sewing Machine In The Home.

"MARVEL" 16-Section Dress Form

NOTE ESPECIALLY that this form is divided just a trifle below the hip line. There is no other make of form of which we know that gives the advantage of instruments for changing figure, and widening the hips, seat or abdomen. Next to the SKIRT LENGTH MEASURE AND HEM GUIDE this is the most important improvement that has ever been made in adjustable dress forms. In addition to this, you can enlarge the bust without affecting the waist, hips and seat. Likewise, you can make one shoulder higher than the other—an adjustment that is reserved by many persons.

You CAN adjust this form to suit the lines of a stoop shouldered or square shouldered figure with equal ease. You can lengthen the waist without affecting the bust, hips or seat, or you can lengthen the bust without altering the waist, bust or seat, and making all of these adjustments you do not have to reach through the form pockets, or tighten the set screws. You simply pull each section out to the measurements required. When you see that the manipulation of this form is so simple as it is accurate, a feature with an article of this type.

ANOTHER FEATURE of adjusting is that you can raise the bust without affecting the back, or you can lengthen the back without raising the bust. In short, you can manipulate your figure as just as you are with very little difficulty. This form is made according to our own specifications. Extra heavy paper machine wash which is used in construction will render years of service to the owner. It is covered with a good quality of Jersey cloth. The full nickel trimmings found on this dress form add to its life as well as to its bright and pleasing appearance.

REVOLVING STAND upon which the "Marvel" Adjustable Dress Form is mounted is made of iron and is very strong and substantial. You can adjust this form to any height that you desire. Fitted with claw and ball feet instead of casters which get out of order and cause considerable annoyance. We desire to impress you with the fact that when you can receive a dress form that in 16 sections has the many desirable features of the "Marvel" at this low price, you are obtaining a value that is worth of its name. Shipping charge 45¢.

GREAT KITCHEN CUPBOARD VALUES

By glancing at the pictures of one line of Kitchen Cupboards you will quickly see that they are all of pleasing design, and that any one of them will prove an ornament to your home. The interior construction of furniture adds greatly to make us of its quality, but does not show in an illustration. Therefore we refer to the strong reinforcing on the inside, smooth finish, and perfect joining of all parts, all equipped with key and lock—not with knob as illustrated. Drawers have knobs, not handles.

Special Bargain

VERY SUBSTANTIAL LAWN SWING

Price Without Canopy Top $4.95

Can Be Set Up In 10 Minutes

A REMARKABLE lawn swing in many ways. It is sold with or without canopy, as desired, at the low prices which we quote on this page. By referring to the illustrations and the descriptive features brought out with the aid of the arrows, you can gain a good idea of its excellent construction. It is without question one of the best values we have ever offered. The derrick is painted red, the balance of the swing being a natural varnish finish.

THIS DERRICK is made from 1 x 3 inch rounded stock, has noiseless knife edge hinges, 8 ft. high, and occupies a ground space of 5 ft. 6 in. by 5 ft. The width of seat between arms is 31 inches, depth of seat 12 inches, hanger rail 8 ft. 9 in. Seat and back can be adjusted to three positions and platform can be raised to second dowel for children's use, or level with seat, to form a couch. The advantages of these features must surely appeal to you.

THE CANOPY is made of standard 6 oz. blue and white awning stripe. Has full scalloped braided drop and full braided edge, giving it a nice finished effect. Bases upon strong angle iron, which are firmly bolted, to side of derrick. Swing comes packed in two boxes. Lowest freight rate, but can be set up in a very short time. State whether wanted with or without canopy. Shipping weight of swing, about 115 pounds.

SOLID OAK PORCH SWING, LACQUERED FUMED FINISH

Complete With Substantial Non-Rusting Adjustable Chains And Ceiling Hooks

THIS SWING is made from durable, thoroughly seasoned solid oak in fumed finish, with an extra coat of lacquer to protect it against unfavorable weather conditions. BOLTED in the building of this swing. This insures a very rigid and substantial construction. Extreme width is 50 inches; the seat measures 1 1/2 feet; diameter between arms is about 43 inches.

No. 1K2170
SHAPED SEAT. The seat is of shaped style of 1 1/2-Inch rounded slats. A remarkably fine porch swing at a true bargain price. Shipping weight, about 40 pounds. No. 1K2170. Price $3.19

SOLID OAK AUTOMOTIVE PORCH SWING, FUMED FINISH

Complete With Foot Rest Rest Chas And Ceiling Hooks. Is Self-Propelling. Measures 50 Inches In Width

MADE OF solid oak, thoroughly seasoned and kiln-dried, comes in fumed finish with an extra coat of lacquer to protect it against unfavorable climatic conditions. It is furnished complete with footrest attachment and footrest chains and ceiling hooks, as shown in the Illustration. The end panels and wide arm rests. The arm rests, in addition to being of solid oak, are fastened with 2-inch heavy screws. This swing has a tie bolt running completely through the ends. The method of building this automatic is such as to produce a strong, braced construction. This swing is self-propelling and has ample space back or footrest to step in and out of swing. The footrest propels the swing and the slightest pressure of the feet turns it in motion. Has a shaped seat, as illustrated. A feature of this Automate which is a great improvement is the adjustable footrest. YOU WILL NOTICE that the footrest can be raised and bolted in about 2 inches above where it is regularly attached. This is provided so that it will be suitable for children or small people. The arrow in the illustration shows this feature. The extreme width is 50 inches; the seat measures 1 1/2 feet; the distance between arms is 43 inches; the distance above seat, arms 11 inches above seat, length of arm 23 inches; width, 5 1/2 inches. The seat construction is strengthened by the use of four braces. It is constructed of 1 1/2-inch rounded slats. Footrest drop is 17 inches, width of footrest 13 1/2 inches. The footrest chain is an easy, smooth motion, shipping weight, about 45 lbs. No. 1K2171. Price $4.97

WE ALWAYS have the interests of our customers in mind when
we seek the manufacturing market for articles
to offer in our big line of bargains. Our offerings are high grade
and the prices are absolutely the lowest possible. Join our big
army of customers who stand by us because they know that by so doing
they are taking absolutely no chance whatsoever. As an instance of
price-slaashing; as a sample of genuine bargain-giving; as a really great
opportunity to purchase merchandise that you can feel proud to own.
we call your attention to this beautiful, decorative, comfortable rocker.
It goes out with our strongest and sincerest endorsement and recom-
mandation.

IT'S A CERTAINTY that if you purchase it you will be pleased.
This rocker is expertly made of fine Fibre Reed, expertly woven as illustrated, and expertly finished in the widely
used and very attractive Baronial Brown—a color that "fits in" with
practically all surroundings. The upholstery is attractive tapestry
with flowers and leaves predominating, all beautifully blended in nat-
ural colors to produce a wonderfully attractive effect. The button
tufted pad in the seat is removable. It is covered with tapestry to
match the back and padded strip forming the seat front. The shades
are delicate in hue, comprising greens, old rose, yellow, blue, etc.
The back is very well padded to assure comfort.

THE SEAT has nine strong springs. It is nice and roomy, meas-
uring 21 inches between the arms. The height of the
back from the seat is 24 inches, and the height of the seat from the
floor is 18 inches. We wish that you could sit in it while you are
reading its description; then that you could get up and take a look at
the rocker itself. In fact, you can, if you desire for we will send it
to you on approval, without any obligation on your part of keeping it,
if you care to keep it, as we know you will, pay for it in small in-
stallments. Shipping weight, about 25 pounds.

No. 1K2223, Price...................

$9.65

Baronial Brown Color.

Fine New Design

Tapestry Upholstered.

Very Comfortable.

Has Nine Springs in The Seat

THE ELEGANCE of this very artistic rocker will be recog-
nized by you the minute you see it in your
home. For it has the earmarks of refinement, luxuriousness and
high class appearance. It is made of durable Fibre Reed, hand-
somely finished in rich, Baronial Brown. This Fibre Reed is famous
for its wearing qualities as well as its rare beauty. The back is
rounded and the upper front under the seat is shaped in a very
attractive manner. Observe also the gentle flair to the arms, which
gives it both grace and ease, so much to be desired in a
rocking chair.

THE TAPESTRY is of a floral and leaf pattern, magnificently
worked out in an harmonious combination of
colors, with brown in predominance. The green shades as well as
the delicate yellow and purple tints combine to produce a very
artistic effect. The tufted, tapestry upholstered pad in the seat is
removable and is neatly sewed with tufting buttons. Tapestry strip
in front to match. There are 3 hand-tied springs under the seat,
which are supported by 3 steel bands. This method of construction
insures strength as well as care and comfort to the occupant. It
is fitted with good, strong runners.

MEASUREMENTS. The height of this excellent rocker is 24
inches, the height of the seat from the
floor terms 21 inches. The seat itself measures 16 inches in width and
20 inches wide. Extreme width 25½ inches. From these sizes you
can gain a clear idea of the relative proportions of this exception-
ally fine piece of furniture. Remember, that the illustration as
shown to the left is taken from an actual photograph of the
rocker itself and therefore conveys its elegance and splendor. You
can order it shipped on approval and take a year to pay. Shipping weight, about 34 pounds.

Special "Leader" Underglazed Porcelain Dinnerware

THE HANDBRO Damian WHITE PORCELAIN dinner set, which we now offer for your consideration, is one of the finest of its kind to be found anywhere at the price. It is a good plain white set, the shape of dishes being that shown in Illustration below, with a neat embossed design molded at intervals on the outer edge of each piece. While there is no gold band decoration on any of the pieces of this set, the embossed pattern goes away with the safety plain appearance which would be noticeable if the embossing had been omitted. A pure white set is often more preferable than one with decorations and for those desiring a set of this kind. No. 6K341 is one of the best they can buy and place in the house at a price anywhere near as low as ours. When you consider the wonderful变态 at which this set is sold and the convenient plan of paying the entire amount before sending it, you will see that these are the prices which are to be expected for this set of dishes. There is really nothing more enjoyable to eat good food served in good dishes. It's a pleasure set to be desired anyone. Can be furnished in either 51-piece set, weighing 60 pounds, or 100-piece set, weighing about 150 pounds.

No. 6K341. Set of 51 Pieces ........... Price $3.95
No. 6K342. Set of 100 Pieces .......... Price $6.95

THE BEAUTIFUL 3-INCH GOLD BAND PATTERN of this dinner set, for a description of the style of decoration now being used on the most desirable dinner sets, is a cost more than what we quote for this set. As the predominant style of decorating has been of the past few years been gold bands of three or more colors, and for those who desire such a set, we offer our No. 6K1952. Each piece of this set has been decorated with an embossed design on one side, appearing immediately below the 3-inch gold band, which itself encircles the entire edge of dish as shown in Illustration. This gold is put on by a new process at the pottery, and before the dish is given its finish and glazing. By this method, the decorating is set on very evenly and gives to the appearance of each dish. The clay used in moulding this set is double glazed, which makes it very durable and gives it a very fine finish. You can easily be hit by a mill stone you may make by ordering this set at the price we quote and we guarantee every way that it can be furnished in either 51-piece set, weighing 60 pounds, or 100-piece set, weighing 150 pounds.

No. 6K1952. Set of 51 Pieces ........... Price $4.95
No. 6K1953. Set of 100 Pieces .......... Price $8.95
ELEGANT SIX PIECE TOILET SET, $2.95

This set is made of fine quality white porcelain, each piece being molded in a most pleasing shape. The embossing is artistically placed on each piece of the set in a fancy pattern, while the color decoration is in a floral design of foliage and roses, beautifully brought out in brown, green or blue. The coloring is delicate and soft, being put on each piece before it is finally glazed and fired and by this modern process will not scratch or wash off. The six pieces contained in set are: Wash Bowl, Pitcher, Soap Dish, Tooth-brush Holder, Chamber and Cover. Extreme care is given to the packing of our crockery and dishes. The picture above shows set in green, but you can order it also in brown or blue. White color desired. This six-piece set weighs about 60 lbs. $2.95

No. 6K1750. 51-piece Set $4.95
No. 6K1751. 100-piece Set $9.95
For Description See Page 323

HIGH GRADE TWELVE PIECE TOILET SET, $5.95

Beautiful toilet set, of white embossed porcelain, with tinted embossings as shown above, standing out in a most pleasing contrast, which make it a set exceptionally rich in appearance. Each separate piece has been carefully fired and glazed, and molded in a new and artistic-going shape. It is easily handled and not clumsy. Ten-piece set consists of Wash Bowl, Pitcher, 3-piece Soap Dish, Chamber and Cover, Mug, Small Pitcher and Tooth-brush Holder. It does not contain a stop-jar, for many of our customers desire to purchase a set without these extra two pieces. Weight, about 75 lbs. Twelve-piece set contains all the pieces mentioned in the ten-piece set and also includes a stop-jar and cover, which are counted as two-piece. Weight, about 95 lbs. Can be ordered in blue, green or pink. White color. $5.95

HIGH-GRADE
"EMPERESS" PORCELAIN DINNERWARE

EAT FLORAL DESIGN of blue and
floral-on-white, especially
suited for casual dining. Shown in each piece of this
"Empress" Dinner Set is an extremely
slender graceful handle. The mold-
ing of each piece is carefully
atended to the pottery and the main color of
which a clay is prepared before baking and overlays that
shape the pieces into the pleasing
designs as shown. The decoration is
of the finest ever used on a set of dinner
ware for any price.

OTHER BIG VALUE is found
in this

Three recovery is much so pleasing to
so very and nothing that gives more delight
is the person sitting at a table than to be
served their meal upon dinner dishes that
are of an excellent design and pleasing
size. You give it to your family and to
yourself in that you can not for the
very wish to spend, and in this particular
set, at the given quality, you get
more value than is usually found for
the price elsewhere. It is also very easy to
put it, while you are using and creating it.
Piece set weighs about 21 lbs., and 51
set weights about 60 lbs. Page 320 gives
list of prices.

BEDFORD" HAVILAND DESIGN PORCELAIN DINNER SET

THE RICH GILT used on the sprays
in the decoration of this set is a
beautiful combination of gold and white back-ground, which is delicately embossed in
a most desirable design. These sprays are set
in a colored flower and leaf pattern, which
is similar to patterns used in more expensive dinner
ware. The pieces of this set are made proper
size, so as to give the most desirable satisfaction both in durability and service.
You can make no better decision in selecting this set, let it be to a very good value at the low price
which we ask. You will observe that we offer it in 51-piece and 100-piece sets for service for
6 or 12 persons respectively.

DOUBLE FIRED and glazed, this ele-
cient dinner set is a gift to
those families who own the rare dinner.
The bright gold and color decorations are put upon
each piece before the final glazing and firing are done, and by this method the pieces are
substantially and scientifically placed below the top surface and greatly enhance the beauty of each piece
in the set. The coloring is added in the making and is a real design. This is truly one of the greatest sets you could possibly obtain
anywhere. The 51-piece set weighs about
57 lbs. and the 100-piece set weighs about
100 lbs. Page 320 gives list of prices.

DAINTY "BRITAIN" DINNER SET OF FINE PORCELAIN

THE PRETTIEST DESIGN is an
improvement for the decoration of this
dinner set. It is in a floral cluster effect of
pink and red flowers, with sprays of green leaves, very
formally placed on each piece. These
flowers are arranged by the most expert
molders and are below the top glaze,
which gives each piece fascinating ap-
pearance. The gilt is applied by three
sprays, which are carefully placed on each piece be-
fore the final glazing and firing are done, and by
this method the pieces are substantially and
scientifically placed below the top surface and greatly enhance the beauty of each piece
in the set. The coloring is added in the making and is a real design. This is truly one of the greatest sets you could possibly obtain
anywhere. The 51-piece set weighs about
57 lbs. and the 100-piece set weighs about
100 lbs. Page 320 gives list of prices.

as to the great value of our new Liverpool Porcelain Set. We shall be more than pleased to

handle your order with the utmost care and attention that you can expect. We believe that you will

pay for it on easy terms if you desire, and we believe that the set is worth every dollar that you pay for

it. The illustration shows you clearly what the dinner set will be like. You will see this set of dishes

and will be more than pleased with your purchase. Page 320 gives list of pieces.

DELICATE BORDER of attractive bright gold

is arranged in an exceptionally pleasing pattern, extending from one floral cluster to

the other. These clusters are formed of a strip of beautifully shaded roses in natural colors.

The graceful designs of the colors are very graceful, and the piece set weighs about 45 lbs.

Page 320 gives list of pieces.
GOLD DECORATED DINNERWARE

With Any Initial That You Desire
Beautiful Hard Fired Vitreous Dishes

To EAR in mind that these are not flimsy, light dishes that will chip or crack in ordinary use, but are made of strong vitreous ware of medium weight. Each piece is of a pure shiny white with a band of gold around the outer edge and a gold stripe as illustrated. Initial and scroll embellishment also are in gold to harmonize perfectly. Initials dinnerware gives “class” and elegance to your household furnishing. If you do not feel that you care to provide a full set of 100 pieces, a 51-piece set is contained in the same box. Initializing each piece is shown in the alphabet, to enable you to select any single initial set least order the 51-piece set at this great bargain price. Allowance of several extra days must be made for initialing this ware. The style of each initial is shown in the panel at the bottom of this page, so you may order early.

FINE PORCELAIN SET. THE "YORK" WITH STYLISH GOLD EDGES

A FINE PORCELAIN SERVICE at a price as low as we ask for this set should appeal to those who appreciate a real value in dinner ware, and we urge you to consider this set before making your selection. The shape of the dishes has a distinctive design, with each edge is completed with a very delicate gold band. The colors of the dishes are in most conventional and harmonious, and in harmony with a dainty and tasteful background. Each dish is brought out in colors of terra cotta, pink, and orange, and is a striking example of our ability to offer you high grade dinner ware at low prices.

WHEN YOU BUY HERE you save the prestige of many years of service to the trade. We do all in our power to give to our patrons the best values that the market affords. And that is why, when you come to your store to help from us, you can and should feel that you are taking no chances. We do not claim that it is the finest set in the world at the lowest price; but we do claim that we offer it at an excellent value to those who require it. Page 329 gives list of pieces.

## Gold Band Set

YOU cannot purchase at this price a dinner set that will adorn your table with more exquisite taste than the beautiful white and gold pattern illustrated on this page. There is a narrow band of gold around all edges and likewise a fine gold line as shown on the various pieces. A striking feature that adds distinction to this set is the attractive heavy solid gold effect on the handles. These gold handles place this set above the ordinary, giving it distinction and "class," such as you rarely find at these sensationally low prices. White and gold decorations, always popular, have become the favorite because they do not offend the most cultivated taste and harmonize with all color schemes of table decoration.

The shape is the splendid new "Empress" shape, so much admired by housewives and found in the homes of the wealthiest people in the country over. It is pronounced the last word in the plainer shapes now the prevailing fashion for home use. It is the leader of its class, as you will recognize after having seen the articles themselves. All pieces are pure white, of velvety texture, of abundant size, yet dainty in modelling. The contour of the handled pieces is especially graceful, eliminating the usual "stock out" appearance found on many inexpensive lines of chinaware. They seem to grow out of the body of the piece, giving them the finishing touch of style. When you consider our low price, you should not hesitate to send us your order for the 100-piece set. Either set, however, is a true bargain offer at these low figures.

### 51-PIECE SET CONTAINS

DECORATED "HAZELHURST" DINNERWARE WITH NEAT GOLD EDGES

New Design is found on this elegant and practical dinner set and is one that is sure to win immediate favor with all lovers of fine dinnerware. Not only is the price high but the pattern and quality are such that you will be satisfied with the results. Just look closely at the form and you will see in what a beautiful arrangement the border and complete set of porcelain are combined. The design of this set is of such beauty that it is irresistible to anyone. It is of very fine quality and every care was taken to produce a set that for the money could be purchased elsewhere. And they have not succeeded in turning out such sets, so better to buy it before you could duplicate it at a piece for a few dollars. You don't have to look for it, either, for if you don't choose the pattern that we will be pleased to send you a set on approval and if you don't like it, don't keep it.

HE BORDER is of a solid arrangement of leaves around the rim and is so arranged that the border is set in accurate proportions and is as pleasant as it is effective. Each of the edges is made to harmonize with the rest of the dinnerware, and it is a pleasing design that is perfectly adapted to the use of the dinnerware. The design is such that the border is not at all out of place, and the 31-piece set includes about 15 pieces of porcelain, as well as 15 of glasses.

Actual Colors Shown on Page 321

HIGH GRADE "JOSLIN" FINE GOLD DECORATED DINNER SET

THE NEAT PATTERN of these dishes is one of the finest that can be found. A great many people are now using dishes with a plain, decorative border decoration and for those who are looking for such dinnerware, we have no difficulty in recommending this set. Then consider the low prices we are quoting on such fine ware as is offered here. We ask you to make a comparison of this value with those of others and you will see that the set is not only good for your table but it has a real worth and beauty. It is hard to do it better with a picture. Send us your order and let us ship you a set to your approval, so you can look it over carefully and then buy it. It is a good and fine product.

THE GOLD used in decorating this set is of the finest quality and the border is neat and attractive in its effect. You will find that the gold is very fine and that it is finely blended with the porcelain, just as you would expect it to be. The gold is not at all out of place, and it is a pleasing design that is perfectly adapted to the use of the dinnerware. The design is such that the border is not at all out of place, and the 31-piece set includes about 15 pieces of porcelain, as well as 15 of glasses.

Semi-Collapsible Go-Cart At A Real Bargain Figure

Note The Price

Shock-Absorbing Springs Run The Entire Length Of The Seat. 3-Bow Hood An Easy Running Cart

Note The Price

The frame of this dandy little go-cart is constructed of strong steel, in a way that is bound to render substantial service. The pusher, the lid, the wheels are of flat steel, gracefully curved as shown in picture. A wood cross handle is used to join the two sides forming the pusher of this model. A feature of this go-cart is the shock-absorbing springs which extend the entire length of the seat. These relieve the shocks or jolts and make easy riding for the child. The body measures 14½ in. wide and 36 inches long. Black enamel is used in the finish of this imitation leather is the material used for the upholstery; this likewise black to match the finish of the frame. This material gives the appearance of real leather and will give service of the sort that you have a right to expect.

**THE HOOD** is of the 3-bow type. The enameled wheels measure 10 inches in diameter and each has 11 inch spokes. The wheels are fitted with 1/2-inch rubber tires and are nicely set off with metal hub caps. This is a semi-collapsible go-cart that folds up with motion. The price at which we sell this article is so low that you might be tempted to take it if you are seeking a bargain in an inexpensive go-cart. We feel certain that you will be very well satisfied with your purchase, therefore, with the utmost confidence in you to include it in your order, does not please you in every way, remember our guarantee of satisfaction protects you. Shipping weight, about 38 pounds.
TWO SENSATIONAL GO-CART BARGAINS

Offered At Very Low Prices With A Year To Pay

This Collapsible Go-Cart Is

Very Strongly Constructed

A CART LIKE THIS, will be appreciated by every mother, for it is a vehicle that is substantially constructed and built to give the utmost comfort to the child. The time of the large, clumsy baby carriage is past. We are now living in a period when everyone looks for efficiency and economy, and in this model you get both. You not only get a very desirable go-cart at a very low price, but you get one that will give you the very maximum of service at this same low price. Don't miss this great value. If you are looking for an inexpensive go-cart for your baby, that is constructed of good material, in a thorough manner and one that will give you good service. Read carefully the full details given below and you will agree with us that this bargain is without comparison at our wonderfully low price.

THE CONSTRUCTION is equal to that often used in go-carts sold at prices higher than what we ask for ours. In appearance it ranks well up with costlier models. The frame is strong and durable, and when flat measures 18x28 inches. Has 8-inch seamless steel tubing pushing 25 inches long, with ebony finished wood cross handles, 13/16-inch webbing and 31 inches from the floor. This cart is fully collapsible, folding up very compactly when not in use and occupying a space 81/2x10 inches when folded. The wheels are enamelled and fitted with 5-inch rubber tires. The hand caps on wheels are nickel plated. The handles are also nickel plated, while the foot well frame is oil finished. Balance of metal parts being black enameled. You can carry this cart with you wherever you go, for it can easily be closed up into a convenient package for taking on street cars or other methods of conveyance.

FOLDS WITH ONE MOTION. This go-cart, hood adjustable to different positions, and upholstered with black or green leatherette to match the upholstery on the balance of the cart. This hood has a 2-inch spread and is 111/2 inches wide. The back is adjustable to two positions and measures 8x11 inches. The seat is 10x13 inches in size, has flat steel springs and is 13 inches wide. Inside the hood when lowered to a reclining position is 27 inches long. A strong strap is furnished which protects the child from falling out of the cart. When sending us your order for this go-cart, please state the color of upholstery desired. Shipping weight, 45 lbs.

No. 7K841. Price, $6.85

FOLDS FLAT

Here's A Go-Cart You Seldom Find Offered At So Low A Price It Is A Full Collapsible Model

WHEN BUYING a go-cart every mother makes an endeavor to purchase a vehicle that will give the maximum comfort to the child and in that respect the model we offer here is unsurpassed for the money. Look carefully at the illustration and note how gracefully this go-cart is designed. And when you take into consideration the low price we charge, you cannot help noticing that it is a remarkable bargain. Then you have the advantage of being able to buy it on our liberal credit plan of a year to pay. Order it sent to you on approval and after you have received it you do not find it to be all we claim and do not think that you have received full value, return it at our expense, accord- ing to our local landed guarantee.

HIS GO-CART is a full collapsible model, folding up very compactly to a convenient package for transporting from place to place. It can be taken with you wherever you go. It is a fine thing to have and is added to our line this season as we feel that it is one of the best values we have ever been able to offer at this price. The flat top frame measures 17x25 inches. Has seamless steel tubing pushers, 28 inches long, with fancy turned wood handles, every finish. Hub is 1/2-inch wide with 32 inches long. Rims and tires are black enameled and equipped with neat and striping. The seat and back are upholstered, with black leatherette to match balance of cart.

FOLDS FLAT and when not in use occupies a space of 8x11 inches. Has a modern new spring construction. The back is adjustable to different positions, covered with leatherette trimmed with tinned steel. Has rubber foot well, storage space below. The 5-inch black enameled wheels are fitted with 5-inch rubber tires and 6-inch wide tires which prevent cart from rolling away when overturned. The hood has a 24-inch spread and is 111/2 inches wide. The seat is 10x13 inches, while the back measures 11 inches wide and 12 inches high. Shipping weight, about 45 pounds.

SEND US YOUR ORDER

One-Motion Collapsible Go-Cart

YOUR ORDER BRINGS IT TO YOU. What is the use of being "handy" without this handy "comfy" Go-Cart when you can get it on credit. If you have longed for a Go-Cart to relieve you from the tedious task of carrying your child when you are tired and out of sorts, if you have said to yourself, "I'd like to have a go-cart, but I can't afford it just now," forget this seeming objection and take advantage of our liberal credit terms. The small sum it takes to get this great convenience and the little amount it takes to pay for it in small installments, are so trifling that you will never miss the change.

STRONG AND SERVICEABLE. The manner in which this excellent Go-Cart is put together insures great strength and durability. It is built for hard usage and will live up to your greatest expectations. Has a padded seat to add to the comfort of the little one; padded back can be adjusted to two different reclining positions and at the same time the foot-well can be raised. The fine spring construction is another point in its favor that makes riding easy. The wide seat gives plenty of room for bedding and pillows.

Padded Seat.
Back Reclines In Two Positions.
Automobile Hood With Side Curtains.
Large Wheels With Rubber Tires.
Nickled Fenders.
Takes Up Very Little Space When Folded.

SETTLE THE QUESTION in your own mind, now, once and for all, send us your order and we will ship you this fine new collapsible go-cart. Use it on approval; and if you do not care to keep it, return it at our expense, according to our liberal guarantee, and we will refund every penny you have paid out, including transportation charges. This liberal proposition should be sufficient evidence for you that we have unlimited confidence in the many advantages possessed by this extremely dependable one-motion collapsible go-cart. Below you will find all information that you desire concerning its operation, construction and dependability.

SIMPLE TO OPERATE. There are no complicated parts to get out of order, and it opens and closes with one motion. It folds very compactly and is therefore easy to carry about. To open, simply take hold of the front rail with one hand and the cross handle of pushers with the other, draw the two together and one motion collapses it to a compact package that is extremely handy to carry about at will.

EXCELLENT MATERIALS THROUGHOUT. The covering used on the hood is of fine imitation leather. This cart comes in black, green or brown. State which you desire. The automobile hood has a 6-inch spread and is equipped with rolling side curtains; ebony finished wood cross handle. Back measures 11x4 inches, wheels are 10 inches in diameter and are enamel finished, has 1 3/4-inch rubber tires. Pusher is made of steel tubing 5 1/2-in. wide. The hood back areas are nickel plated; seat rail, hub caps, fenders and handle corners nickel. Other metal parts are black enameled. The frame measures 16x27 inches.

REMEMBER THESE FACTS. When you stop to consider the many great advantages that this go-cart possesses and the small amount it takes to have it, you can not afford to pass it by in justice to yourself and in justice to the comfort of your child. Shipping weight, about 25 pounds. No. 7K351. Price $10.85

Gearing Is Patent Ball and Socket Direct Bracing Type—the Very Strongest And Lightest Construction In Use

THE MATTER OF QUALITY is, without question, a most important one to consider in the purchase of any piece of merchandise. The matter of price in likewise of supreme importance and it is the two combined that determine the true merit of any value. In presenting this go-cart, we want you to carefully consider that the all important factor of quality has been well balanced with that of price, until we can say, with the utmost conviction, that no better go-cart value was ever offered on the market at this exceptional bargain price. It is a full collapsible model and folds with one motion.

THE ATTRACTIVE DESIGN is symmetrical, the lines being graceful throughout. The gear rig is of the patent ball and socket direct bracing type, prominent as the strongest and lightest construction used. The frame is tubular in shape and is very strong. Observe the 5-piece handle with nickel plated side grips and center ferrule. The body measures 30 inches wide by 30 inches long, is equipped with the new shock absorbing springs which run the entire length of the seat and rear seat adds comfort to the little one. The comfortable back is adjustable to 4 positions. Has padded seat and back, also auto dash as shown in illustration above.

FOUR-BOW HOOD This go-cart has a large, 4-bow hood with nickel plated fixtures. The wheels are hollow, measure 12 inches in diameter, have 16 spokes and are fitted with 1-inch rubber tires. The wheel brake is firm and can be relied upon to do its work properly. Observe the practical as well as ornamental nickel plated oval mud guards. These are a protection to the body of the cart as well as to the child's clothing. The deep and roomy seat well in adjustable to the comfort of the babe; in fact, all details have been taken into consideration to add to its value.

THE EXCELLENT FINISH is black enameled, attractively off with nickel plated tubular arms and plated dash fixtures. You can have your choice of either black or brown upholstery, the material used being a good grade of leatherette. This is a go-cart that is far ahead of its class at this price that we anticipate an enormous business upon this number. We, therefore, urge you to send us your order early. It is sold under the liberal terms shown on page 1 of this catalogue. Shipping weight, carefuiy cardboard, is about 13 lbs.

WHEN YOU BUY a convenience for the child there are several factors to be considered seriously. In the first place the child’s comfort must be regarded. On the other hand the ease with which the go-cart can be handled is a matter of vital importance to the mother; and we wish to say that in presenting this splendid new model both of these points have been carefully considered from every angle. This is an article which will bring equal comfort to both the child and the mother. In ordering remember that you are protected by our legal guarantee of satisfaction.

THE USE of this car will prove conclusively all of the claims which we make for it. It is full collapse and can be carried about with ease. It has a 5 piece handle with nickel plated side grips and ferrules. One of the practical features are the shock absorbing springs which run the entire length of the cart. These insure an easy spring which means quiet travel and restfulness to the child.

THE BODY measures 15 inches wide by 35 inches long. Made of steel, of the new, auto style with nickel plated, tubular frame. This gives the child and mother the greatest ease of handling. The finish is black or brown enamel with upholstery to match. Remember you can take your choice of two colors: black or brown.

MUD GUARDS. Particularly note the oval, nickel plated mud guards, which are not only the means of protecting the child from being besmeared with mud, but are an ornament as well. Also has strong wheel brake.

SHELVES are made of genuine galvanized steel wire woven on heavy steel wire frame and heavily tinned. Ice rack made of galvanized steel bars welded together. Air after passing over ice falls directly into provision compartment, displacing warmer and lighter air, forcing it up through a hole at either end into the compartment. Price includes ice rack in the compartment. Includes a practical all-steel drip pan. The price includes special handle for padlock, shown to left.

A REFRIGERATOR BARGAIN

This Is Constructed of Genuine Ash Lumber in Golden Oak Finish.
Take Your Choice of Galvanized Steel or Enamel Lining at Prices Below. Is Sanitary and Economical

ADJUSTABLE SHELVES are features of this Hartman refrigerator. These shelves are genuine steel wire woven on heavy steel wire frame and heavily tinned. The ice rack is made of galvanized steel bars welded together, the strongest and most common-steel ice rack in the country. After passing over the ice, the air falls directly into the provision compartments, displacing the warmer and lighter air, thus the warm air is forced up the holes at either end of the ice compartment, where it contacts with the ice, it is purified, cooled and again falls, thus keeping up a constant circulation.

INSIDE CASE is of odorless and tasteless lumber, matched and clamped together, well sanded and glued and fastened to hardwood cases, making it thoroughly air tight. Outside case is nailed and glued to plates on which hold the inside case, making one of the strongest and most durable refrigerators ever built. Finished in three coats of high quality flat and waterproof finish, giving a handsome and serviceable gloss finish, protected with white lacquer. This prevents cold air from congealing through waste pipe. The insulation is the dead air space and non-conducting sheathing. Choice of galvanized or enamel lining at prices quoted.

EXTREMELY SANITARY. This high-class refrigerator is constructed in a very careful manner so as to make it very sanitary. It is easily cleaned, is odorless and most economical in ice consumption. If you care to have a fine, baked-on WHITE ENAMEL LINED refrigerator, you can order for this one and we will send it on approval. If you are not satisfied in every way, you can return it at our expense.

STUDY THE ILLUSTRATION
Note every feature possessed by it, remarkably fine, low-priced article. It is constructed with an inlaid casing of odorless lumber, matches and clamped together in a very substantial manner. The outside case is of solid hardwood lumber.

COLD AIR CIRCULATION
In this illustration we show the way in which the cold air is circulated through the arrangement of the shelves and the drip cup in position. The air after passing over the ice, falls directly into the provision chamber from where it is forced up over the ice and is purified, cooled and again falls, thus keeping up a constant circulation. This principle of cold dry-air circulation helps to the economy of ice and assures satisfaction in the preservation of food. When you consider the fact that you can take a year to pay for your refrigerator, you should not delay sending us your order.

OTHER FEATURES.
All pint lids are supplied with our patent lift stop. Hinges and locks are all of genuine nickel plated brass and are heavy and through substantial. Wire shelves in provision chamber and galvanized iron ice chamber are of removable type for cleaning purposes. In white enamel lined, baked on.

Look over the list of sizes shown below and decide what capacity refrigerator will best suit your requirements.

SANITARY AND ODORLESS
Galvanized or Enamel Lined

**IMPROVED NEW DESIGN**

**HARTMAN REFRIGERATORS**

HERE'S A REFRIGERATOR that has been designed for economy of space allowing a great deal more room in many refrigerators of smaller design, yet costing as much as this one. It embodies the most improved scientific principle of cold, dry air circulation which has been proved the most perfect for working great ice economy. The circulation of the air is the reason why this refrigerator and allows the warm air to escape and will be well pleased with this fine refrigerator at the price quoted below. Considering the sizes and measurements of various compartments higher prices than these figures would ordinarily be considered cheap for. For an article.

**IT IS MADE** of panelized construction, a splendid quality of seasoned ash that is being used with a rich golden oak finish. It can be ordered in any size that is given below. When sending your order, be sure to give the correct number, so that we will know the exact size to ship; and also whether you desire galvanized or white enamel lining. Be sure, also, to select a size that will be sufficiently large to fulfill your requirements. Hinges and locks are strong and durable and made of genuine brass. Waste pipes are removable and rolling casters are supplied.

**ASY TO CLEAN.** The provision chamber is fitted with wire shelves that are easily taken out to clean compartment. It is absolutely odorless and sanitary, guaranteed in every way. Both the ice chamber and the provision chamber have large front doors which is the most convenient construction ever known in refrigerators, and it preserves food perfectly, keeping it in its best condition for a long time. Provision chamber is for preserving food, and it is usually necessary to produce results in large refrigerators of this type. Order one and have an entire year to pay for it.

White Porcelain LINED "MANHATTAN" REFRIGERATORS

IF YOU WANT SATISFACTION In a refrigerator you should select one from this page which
has been considered in order to make them faultless in construction and appearance, and perfectly
practicable and economical in use. There are many refrigerators on the market which
produce a handsome appearance, but too expensive in price, yet their construction is such that the
quantity of ice required to keep the refrigerator at a desired degree of cold temperature amounts to
two or three times the quantity required for our "Manhattan" Porcelain lined refrigerator of
size and dimensions. Any refrigerator which requires an unnecessary quantity of ice will
quickly create enough expense to make it a dear investment for the owner. The
"Manhattan" refrigerators produce a maximum of results at a minimum expense.

IS WELL CONSTRUCTED. The cabinet is constructed of solid oak
(small size in ash), finished by
beautifully penciled in an expert manner, and fitted with nickel plated solid brass
and knobs. The double walls are insulated with sea grass quilting and a
board sheathing, one of the best insulations known. The ice chamber is lined with
galvanized iron, having removable ice tank with rack as indicated and in some
models the ice chamber has removable drain pipe and path trap; the wire mesh shelves are removable.

SOLID OAK GENUINE PORCELAIN LINED. This refrigerator
consists of a series of solid oak in the two larger sizes and the smaller size is constructed
of ash. In addition to the fact that it is one of the best refrigerators made, we
sell it at a lower price than is often quoted by other concerns on refrigerators
inferior to our "Manhattan." It is lined throughout with heavy porcelain with the exception of the ice chamber, which has no inner sheathing of galvanized steel.

SANITARY AND ODORLESS. This "Manhattan" white porcelain
lined refrigerator is entirely sanitary and odorless, easily kept clean, pure and sweet. Its
fine white, genuine porcelain lining, sanitary wire shelves, scientific cold air circulation make it
as unimpeachable as is possible with an ordinary refrigerator.

WILL CUT YOUR ICE BILLS without the least effort, as the cold air
entered into the provision chamber, displacing the warmer and lighter air and forcing it up
the rear end into the ice chamber, where being in contact with the
ice, it is purified, cooled, and again falls, thus keeping up a constant circulation.

The principle makes a wonderful economy in ice and insure absolute satisfaction in
the preserving of foods.

---

No. 7K1309 to 7K1311
Genuine Porcelain Lined

WHITE PORCELAIN LINED SOLID OAK REFRIGERATOR

Our Highest Grade COMPARTMENT REFRIGERATOR

PORCELAIN LINED. In our "Porcelain" Refrigerator we are offering
the dependable quality in the materials and making of the compartments, as it makes
them in a room provided for ice and provisions. Good value at prices quoted below.

SCIENTIFICALLY BUILT. It has scientific heavy white porcelain lined
walls with air space and filling of sea grass quilting and board sheathing. The
interior cold-air circulation system which keeps the ice from melting rapidly keeps the
provisions, makes this refrigerator much more popular in every way than the ordinary kind. These points
are especially satisfactory to the housewife who has learned from experience that a
refrigerator which will save ice and which can be readily cleaned is the most desir-able.

THIS SOLID OAK BARGAIN WONDER is very carefully con-
structed by men who are
expert in their line, and fitted in a workmanlike manner, smoothly sanded and giveth a
finish. The walls are extra thick, air and sea grass quilting insulated, the massive metal
maker in perfect air tight and have solidly nickel plated polished automotive catch and latch. Prices, sizes, etc., are quoted below.

WILL CUT YOUR ICE BILLS without the least effort, as the cold air
enters into the provision chamber, displacing the warmer and lighter air and forcing it up
the rear end into the ice chamber, where being in contact with the
ice, it is purified, cooled, and again falls, thus keeping up a constant circulation.

The principle makes a wonderful economy in ice and insure absolute satisfaction in
the preserving of foods.

Two Smallest Sizes Have Only 3 Shelves
VITAL FACTS ABOUT "REGENT" STOVES

REEDUCING LIDS, COVERS, CENTERS.

One of our ranges is fitted with the convenient reducing lids. These present a very advantageous feature as they permit the use of different size cooking vessels, without exposing them to excess fire. This available range of lid will be found on a number of our stoves. The covers and centers, shown above, are made heavy and adjustable in height, to be used quickly, for both gas and fuel stoves. They are reinforced as shown (some being ribbed) and are of full size, as listed on the respective ranges.

Oven Measures Are Given On Each Page Where Ranges and Cook Stoves Are Shown.

TO MEASURE FIRE BOX: Take length, width and depth of fire box about one inch shorter than the grate. Then measure width, then height, and depth of fire box about one inch shorter.

LARGE AND ROOMY OVEN. The importance of the oven is apparent to all who praise the family meals. A "Regent" range has good oven space, being full measure according to the dimensions given on each page. They are equipped with sliding, removable racks, as shown in the picture. Each range oven is square, well cooled and quick baking. Ovens are strong and possess a lipped opening to balance door. The drop doors can be adjusted to suit any size. Many of our ranges have wooden shelves, which does not heat up, and can be conveniently removed for cleaning.

TOasting OR Broiling. A great number of our "Regent" ranges are equipped with this very convenient feature. It enables the user of the range to place the oven without the necessity of opening the range. The fire in the range can be adjusted, being carefully tested before leaving the factory. It is a very useful feature added to the range for those who wish to devote more time to other cooking.

TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS

A Small Size May Be More Economical To Maintain Than A Large Size.

FOR CRedit TERMS SEE PAGE 1 OF THIS CATALOGUE

CHICAGO 345

If You Wish a Stove to Serve the Double Purpose of Heating and Baking Order a Cast Iron Range or Cook Stove.
LARGE REMOVABLE FIRE POT

Our base burner fire pots are large, both at the top and bottoms. They are extra heavy and strong and can be very easily removed by unlatching the strip across the front. All that is then necessary is to slide them out. To determine the size of the fire pot, measure full across the top from the outside to outside; these fire pots are of heavy cast iron.

PATENT DUPLEX GRATE

A photo of this grate shows the free guard and bars. This grate has a sliding top which permits of easy clean out and removal of ashes. The grate is built in one piece and consists of four bars and two wedges, which are fastened together with bolts and nuts.

“REGENT” STOVE FOUNDRY “B.”

This illustration shows the plant where the famous “Regent” stoves are produced.

This Cut Depicts Both Hot and Cold Air Flue Construction of Base Burners. Showing the Way that the Air Travels in the Course of Heating.

OAK COAL GRATE, CLOSED.

The illustration shows a combination wood and coal stove with and without the grate in place. The center slides out, permitting the insertion of the grate. It is strong and substantial and is representative of the type found on “Regent” hot blast and oak heating stoves.

HANDY TEA KETTLE TOP

Found on “Regent” Base

Burners

A Very Convenient Feature

This picture shows the usefulness of the tea kettle top found on all “Regent” bases. It allows control of the heat at the back of the stove by the attachment of a glass pipe to convey heat to the room. This double heating feature gives completely independent of fire pot. The tea kettle top is not only a great convenience, but others obtain heat rising from the body of the stove.

HOT BLAST TUBE

Saves 65% of Heat Used on “Regent” Hot Blasts

ALL OF OUR “Regent” hot blast heating stoves are equipped with a hot blast tube which takes the air from the top of the fire pot and feeds it into the blower. This gives a saving of about 65% of the heat that ordinarily goes out the chimney. Another economical advantage is that any kind of fuel can be used without hindering the efficiency of the heater. The hot blast is introduced and the gases and smoke are entirely consumed.
A REMARKABLE STove FOR THE MONEY. WILL BURN COAL OR WOOD

Our "Superb" Regent Cook Stove, which we are offering at the wonderfully low price quoted, is a modern, up-to-date stove, from which you will get the utmost satisfaction. It is well made in the way "Regent" productions are all known to be turned out, with a very heavy cast bottom, firmly locked joints and well finished edges. The bottom is made for strength and durability, and is mounted on high legs for sanitation, making sweeping under stove very handy and easy. This construction makes it possible for the stove legs to carry many times the weight of the body and still remain very firm and rigid.

WE WANT YOU TO KNOW that we consider this a splendid value. It is strictly a "HARTMAN'S" Barlow, and your experience in buying stoves at home surely will show you that such a well made large handsome Cook Stove with so many features as are employed in the manufacturing of our "Superb" Regent are not usual in cook stoves at these prices. And, don’t lose sight of the fact that this stove can be had on approval, and it must give complete satisfaction or you may send it back.

GREAT CARE IS GIVEN In the making of our stoves, to the manufacture, the selection, and the setting of stoves, as well as finish and ornamentation. No customer of ours ever received a stove that has not passed a careful and rigid inspection. Before any shipment leaves our plant, it must be found absolutely perfect in every detail. With this great care and our broad, strong, secret guarantee as protection, you are sure to be well pleased in every way.

CASTINGS of our "Superb" Regent cook stoves are handsomely brought out in a model and held in strict accordance with the balance of the stove. It is very neat in appearance, serviceable and easily cleaned, and stoves usually selling at our low prices quoted below seldom have such rich designing. This model shows clearly our ability to offer wondrous values.

BURNS COAL OR WOOD. Flat grates for well markings wood or coal are furnished with all sizes of our "Superb" Regent. Fuel may be supplied by either the feed or swinging feed door. When ordering your stove be sure to order a size plenty large enough to fill your needs, as a small stove is more expensive to maintain than a large size in proportion to the results obtained.

YOU CAN ORDER A RESERVOIR as shown in illustration, fitted to the largest size only. Reservoir is not equipped with reservoir a large extension end shelf, as shown in lower illustration, is fitted. Bear in mind that the smaller sizes of our "Superb" are furnished with reservoir.
A Great Achievement

THE IMPROVED WINNER

This cook stove is not constructed to take either a water front or water coil, but should you desire to heat water with it, you can secure this cook stove with reserve burner. A heavy cast iron construction is not a feature of our present sizes. It has a Duplex grate in all sizes. Possesses single flue construction throughout and solid fire box. It is not a two size stove. Its style is shown in the large illustration below, and taken from the actual photograph of the stove itself, conveys its attractive lines and pleasing appearance. We particularly urge you to order a size that is sufficiently large to fulfill your requirements, as a small stove is more expensive to maintain in proportion to a larger one. At the bottom of the page we show a schedule of sizes covering all important measurements. Look these over carefully.

Referring To Page 1 For Our Liberal Credit Terms

AN ALL CAST IRON COOK STOVE WITH STRONG CAST OVEN

Return If You Are Not Entirely Satisfied

THE OVEN is as explained above, is made of cast iron, which adds to its durability, rigidity and consequent lasting qualities. Possesses two doors, one on each side, and is fitted with even arch. The fine construction around the oven is such that it is expected to heat even on all sides, making it practicable for baking and roasting.

THE FIRE BOX is made just right, being large and heavy. The heavy iron and thorough ventilation insure long life to the parts which are directly exposed to fire. The pitch heel exists in all sizes and adds durability to the stove without disturbing the utensils which are placed on it. This enables you to turn either coal or wood, as desired.

THE IMPROVED WINNER

HEAVY JOINTED TOP. The "Improved Winner Regent" has a very heavy jointed top with good heavy end and center. It is supplied with removable hearth side, large ash pan and strong, high French design, cast iron legs. When furnished without the reservoir, it is fitted with a neat and shallow hearth door convenient for peeling fire.

CONSTRUCTED throughout of both northern and southern pig iron, all parts are smooth and every particle of material is the best run of gray iron. The result of using wrought iron in the three larger sizes is that it can take the greatest degree of heat, being cast iron. This model is fitted with more than the first two sizes, as it is of a more standard size.

NICKLED PARTS. The nickled parts are all in the even door frame, and the Alaska handles used on the piece door, fire door and oven door. These and other such parts are made of a material which is not subject to oxidation. The oven in this size is supplied with a "Kicker" for opening even door with feet, if you desire it. In every way it is a typical Hartman value.

OUR APPROVAL OFFER enables you to buy a cook stove, and if you are not entirely satisfied, you may have it returned at our expense. The goods, if properly returned, will be accepted, and we will refund the purchase price. This applies to all goods, and if on the other hand, it pleases you, you may keep it at the same price. We will pay all costs of carriage and return. This offer is subject to the other conditions of our credit regulations.
You Get Excellent Service
WITH the “Favorite” Regent Cook Stove

On this page we offer our celebrated “Favorite” Regent Cook Stove, which, when compared with stoves sold by others at similar prices, will prove our claims of splendid value-giving. This in itself gives you a convincing conception of the splendid buying and selling advantage of this concern.

**SOME FEATURES** of our “Favorite” Regent are: The heavily cast sanitary base, with all mountings carefully ground and fitted, which assures great strength and durability; and a return flue construction that gives good results.

**BURNS WOOD OR COAL.** Flat grates are installed in our “Favorite” Regent Cook Stoves and will burn either coal or wood. Grates are exceptionally well made, being cast of durable materials. The firebox is of oval shape, thus allowing away with all dead corners. Every little detail in the construction of these parts has been carefully watched, with the result that the finished product is a model in value-giving at our low prices.

**THIS STOVE** is a wonderful baker, making by test the finest pies, biscuits, cakes, etc., having a good sized oven with roomy top and everything necessary to make it the most worthy value. It is fully guaranteed under our Legal Guarantee.

**OTHER POINTS** of our “Favorite.” Regent are the large heat door, with a convenient slide for opening, door, the operation of simple addition of a handy touch feed for supplying fuel while top of stove is occupied. The “Favorite” has a return flue construction which gives good results.

**RESERVOIR** can be epuised only with No. 8K1351, at per price below. This hot water reservoir is made of heavy cast iron, with a white porcelain lining. The tank can be lifted out with ease. The heating of reservoir is arranged with a large flue, and water can be heated in an exceptionally short time.

**NICKEL TRIMMINGS** add greatly to the appearance and attractiveness of any stove, and it is very unusual to get as many parts on a stove priced at these figures. These nickelized parts are all heavily plated with a good quality of nickel silver and are furnished. They should not tarnish from heat. We supply the following nickel trimmings:

- Oven door panel, oven shelf, ash guard, towel rod, shaker and lifter.

Small size stoves are carried and listed to meet the requirements of small families. We strongly advise ordering larger sizes for fullest measure of satisfaction.

**OUR WONDERFUL PURCHASING POWER** enables us to secure the very cream of the market in all merchandise we sell, and by this power we can give maximum value at the minimum selling price. We have retail stores throughout the United States, and in each and every one the first thought of giving our customers the lowest values at the lowest prices is exercised. We take advantage of every opportunity to work economies and reduce prices.

**YOUR CREDIT** is a most valuable asset and you should establish it with “Hartman” before you attempt to buy any furnishings for your home. From us, you get quality merchandise with long, liberal credit, and our positive assurance of satisfaction or your money back. Under our system there is no skimping or saving to get what you need. Just buy it and pay for it as you go along, in small, easy payments.

**NOTE:** Smallest Size “FAVORITE” Listed Has Full 15x17½ Inch Oven.

**HARTMAN’S**
FOR CREDIT TERMS SEE PAGE 1 OF THIS CATALOGUE
CHICAGO 349
In the "Triumph" Regent, we offer a superior cook stove at true bargain prices. It is, in every way a typical Hartman value; because it gives to our patrons every possible benefit which our mammoth purchasing power could secure. In ordering it, be sure to select a size that will prove large enough for your requirements. It's to your advantage in the long run.

**THESE POINTS** make the "Triumph" a very desirable, practical cooking stove. It is equipped with improved Duplex grate, for burning either coal or wood. The swing top shelf is very handy; and, being silver nickel, helps to brighten up the stove, as do the other nickel parts, shown in the illustration. You can order it either with or without the reservoir, as noted at the bottom of this page. Has strong, double doors on the oven.

**FLUE PLAN** of heat distribution is of highly efficient type. By the return flue construction the heat from the fire box reaches every part of the oven, giving an even, perfect circulation. Thus satisfactory baking results are assured the purchaser of the "Triumph."

**Oven Opens From Both Sides**

**THE NICKELED PARTS** embrace the oven door shelf, foot lever or "kicker" for opening oven door, oven handle, and catch, tea pot stand, seal door handle and towel bar. These are all heavily plated with bright silver nickel. They set off this stove without being overly lavish and "snazzy" in appearance. In fact, the nickel trimmings are so well distributed that the "Triumph" will prove to be an ornament in every home as well as an article of practical usefulness.

**THE IMPORTANCE** of a stove can not be overestimated in the home. That is why it is to your interest to consider this vital matter very carefully. If you order the "Triumph" you will obtain one of the very best cook stoves on the market for the money. We make this strong statement because we feel confident of its great merit.

**THE HIGH BASE** is exceptionally strong; so substantial, in fact, that it could more than sustain the weight of the body of the "Triumph." The left end of this stove is constructed with a punch, fuel to the fire box without disturbing utensils may be on the top. The large and roomy hearth below, is of practical utility, because it can be used as a shelf when placing tins to oven or removing pan after baking is completed.

**THE DUPLEX GRATE** with which the fire burns, etc. coal or wood. For burning coal the grate should have the open side up. When wood is used the end flues should be removed. Be sure to refer to the introductory pages of the stove section for full information regarding the grate, as well as other features mentioned on this page. Read them over carefully for a concise explanation of various features worthy of consideration.

**ABOUT THE RESERVOIR**. The "Triumph" Regent may be purchased with cast iron reservoir, with japanned reservoir covers. If desired. Into it is a porcelain-lined tank, which can easily be removed for cleaning. The tank has a capacity of 14 quarts. By the use of a damper the heat may be turned on or off. When turned on, water is heated by circulating flue system of heat transmission. This "Triumph" is not constructed to take either a water or water tank for heating water in a kitchen pressure boiler. Please mention whether you wish this stove with or without reservoir.

**OUR GUARANTEE** is not only your protection but proof of our good faith. If, after receiving this stove, it does not come up to our representations, or if you are not satisfied, you do not have to keep it. If, on the other hand, it pleases you, make your payments in convenient sums, according to the terms on Page One.
A Steel Cooker And Baker

ORDER THE
“Prime” Regent
AT THESE PRICES

BURNS WOOD, COKE, COBS — IN FACT ANYTHING COMBUSTIBLE

No Water Front Or Water Coil Can Be Furnished With This Stove

BURNS COAL, WOOD, COKE, COBS OR ANYTHING being equipped with our heavy substantial duplex grate. Another noticeable feature is the handy pouch feed. By using this pouch feed to supply fuel, it does not become necessary to remove articles that are on the top of the stove. This is a great help and saves many fingers and hands, which otherwise may become burnt in moving hot pots to supply fuel by top feed.

STEEL BASE. A strong steel base, supported by well-designed high legs, is supplied. It is well constructed of serviceable material, and is very easy to clean under. The front legs are beautifully nickel plated and perfectly tight and rigid, thereby making the base capable of carrying twice the weight of the body. The base of a stove is one of the many important parts to be watched when constructing high grade models, and any of our stoves with a base will be found to be very secure and firm.

THE BODY is of blue polished steel, made with large cooking holes, heavy top covers and long and short centers. The 4-piece sectional top is substantial in construction and is well jointed. The hot air tubes are of large size, from which satisfactory results can be obtained. All parts exposed to fire are lined with asbestos board, and this fact alone insures long life to the stove. The fire box is huge, well made and arranged to give the greatest possible heat with minimum consumption of fuel. The front slide draft, opposite grates, is of great value in starting fires, as it gives the required draft to fire box. Cast iron feed pouch, end draft door and frame. Possesses efficient return flue construction.

THE RESERVOIR is one of the latest improved contact types. Either size can be supplied with reservoir when desired. In ordering state whether wanted with or without reservoir. On our “Prime” steel cooker the reservoir front is of cast iron with neat etched design. The top fits flush to main top of stove, thereby adding greatly to space for pans, etc. The water tank is heavily galvanized and thoroughly sanitary. A lid cover is used on this reservoir which allows it to be easily cleaned and to give the utmost satisfaction.

THE TRIMMINGS are of nickel plate, being highly polished, making a very strikingly handsome stove. The following parts are furnished nickel-plated: The front band, ash door, drop drop box door, oven door frame, oven door panel and oven door handle, as well as front legs. These parts are very carefully and well nickel-plated, so as not to tarnish, and are easily cleaned.

THE “QUICK BAKE” OVEN has an asbestos protection, insuring steady temperature, and acts as a preventive against burning out. It is equipped with a balance drop door with gravity handle and operated by a spring. The door, when lowered, can be used conveniently for a rest or shelf to set articles on, when taking them out, or placing them in oven. A rack is also furnished which makes it possible to raise or lower articles in oven, to get more or less heat. A good strong catch is provided to hold door fast. Oven is of re-enforced steel.

"DUKE" REGENT

Cast Iron Cook Stove
BURNS COAL OR WOOD

Made of Best Southern Gray Pig Iron
Accurately Cast, Bolted and Joined

The "Duke" Does Not Take Water Front or Water Coil

A Real Bargain
That You Will Do Well to Consider Before Buying

NICKEL TRIMMED.

Stove is handsomely nickel trimmed; the nickel parts are: Kicker, every shelf, under front door plate, towel rod, lifter, shakers, even shelf, reservoir plate, tea pot shield. This metal is heavily plated with good quality burnished nickel silver, which should not tarnish from the best.

DETAILS. Our "Duke" Regent has the latest improved Duplex grate for burning coal or wood. It is made of the heavy Southern gray pig iron, carefully cast, bored and joined. It is mounted on a heavy steel frame, carefiiully ground and fitted, making it possible to carry great weight. A large pouch feed is supplied, as is a cast sliding hearth. Oven door is equipped with handy foot lever opener, a feature welcomed by women because of the convenience in opening oven door quickly and easily, by the slight pressure of the foot. The cast iron oven is large and furnished with a rack. The very convenient ash door has a sliding draft register. A hearth pit and wood oven are also constructed in this model. The top is supplied with four short centers and equipped with towel rod and tea pot stand.

WHAT YOU PAY FOR

When you buy a Regent stove, you pay a low price for good materials and skilled workmanship and a moderate sum above this which we add as our reasonable profit. You don't pay one penny for traveling men's expenses and salaries and jobbers' and dealers' profits, as you do when you buy a stove of your local dealer; you don't pay the additional profit that many retail catalog houses add to the profit of the stove makers from whom they buy. You save all this, and you have the additional advantage of a consigned credit account.

YOU SHOULD NOT OVERLOOK

the convenience of credit plan of ours. We offer you the liberal terms stated on Page 1 of this catalog. Our "Duke" Regent can be purchased. Then, bear in mind, that no matter how low the prices, each and every article sold by "Hartman" is covered by your liberal guaranty. We have satisfied a vast army of customers, and they know that if it is from "Hartman" it is right. Their continued patronage is the best proof.

WE WANT YOU TO ORDER

a "Duke" Regent cook stove and have it delivered to you on our approval plan. You'll find it a mighty fine stove, and by opening an account with us you will have a long time to pay for it, in small easy payments. We will be glad to assume all risk of pleasing you. We will save you big money when buying and we will treat you just as if anybody you need to comfortably and completely furnish your home.

HAS POUCH FEED AND DUPLEX GRATES

The firebox fitted with our "over-break" Duplex grate, which when reversed from one position to another forms a surface for burning wood or coal. The firebox is wide and shallow and requires little fuel. It is fitted with pouch feed, which enables it to be handled. This rich, appearing cook stove is highly recommended by us, will save you many years of satisfaction and cause us to fully cover by a local guaranty. Short list construction.

Shipped To You on Approval
Baled Att Pan Furnished Free

Our "Duke", Regent Without Reservoir

THE RESERVOIR is supplied with all three sizes or can be left off, as shown in the picture. It is made of heavy cast iron—just in a pleasing design and in which pebbles lined, which embossed with proper care should not crack or scratch off. Removable. The heating of reservoir can be operated by an extra large blue with dinner, and water may be very quickly heated to about 150 degrees. The tables below, gives full information as to sizes, prices, etc., of "Duke" cook stoves.

### FIREBOX IS LARGE
and is properly constructed with correct ventilation, which gives it the power to stand great heat without burning out or warping the linings. It is equipped with heavy duplex grates, which can be turned up or down, to burn either wood or coal, the change operation being easily accomplished from the outside. When grate is turned up and end linings removed, the firebox is prepared for a wood fire. It has handy pouch feed with slide draft damper. By using this pouch feed you can supply fuel without removing any linings on the top of the stove. There is also another slide draft damper when starting a fire because of the direct draft it creates, and it also is helpful when poking the fire.

### NICKELED PARTS
are all highly burnished and are effective ornamentations.

The silver lustre of these fine nickle-plated parts will be found to add to its appearance. The illustration shows how elegant our "Fame" looks when it is put up with trimmings which consist of mitre, front, fire front, fire front door, ash door, ash door shelf, oven or frame and panel, reservoir ornament.

### POLISHED STEEL BODY
is strongly riveted and made of heavy grade steel. It has a three-piece jointed top, with large lining holes and heavy top covers. It also has large doors.

All hot air flues in our "Fame" are of exceptional size, which assures satisfactory results. In order to avoid warping, the top is made very heavy. The parts that are exposed to the fire, are lined with asbestos, board and this feature, also, gives great length of duration to the life of the stove.

### A STRONG BASE
Built of steel and supported by high, neatly designed, cast legs. Easy to keep clean under and around stove. Legs fit tightly and make base firm. Great importance is attached to base of a stove, for it base is built too lightly, entire stove's quality is lessened. Any of our stoves resting on bases are very rigid.

### SQUARE OVEN
is equipped with an easy, spring balanced drop door, in which is fitted a centered panel containing a glass screen. Very convenient to see inside of oven. Latter has an asbestos lining, which prevents burning out and which insures even temperature. In made of heavy gauge steel, reinforced with cast iron brace. Back is adjustable and can be raised or lowered to place articles so that they get more or less heat. Oven door has wood handle and strong catch.

### RESERVOIR
Can be supplied for either size and is of galvanized iron, contact type. A contact reservoir is very desirable, for it is a fact that this style heats water with desirable results. The front panel is of cast iron and has neatly patterned design of cooking. Top fits flush to main top of stove and is removable, cover, which gives easy access to inside of reservoir for cleaning it clean and sanitary. When a reservoir is ordered, it gives additional space to top of stove for placing pots, pans, etc. When no reservoir is ordered, stove comes equipped with end shelf as shown in small illustration below. The "Fame" is not constructed to take either water front or water coil for heating water in a kitchen pressure boiler.

NO BOTHER removing utensils from the stove in er-
ner to place fuel in the "Economy Re-
gent." The pouch feed does away with
this annoyance. The top on each size
has six 3-inch holes. This top is con-
structed in sections, firmly bolted to-
gether, thus removing the possibility of
breakage through expansion of heat
and consequent contraction. We furnish
shaker, litter and bailed ash pan free
with the purchase of this range. Order
this stove for complete satisfaction in
every way.

NICKEL TRIMMINGS are brilliant for lasting quality. They are liberally
distributed throughout, giving this
model an attractive appearance. They
embrace the following: Warming closet
hends, clock and name plate, brackets,
tea pot shelves, towel rod, oven door
name plate, oven shelf, hearth board,
and door handles as shown. Large sil-
frost damper makes starting of fire
easy and it also is handy for holding the
fire. Draft register in pipes enables you
to check heat around the oven.

EFFICIENCY was the keynote in the construc-
tion of this range. This standard
type answers to the material used, the tech-
nique of building, the nature of the Colonial
design and the quality of workmanship.
We are proud to say that the very name of efficiency was
implied in its production. Knowing that our patrons would
expect a low price, we figured the "Economy Regent"
a large quantity basis. Therefore the suspense has
finally been found in this model.

FEATURES. The duplex grate used is of the
Improved type and will burn
cool or wood. Fire box is a sufficient size to
draw a good fire, but for the best results we urge
the buyer to select one of the larger sizes. Has sheet
iron door and supports. Reservoir can be supplied if desired.
It is a porcelain lined hit-and-run tank of 14-quart capacity
6 inches high. Has wooden
latches pressure butler instead of reservoir cover.

THE IMPROVED "GEM" REGENT

ON A BASE of steel, securely and well fitted to high cast legs, this range is raised to the proper height to harmonize with its well proportioned lines. There is a sanitary feature to this construction also, as the base is deep enough to enable you to clean under stove with ease. The base is extremely durable, being constructed to hold a far greater weight than that of the body. The essentials of a good appearing, smooth finished range have been carried out in the base as well as the body of this stove.

A Cast Iron Range With Steel High Closet

6-HOLE TOP of this Improved "Gem" Regent is made in sections firmly bolted together. By this system of construction, breakage caused by expansion of heat, is reduced to a minimum. A large pouch feed for outsize 177 fuel without removing utensils (which may be in use on the cooking holes) is found on the end of this range and is always welcome for the easy manner it affords to supply fuel. You can order this range with or without high closet and with or without reservoir at bargain prices quoted.

A WATER COIL may be furnished at $2.50 extra, if you desire to heat water in a kitchen pressure boiler. See page of stove sizes, etc. Plenty hot water, however, is always ready if ordered with cast enameled reservoir. Outer casing is of durable cast iron child-removable inner tank is porcelain. Damper turns heat on or off.

NICKEL TRIMMINGS include the following: Fire door and handle, screw draft, ash door handle, top, panel, oven door handle, oven door handle, high close brackets, tea shelves, warming closet door and handle, warming closet and ends. These trimmings are of well burnished nickel and add greatly to the beauty of the Improved "Gem" Regent.

STEEL OVEN made of gauge sheet steel. The drop spring balance oven door is very useful when lowered, serving as a large shelf. An accurate thermometer is fitted in oven door. Oven is fully protected from direct heat of fire, eliminating the possibility of its burning out. Bottom is of one-piece brazed construction.

DUPLEX GRATE with which the fire box is fitted, burns either coal or wood. Fire box is large and oblong in shape and given necessary draft through the sliding side draft which is directly opposite grate bars. Firebox construction. Accessories include shaker, wonder ash pan and thermometer.

Fitted With Thermometer In Oven Door.

Duplex Grate
Burns Coal or Wood.
THE "SPECIAL" REGENT
Polished Steel Range With High Closet

Has
Duplex Grate.
Sheet Flue Con-struction.
Reinforced Steel Oven.
Liberal Nickel Trim-ings

Boiled Ash Pan Furnished Free

Four Piece Sectional Top, Cast Iron Reservoir Cheek With Nickeled Panel

Your Choice of Three Sizes. Shaker and Lifter Included

This Range Is Not Constructed for Either a Water Coil or Front.

MASSIVE STEEL BASE is rigidly constructed, being fitted to high box and made to carry extreme weight. In buying a range, it is not always the most important factor to determine how the stove looks, for most stoves look alike in pictures. What is that makes the range? How is it, you ask and find. There are all the very important factors to be considered. We don't want you to take any risk at all. Let us take the risk and then you can find out about the outside of the stove when it says so in this book. That's far enough anyone.

THE NICKELED PARTS. They are all nicely finished and plated with a grade silver metal. They are liberally decorated and give it just as fine a "finish" as more expensive stoves. The nickeled parts include: the front strip and front box, oven door frame and panel, pot shelf, fire door, hood bar, chimney on reservoir, tea pot shelf, high door bracing, warning closet name plate, hands and ends.

ROOMY STEEL HIGH CLOSED is made of one polished steel, and the roll front is accurately balanced, opening and closing very easily. It has neatly designed tea pot stands on either side. This high closet does much to make this range a model of perfection. For it gives the desired modern appearance, and yet does not make it look clumsy or too heavy.

RESERVOIR can be supplied for any size, if desired, and in the finest type. The reservoir is a cast iron, with nickel or plated empty porcelain front tank. If wanted for any hot water connections it is advisable to order a reservoir with a range because it is not designed to take either a water coil or water front for the purpose of heating water in a kitchen pressure boiler.

THE LONG FIRE BOX is a very desirable feature of our Improved "Special." This range is made in three different sizes; and in all of these the fire box is of liberal and generous proportions. A good sized fire box is essential to good combustion; and for that reason we do not hesitate to endorse the "Special." We advise, however, that you select one of the largest sizes for the greatest measure of all-round satisfaction. The fire box is also very durable and filled with strong linings. Sheet steel construction.

BURNS COAL OR WOOD Our Improved "SPECIAL" Regent is fitted with a large fire box equipped with the latest improved duplex grate for burning coal or wood, a feature too well known for special commendation. A large punch feed is provided for putting in coal, and in very happy when the stove is covered with a cistern. Large able draft gives free access to the grate; it is convenient for pulling or lifting fire when necessary.

THE SQUARE OVEN is well braced. The bottom is 18 lbs. in shape, being braced with a 4-lb. bar. Inside view, this is not just a piece, which allows baking on as well as bottom, and is adjustable to different heights. For oven door is of the spring balanced, drop type, and when pushed back can be used as a handle.

You will be actually amazed at the work this oven will do, as the baking will be with no crumb to the whole family.

IT'S EASY TO OWN This range, which we offer to your consideration on this page, for with our liberal open account and credit plan, you are given an equal to fire year's time to pay.
### THE "MAGIC" REGENT

**A Great Big Range Bargain For You**

#### STEEL BASE
- A steel base is included, easy to clean and maintain.
- The steel is of smooth finish, allowing easy cleaning.
- The base is constructed and designed to distribute heat evenly.
- The base has heat-resistant properties.

#### VINCICLED PARTS
- The front door and door handles are designed to withstand high temperatures.
- The steel is non-rusting, ensuring longevity.

#### Duplex Grate
- Used in this model, the grate is made of copper-lined steel, ensuring even heat distribution.
- The grate is designed to prevent hot spots and ensure even cooking.

#### THE "QUICK BAKE OVEN"
- This oven is very spacious, with a large capacity for baking.
- It features a "Quick Bake" system, allowing for even heating and baking.
- The oven has a temperature control, ensuring consistent cooking results.

#### A THERMOMETER
- Included with the oven, the thermometer allows for precise temperature control.
- The thermometer is easy to read and ensures consistent cooking results.

#### PRICE
- The "Magic" Regent oven is a great bargain at $24.75.
- Additional features include a high closet, warming closet, and a regnant gul Months.

IMPROVED "NEW MERIT" REGENT

UP-TO-DATE STEEL RANGE. FINE VALUE

The Range That Smashes Coal Bills

THE OVEN has a drop door and when lowered forms a large shelf.

The high closet is made of heavy gauge cold
drawn steel. It opens and closes easily. It is nicely
ornamented with nickel, and there are two large nickel plated handles
under the high closet. A high closet will be found indispensable when
one has to admit the last
arrival of some member of the family. For
with it, prepared victuals can be kept
fresh and warm, ready for service in a
minute's notice. This is readily adjusted by
the draft regulator found in pipe. You can have
a closet in an instant with this novel arrangement.

THE BODY is made of heavy blue steel.

This blue sheet steel is of heavy gauge. It is riveted together in a most
substantial manner and reinforced where it is
thought advisable to give additional strength.

ASBESTOS LINING. All parts which are exposed
to the fire are protected by a heavy asbestos board. This not only
insures longer life to the range but it is a more
even temperature and more satisfactory operation.

THE FIRE BOX. The
rings are extra heavy and well ventilated. Range
has successful sheet steel construction.

OTHER FEATURES. This range is supplied
with a pouch for
which is of great convenience because it enables
the user to supply fuel to the range without dis-
turbing anything that may be placed on the top of
the stove. It also has a sliding draft in door below
pouch and keeps it. Large end doors and cleat
frame under oven. Has heavy cast iron flue box on back.

This is absolutely of exceptional con-
struction.

THE NICKELED PARTS. The nickelized
ornaments consist of the following: Ash catch
ash door, fire door, high, shaker
and towel bar, soot door, oven
door frame, oven door panel, oven
handle, oven door catch and latch, pipe register, teapot shelf
and hinges, closet handle, closet
panel, closet edge bands, closet
shelves and extension book corner.

These nickelized trimmings are heavy-
ly plated and will not easily tarnish.

RESERVOIR is of the cast en-
larger pipe type with
lift-out porcelain tank of ample
capacity. It has the latest fire

system for heating water.

THE NEW "SAXON" REGENT RANGE

Sold On Easy Terms Complete With High Closet At Low Prices

THE "SAXON" is an up-to-date steel range set upon a cast-iron base. It is a range well proportioned; a thoroughly dependable cooker and bakes thoroughly with nickel trimmings, as shown in the illustration. All its features are the latest, sliding-draft in door, below pocket feet, and clean-out door under the oven. Has heavy cast iron box on back of range, which is a thoroughly dependable construction in every way. Oven has drop door and when lowered forms a large shelf. Has an efficient draft flue system.

HIGH CLOSET is made of heavy gauge, cold-rolled steel. Warming closet opens and closes with ease. There are two nickel-plated tea pot stands under the warming closet, as shown in the illustration. The body likewise is made of heavy wire steel. It is well-jointed and reinforced where necessary. All parts which are exposed to the fire are protected by a substantial asbestos board. The advantage of this construction saves longer life to the range and likewise means a more even temperature. There are a few of the improvements possessed by the "Saxon" Regent Range.

THE FIRE BOX is of good size and is fitted with an improved lining. The fire box is of extra strength and are well ventilated. As stated above, this range comes complete with high closet, but may be ordered with or without reservoir at the prices mentioned at the bottom of this page. The reservoir is of the cast-encased type with lift-out porcelain tank of 10-quart capacity. The fire box for heating water is regulated by flame dampener which turns the heat on or off, as will.

Bailed Ash Pan Furnished Free

NICKELED TRIMMINGS are all well plated and emboss the "Saxon" Regent range in such a way as to greatly enhance its attractive appearance. These include the following: Back guard chair, high chest stop, oven, top shelf, and base, iron, door, full side. All catches, oven frame, name plate panel, handle and hinges, are nickel plated. We direct your attention to the artistic design that is used in the fire and ash doors and the decorative appearance of the pattern that is used on the cast iron top. When ordering state whether wanted with or without reservoir and be sure to give correct number.

THE NAME MARK A Fine Steel Range May Be Ordered With Or Without Reservoir

**“ELITE” REGENT**

**With Lavish Nickel Trimmings**

**And Handy High Closet Shelf**

---

**THE STYLE** of the “Elite” Regent Range is conveyed in the large illustration shown on this page. It will give you an understanding of the beauty of design, and its dependability and efficiency can be determined only through actual usage. We recommend this stove very highly and guarantee it in every particular. Among its features is the Duplex grate which is of the improved type for burning either coal or wood. See introductory stove pages for construction and operation of this grate.

**FIRE BOX** is of a good size, made to perform the kind of fire required to do the best results. The sheet flue construction which is used in the “Elite” Regent is the kind that you would specify were you to order this stove built for your special requirements. You may have your choice of three sizes and four styles, as follows: Without high closet or reservoir, without high closet with reservoir, with high closet without reservoir, or with high closet and reservoir at the prices mentioned below.

**THE RESERVOIR** has a porcelain lined tank of 14-quart capacity. This may easily be lifted out for cleaning purposes when desired. The flue damper shown in illustration is provided for turning heat on or off. Should you desire to heat water in a kitchen pressure boiler instead of reservoir, order a water coil at $2.50 extra. Enough feed enables you to fuel your boiler without removing utensils from the top. The top is constructed in sections firmly bolted together, reducing the possibility of breakage through expansion. May be had With Or Without Reservoir Or High Closet. If You Wish To Have Water In A Kitchen Pressure Boiler, Order A Water Coil Price $2.50

---

**NICKELED PARTS** embrace the following: back guard, cook top, warming closet bands, ends, nameplate, the large mass of gas, towel rod, full oven door and oven, cooking closet door, fire door, and door and handles. These trimmings are brilliant silver nickel of lasting quality, and are liberally distributed.

---

**W E F U R N I S H**

**CHICAGO 363**
The "Domestic" Regent

Can Be Ordered With Or Without Porcelain Reservoir
High Closet Included At Our
Extremely Low Prices

CONSTRUCTION Every detail in the
construction of this range has been given close attention with the result
that an excellent range has been produced. Body
made of heavy gauge blue steel which does not
require bricking. All flues are of ample size so
as to heat all parts of the range quickly. They
are so constructed as to give an even draft all
around the oven, and by a flue reservoir, water
may be heated in a very short time. Range is
mounted on a durable cast iron base.

ASBESTOS LINING This steel range con-
tains many desirable features which insure long life to the range and
complete satisfaction in operation. It has a practical
asbestos lining, which protects the oven and ensures
an even temperature therein. This asbestos lining is
a very important feature and should be given due
consideration.

THE OVEN of this range is made of reinforced
steel. It is well braced to prevent
buckling. It is square in shape so that every inch
can be utilized. The oven door drops forward and
forms a large oven shelf. This door is operated by
a long spiral spring encased in a cast iron covering
at the lower right hand corner of the oven door.

FIRE BOX is of ample size and has a back
well. This back wall is well venti-
lated, which insures long wear. This range has sheet
steel flue construction.

OTHER FEATURES

Other prominent features which go to
make up the superiority of this range con-
sist of the fol-
lowing:

- A main
pouch feed, which enables the user to
supply fuel to the fire with-
out removing
a
thing placed on
the top. The grate
bored in the

- The

- THE SPACIOUS range is of the duplex pat-
tern for burning either coal

- HIGH CLOSET & RESERVOIR

This high closet is made of heavy
cast iron with extra durable re-
usable tank, with white enameled lining,
which is sanitary. Flue damper en-
ables you to turn heat on or off.

Stove is made with anchor plate construction on top. Top cut in three pieces which are interchangeable. Large fire box. Body lined with asbestos.
Handsome “Purity” Regent

Extreme Height 54½ Inches. Has Copper-Bearing, Anti-Rust Steel Body.

White Enamel Splasher Back

And Nickel Trimmed White Enamel Oven Door

THE FEATURES of the “Purity” Regent embrace a white enamel splasher on the high shelf, a white enamel oven door with nickelated panel, and a white enamel splasher on the high shelf. The elaborate nickel trimmings likewise command the attention of the prospective purchaser. The oval ends and base raise this stove to the proper height and make cleaning easier. The body is made of anti-rust, copper-bearing steel, which is better and more lasting than that usually employed.

THE OVEN is large in size and square in shape and by the modern sheet metal used in its construction, it is entirely heated to every corner, thereby insuring even baking results. The thermometer in the oven door will be found to be of great aid in economizing in the use of fuel and, furthermore, is a help to ensure your oven and broiler baking results. The spring balanced oven door, when lowered, serves as a convenient shelf.

FIRE BOX is oval in shape, large in size and well ventilated, assuring economy of fuel. It is fitted with three-piece fire back, proper feed, improved Duplex grates, for burning coal, wood or anything combustible. We refer you to Introductory store pages for details concerning the construction and operation of the Duplex grates. This range comes in two sizes and in four colors of your choice.

RESERVOIR has capacity of 26½ quarts, and is fitted with a fine damper to turn heat on or off. It is of durable iron and is white porcelain lined, fully enclosed in an outside frame. If you want your range to heat water in a kitchen pressure boiler instead of a reservoir, order a water front or water wall. Price of water front, $3.75 per gallon of water cost, $1.50. See pages of store attachments, etc., for further information. Four-piece top fitted with corrugated covers and center is supplied by center brace.

NICKEL TRIMMINGS embrace the following: Back guard corners, warming closet hands, ends, panel and handle, high closet brackets, pipe register, towel rod, fire door and handle, ash door and handle, ash catch, oven door frame, panel, handle and hinges, clean-out door and panel on reservoir check. Particularly observe the pleasing design upon the fire, ash and oven doors, all of which harmonize perfectly. We suggest your selecting the larger size as a larger stove is less expensive to maintain in proportion than a small one.

Bailed Ash Pan Free

Hartman's Chicago

**THE DESIGN** on the Regent steel range is of the best type and is as well adapted to the home as any range yet made. It is beautiful in design and adaptation, giving a conventional line effect that is pleasing to the eye. Order this range and be sure that your satisfaction will

**THE ADVANTAGES** of this steel range are many. It is not only an efficient, high grade stove, but is very attractive in appearance as well. A distinctive feature of this range will be noted in the following paragraphs.

**BAKING OVEN** is well traced and furnished with nickel cap and vane. The over is made of the best material and is constructed to prevent the escape of heat. The oven is supplied with a double door, the lower one being used for warming purposes only, and in addition a high warming closet, which is a great convenience for keeping prepared dishes nice and warm, when occasion requires. The detailed description of the range is given in the following paragraphs.

**FIRE BOX** is of a good size, as shown in the table of measurements below. This is a feature of the “Empire” Regent, and the oven is furnished with a neat, clean door. The fire box is made of solid steel, and the flue is furnished with a neat, clean door. The oven is supplied with a double door, the lower one being used for warming purposes only, and in addition a high warming closet, which is a great convenience for keeping prepared dishes nice and warm, when occasion requires. The detailed description of the range is given in the following paragraphs.

**REMOVABLE PORCELAIN LINED 12 Qt. RESERVOIR** is made of the latest type and is supplied for the range. The reservoir is made of the best material and is designed to keep the range cool and clean. It will be found that this reservoir is made of 12 qt. capacity, and will be found to be very convenient for keeping the range cool and clean. It is also very convenient for keeping prepared dishes nice and warm, when occasion requires. The detailed description of the range is given in the following paragraphs.

**NICKELED PARTS** are furnished as shown. Back guard and oven rail are high quality nickel, and are furnished with nickel cap and vane. The oven is made of the best material and is constructed to prevent the escape of heat. The oven is supplied with a double door, the lower one being used for warming purposes only, and in addition a high warming closet, which is a great convenience for preparing dishes nice and warm, when occasion requires. The detailed description of the range is given in the following paragraphs.
"WONDER" REGENT RANGE

A Splendid Steel Range With Cast Iron Base At

This fine range is fitted with duplex grate equipped with thermometer made with anchor plate top; plates are interchangeable.

If you want to heat water in a kitchen pressure boiler, order a water front price $2.75 extra.

THE BLUE POLISHED STEEL WARMING CLOSET extends full length of the range body and has large capacity. This equipment has become an almost indispensable attachment to the range. It has a roll front door which rolls back out of the way, permitting the interior of closet to be exposed.

THE CASTINGS of the base of our "Wonder" Regent Range are made of extra heavy pure pig iron, most carefully ground and fitted together. Extraordinary care is given to this work, being put together with the new lock edge and when once strongly bolted will not weaken or loosen. The body is built of polished steel, being perfectly plain and easily cleaned, and on account of its heavy construction is a great retainer of heat.

THE STEEL CONSTRUCTED OVEN is full size and square, and is an unexcelled baker. It is constructed of heavy reinforced steel, and is fitted with expansion and contraction strips, the danger of oven plates cracking being practically eliminated. The oven is fitted with temperature gauges, glass panels and thermometer in a nickel plated door. We are fitting oven door with nickel plated handle as shown in this illustration.

THE FIRE BOX is extra large and is adapted to any kind of fuel. It is supplied with an improved duplex grate, which can be used for either coal or wood. When the grate is turned up and end linings are removed, the fire box is perfectly adapted for burning wood. Sheet steel construction.

NICKEL TRIMMING. The bright parts of range are nickel plated fire door, ash pit door, flue door, oven door, oven door panel, large towel bar, front legs and front base strip. High cloth has nickel teapot shelves, nickel brackets, bands and corners and panel on high cloth door, as well as parts shown in illustration.

Bailed Ash Pan Furnished Free

Burns 22-inch Wood

Compare this fine high grade Range with others offered by others at similar prices and you will be immediately convinced that this is positively one of the most exceptional values in a high grade Range that has ever been placed on the market for the money.

KEY-PLATE LIFT is another feature. This automatic lift raises the entire front section of the top, giving easy entrance to the fire. Toasting or broiling, when the section is lifted, is a simple matter. A slight hand pressure on the lift.

Plenty of Hot Water can be secured from a porcelain lined large porcelain lined lift-out reservoir. The reservoir has a 1½ quart capacity and is of improved fine type, which provides a means for quick heating. The damper turns heat on or off. This Range is furnished with or without reservoir.

THE LARGE RESERVOIR

Durable firebox is built large and fitted with a duplex grate. This grate is made to burn anything. By a simple turn of the shaft, grate can be changed from coal to wood or the reverse, without removing any parts whatever. A large portion of the grate fits to each end of grate and is removable for cleaning, while top is entirely occupied. The grate size slides, changes shape, and in the bottom plate, makes the starting of fires very easy and also is handy for poking fires.

MAIN TOP

See introductory pages of the stove section of this catalog.
Our “Palace” Regent

WITH HIGH CLOSET

Cast Iron Base

RICHLY NICKEL TRIMMED. In designing “Palace” recent Range, we have given much attention to the slightest details. The entire oven and all parts of it are nickel trimmed, and no nickel is lacking. The doors and all parts of the range are thoroughly nickel trimmed. The nickel trimmings are done in such a manner that they blend harmoniously with the rest of the range. The nickel trimmings are not only decorative, but they also add to the durability of the range.

THE LARGE FIRE BOX is of cast iron, thoroughly nickel trimmed. This cast iron is thoroughly nickel trimmed, and it is covered with a nickel finish. The nickel finish is applied in such a manner that it blends harmoniously with the rest of the range. The nickel trimmings are not only decorative, but they also add to the durability of the range.

RESERVOIR is of cast iron, thoroughly nickel trimmed. This cast iron is thoroughly nickel trimmed, and it is covered with a nickel finish. The nickel finish is applied in such a manner that it blends harmoniously with the rest of the range. The nickel trimmings are not only decorative, but they also add to the durability of the range.

WARMING CLOSET is made of heavy gauge steel. It is thoroughly nickel trimmed, and it is covered with a nickel finish. The nickel finish is applied in such a manner that it blends harmoniously with the rest of the range. The nickel trimmings are not only decorative, but they also add to the durability of the range.

THERMOMETER is of nickel. It is thoroughly nickel trimmed, and it is covered with a nickel finish. The nickel finish is applied in such a manner that it blends harmoniously with the rest of the range. The nickel trimmings are not only decorative, but they also add to the durability of the range.

INTERESTING FEATURES. Additional features are that the oven has an attractive full nickel plated door. The reservoir casting at the front is thoroughly nickel plated and highly finished, adding exceptional dignity to the appearance of the range. The reservoir casting at the front is thoroughly nickel plated and highly finished, adding exceptional dignity to the appearance of the range.

"GRAND" REGENT STEEL RANGE

HAS ALL STEEL CONTINUOUS BODY FITTED TO CAST IRON BASE

Comes Complete With High Closet and With or Without Reservoir

HAS DUPLEX GRATE FOR COAL OR WOOD

THE BODY is made of continuous blue sheet steel and side strips attractively nickled. Duplex grates for coal or wood, sheet flue construction, anchor plate top, reinforced steel oven with moulded plate glass oven doors. Accessories include shaker and lid lifter.

THE RESERVOIR has a capacity of 14½ quarts. It contains a white porcelain-lined tank, which can be easily removed for cleaning. By means of a damper handle, heat is admitted to the flue around the water tank or can be turned off when so desired. Always keep plenty of water in reservoir to prevent enamel from burning off.

STEEL RANGE PERFECTION

was achieved when our expert Range designers and builders completed our beautiful "Grand" Regent and since we have offered it for sale on our liberal open charge account plan, we have been practically flooded with orders for it. It is making a reputation for itself as the fastest selling High Grade Steel Range ever placed before the public, and rather than publish a big account about it we are showing a very large colored illustration so that you can obtain a good idea of its magnificent proportions and appearance.

VIZIBLGl GLASS OVEN DOOR WITH THERMOMETER

It is made in our Regent Foundry, has large elevated warming closet, immense fire box fitted with duplex grates, improved drop feed and draft, and deep ash pan with funnel feeder. Following parts are nickel: Fire door, ash pit door, front and side base strips, oven door, oven door handle, protection rail, flue door, tea pot shelves, high closet door panel, bands, brackets and back guard ornaments.

If you want to heat water in a kitchen pressure boiler, order a water front. Price $2.75
The Swedge Joint Securely Holds Sheet Steel Body to Fire Pot

**HOT BLAST FEATURE** is a heating device that deserves your consideration. It not only saves fuel but in addition produces intense heat. Air is admitted through the tube, passing in and entirely around body of the stove, where it becomes overheated, mixing with the gases arising, becomes ignited and makes for perfect combustion. In this operation the smoke is burned, thereby utilizing all of the heat which passes out of the chimney in ordinary oak heating stoves.

**THE SWEDGE JOINT** is another noteworthy feature. Body possesses cup-shaped flange which is fitted into a recessed cup on top of fire pot and is held in position by a deflector ring, thus securely fastening sheet steel body to fire pot without exposing bolts to fire, which are likely to burn off. When such burning occurs, body will buckle, lose its shape and admit air around top of fire pot. With the swedge joint such buckling will not occur.

**SCREW DRAFT** register gives perfect control of fire. In addition, there are two draft dampers in ash pit door, as shown in the large illustration to the left. Combination of these enables you to regulate the heat in an excellent and satisfactory manner. The "Hartman" Regent Hot Blast will hold its fire and keep even temperature for a long period of time.

**THE CASTINGS** used are the very finest for the purpose, are put together with smoothest joints and carefully fitted, so as to make this heater practically air tight. Taking all points into consideration you will find this one of the best values ever offered in a hot blast heating stove. Below we give the nickel parts which embellish the "Hartman" Regent Hot Blast.

**NICKEL TRIMMINGS** are the very best quality silver nickel and are elegantly burnished. They consist of the following parts: - swing top, large reflector name plate above the front door, colonial columns, screw draft register, foot rails, front base strip and front legs, as well as draft dampers in the ash pit door; nickel or bronze urn. Large foot rail has neat Grecian border design.

**THE FIRE POT** is very strong. It is heavily ribbed cast iron specially treated, and guaranteed to withstand greatest degree of heat without injury. It is very spacious and increases the efficiency of the stove. Heavy cast door with的消息 windows and polished blue steel body are other features of this Hot Blast. It is mounted on heavy cast iron base, as illustrated. Draw center shaker grate for coal or wood.

**SHAKER DOOR** enables you to shake the grate without opening the ash pit door, thereby preventing dust and ashes from circulating around room. Legs hold it correct distance from floor to allow proper and desired radiation of heat. The proportions throughout are such as to harmonize with the scientific construction, to produce the greatest volume of steady heat from the use of the smallest amount of fuel.

A New, Up-to-date Heating Stove at a Real Bargain Price
THE "LOYAL" REGENT HEATER

A Low-Priced Oak Stove Burns Soft Coal or Wood

THE QUESTION of price is one that makes it appeal to the majority of people. But that quality is as undesirable as bread without butter. And that is why, when we offer you a stove at a price as low as those quoted on the "Loyal" Regent that you have a right to ask whether it is of a type that will render service and satisfaction. We do not claim that the "Loyal" Regent heater will render the same service that our higher priced stoves will give but for the money we recommend it very highly. It is worth every penny that it asks.

THE CONSTRUCTION is of dependable quality. The joints are well fitted in a workmanlike manner. The stove and parts to castings are made to set in position without working loose, as is the case with many cheaply-made heaters. The workmanship throughout is of good grade, as you will appreciate by the fact that our guarantee of satisfaction goes with this stove. If it pleases you, make your purchase as outlined on Page 1. If not satisfied, return it at our expense and we will refund all money. The stoves are guaranteed.

SCREW DRAFT DAMPERS make it possible for you to regulate the heat. The two smaller sizes have but one screw draft damper in the ash pit door, the larger sizes being constructed with two. There is also a check screw draft damper in the feed door, as illustrated. The shaker door with which the "Loyal" Regent heater is furnished enables you to shake the grate without opening the ash pit door, thereby preventing dust and ashes from circulating around the room. The ash pit is of good size, is made in one piece with heavy cast iron bottom and large balled ash pan.

THE NICKELED PARTS add to the appearance of this heater, are all nicely polished and consist of the following parts: The top ring, name plate, feed door screw damper, feed door handle, foot rails and ash pit screw draft dampers. Fitted with nickel or bronze urns. The nickeled parts are shown in the illustration to the left. The body of the stove is made of heavy gauge, cold rolled, blue polished, sheet steel and it is securely fitted into the cast parts. The damper is of nickel, increasing the heat radiation in the "Loyal" Regent. Possesses a good sized door to the ease with which fuel can be supplied to this heater.

THE GRATE is of flat style with removal center castings. The grate is known as a non-clinker draw center grate. A grade of iron is employed in the construction of the "Loyal" Regent, the castings are smoothly made, as you will agree after an examination of this heater in your home. The illustration was made from a photograph of this pattern and will give you a very good idea of its next appearance. Its service gives good, but you can determine your best by actual test and that is why we ask you to send for the "Loyal" Regent upon approval. Our reputation for over 50 years makes back of the Hartman guarantee.

You are advised to order large enough for your requirements.
"National" Regent
Splendid Heating Stove
Is Attractively Nickel Trimmed
MAY BE ORDERED IN YOUR CHOICE OF FIVE SIZES AT THE PRICES QUOTED
SELECT A LARGE SIZE FOR BEST RESULTS

THE MONEY QUESTION. Money isn't everything in this world, but it is generally accepted medium of exchange and we must possess it in order to get along. This being the case, the wise man uses it judiciously-he spends as little as possible at one time, and he constantly buys his requirements on credit. We are in a position to lend you money at a liberal credit plan. If you are in search of a moderately priced heater and you do not care to pay for it all at once, we strongly urge you to consider the merits of the "National Regent," as the following descriptive and pictorial account will plainly show. At the time, we strongly urge you to consider the merits of the "National Regent," as the following descriptive and pictorial account will plainly show.

THE IMPORTANCE OF THE SWEDGE JOINT. The swedge joint used in the construction of this heater is especially noteworthy. The body possesses a cup-shaped flange which is fitted into a recessed cup on top of the fire pot and is held in position by the deflector ring, thereby securely fastening the sheet steel body to the fire pot. In the not exposed to the fire, thereby protecting them from burning. When such burning occurs, the body will buckle and lose its shape and admit air around the top of the fire pot. Such buckling cannot occur with a swedge joint. This is a vital point that is especially desirable.

THE NICKELED PARTS. Each with which the "National" Regent is embellished adds to its brilliancy and enhances its neat appearance. These nickel parts consist of the following pieces: Swing cover, top ring, name plate, decorative side wings, screw draft check damper, foot rails, and draft dampers in the ash pit door. Observe the etched design on the side wings and foot rails, which harmonize perfectly, Nickel or bronze urn. The shaker door enables you to shake the grate without opening the ash door, thus preventing the dust and ashes from circulating around the room. This is a sanitary feature that will be appreciated by the housewife who has no experience with cheaply constructed stoves that possess rusting damper parts. The damper is constructed of heavy gauge steel and is nickel plated, with a nickel damper ring, which is especially designed to give satisfaction. The edge of the damper is also of extra size and is made in one piece with the rest of the door and cannot be altered or damaged. The damper is nickel plated, with a nickel damper ring, which is especially designed to give satisfaction.

LENGTH OF SERVICE. The "National Regent" will satisfy the purchase of this stove in your choice of five sizes, although as stated below, we particularly advise you to select one of the larger ones. The smaller sizes are designed for the fullest measures of satisfaction. The smaller sizes are more expensive in proportion to their price and do not give satisfactory results in the larger ones. Our liberal credit terms enable our customers to own this model with such small expenditures that they will never miss the money. Refer to page 1 of this catalog for details concerning our credit terms.
"Acme" Oak Regent
An Excellent Heater
Made to Burn Soft Coal or Wood

AN ATTRACTIVE NEW DESIGN IS REASONABLE IN PRICE AND EFFICIENT IN RESULTS

IT'S FALSE ECONOMY to buy a poor heater. Don't think an old second hand stove will serve your purpose. Because in ninety-nine cases out of a hundred they are a mighty poor investment. Doctors and druggists' bills are far more expensive than the slight difference that you will pay for this low priced article and the price that some unreliable dealer or second hand merchant may charge. In fact, the best fireplace and heaters on the market selling at higher prices that will not prove as satisfactory as this one do not be misled by the reasonable price of this splendid "Acme" Oak Regent. You can have it for any price quoted on credit, taking a whole year to pay your bill.

WORKMANSHIP AND FINISH. There is nothing cheap about this heater except the price. All of the joints are fitted carefully in order to render them practically air tight. A number of bolts is used where necessary to insure permanency to the castings. Not a single stove is allowed to pass excepting those that have the most rigid and scrutinizing inspection. There is no special attention given to any one feature, but all joints receive the same careful, minute inspection. It is made in the latest Colonial design, a most artistic and beautiful looking stove. It is thoroughly practical and sanitary as well, for it possesses no dirt catching designs, so that it can be kept clean with the least possible effort.

NICKELED PARTS. The parts mentioned below are all highly polished. They help to tone up the appearance of the heater and at the same time add considerably to its lasting quality. They are the foot rolls, the beautifully designed swing cover, and the name plate over the door, as well as the screw drafts, as shown in the accompanying Illustration. Nickel or bronze urn. The body is made of heavy gauge cold rolled blue polished sheet steel, securely fitted into the cast parts, rendering all points air tight.

FIRE POT. The fire pot is to a stove what the heart is to the body. It is the life of a heater—and upon its efficiency depends the desirability of the stove itself. The fire pot of the "Acme" Oak Regent is corrugated, to give the largest amount of radiation, and is made extra heavy for good hard service. This is a most important feature—and one that must be considered by every careful and scrutinizing buyer.

FEED DOOR. The size of the feed door deserves your consideration. This feature largely devolves the ease with which the heater is supplied with fuel. The one governs by the "Acme" is large and is furnished with solid cast check screw damper. The ash pit is also of extra size, and is made in one piece with heavy cast iron bottom and large balled ash pan.

OTHER FEATURES. Nickel screw draft is used in the feed door, and nickel screw drafts in ash door. These enable you to regulate the heat. The two smaller sizes have one screw draft in ash pit door, while the larger sizes have two. The grate is of flat style with removable center, and unit form—a non-clinker draw center grate. The castings are smoothly made, well fitted and nothing but first-class pig iron is used. You will find no inferior material in the castings of the "Acme" Oak. It acts upon solid, substantial cast legs and cast base strips.

A STOVE THAT POSSESS THE FEATURES REQUIRED TO PRODUCE FUEL ECONOMY AND MAXIMUM HEAT

HEATING STOVES
sold by some at even higher prices will not give you any better heat or general satisfaction than this low priced "Royal" Regent. It is practically air-tight and can be regulated too small amounts of registers so that an extremely hot, medium, or slow fire can be maintained. This heater will be found superior to an unreliable, high priced hard coal base burner, and will give you the satisfaction that you have a right to expect.

OUR LOW PRICE. Our immense mail-order establishment located here in Chicago, in connection with the vast Regent foundries and the greatest stove market in the world, and having been interested in the manufacture of stoves for many years, we have become a sales force of experts. This gives us a preferred position among the manufacturers, and makes it possible for us to select the best on the market and negotiate on the most favorable terms. We sell Regent stoves because we are determined to have the very finest product for the lowest possible figure. The cost of making these stoves has been reduced to the very lowest possible figure. The materials have been bought in large lot and every expense incident to the making and marketing of these stoves has been reduced to a minimum.

THE GREAT POPULARITY of this "Royal" heater has been earned by its own merit, and with its new improvements, we feel safe in asserting that it is much better than any other of the kind at the price.

HEAVY CAST PARTS including the handsomely carved front door and base, are made of fine grade grey iron castings, contributing to the make-up of a heater that comes up to a high standard in every detail of construction.

FIRE POT is especially designed and gives to this heater an exceptional capacity. It radiates the heat much more quickly than the old style fire pot used by many other manufacturers, and is guaranteed to hold a good bed of fire and to prevent waste of heat. This very dependable construction is the "Royal" Regent an extremely strong oak heater. Shaker door enables you to shake grate without opening ash pit door, and thereby keeping dust and ashes from circulating about the room.

THE LEGS hold it at the correct distance from the floor to allow just the proper radiation of heat, and the proportions throughout are regulated in harmony with the latest and best methods, and is practically air-tight. The Top is surrounded by a beautiful urn, as the picture shows. The "Royal" is equipped with a draw center grate with shaking ring. Best results can be obtained by using soft coal.

"The "ROYAL" REGENT is a better heater, and is made of better materials than the ordinary oak stove. It possesses exclusive new improvements, which insure a more economical use of fuel. It's very certain that it will equal any oak stove offered by any other dealer or manufacturer at similar prices and know that it surpasses some.

NICKELED PARTS are: Top ring, swing cover, name plate, side wings, foot rails, and screw draft registers. This nickel is extra heavy silver-nickel plate, which will wear longer than ordinary grades, a point that is universally appreciated.

Improved "Air-Tight"
Regent Hot Blast Heater

A Fuel-Saving, Coal-Heating Stove

WITH A NEW STYLE FOOT RAIL. POSSESSES CAST IRON LINING ABOVE THE FIRE POT. AN ATTRACTIVE PATTERN.

OUR COLONIAL DESIGN "Air-Tight" Regent Hot Blast is one of the most successful air tight hot blast heaters we have ever offered. It burns chestnut coal, soft coal, coal screenings, coke, wood, cobs and other cheap fuels. It has a twofold hot blast principle which enables the owner to get the greatest possible amount of heat from almost any fuel. This stove is a perfect and high appearing parlor heater. It is fitted with latest down draft hot blast tube suspended from the main top shown in sectional view below.

A BARGAIN. It is one of the best constructed and most thoroughly satisfactory heaters these prices could buy as you will agree if you make a comparison of this value and those off-red by others. Considering materials, general finish, heating qualities and the price, it stands as a typical Hartman value.

THE BODY is made of smooth sheet steel, with cast iron bottom, which sets on the base, while the top is made of fine Southern gray cast iron with bottom cast in one piece without joints.

IMPORTANT DETAILS. The grate is of draw center type, strong and durable. The front cast iron ash pit door is fitted with nickelled screw draft register, enabling the user to regulate the heat and process of combustion. Feeding fuel can be done from the top, being fitted with large feed lid. The sheet steel body is protected above the fire pot by a cast iron lining which extends almost to the top of the stove. A fire can be built at night before retiring and will burn over night, making it only necessary to turn on the air the next morning to increase the heat.

THE NICKEL MOUNTINGS are extremely handsome. The cast iron base is fitted to high legs and is cast in a fancy design. The silver nickelled parts are heavily plated and consist of the following: Backer, door handles, name plate, top ring, swing top, nickel or bronze arm—just enough to ornament this stove without undue embellishment.

PRINCIPLE OF OPERATION and the general construction of our "Air-tight" Regent hot blast is very effective. The hot blast draught is taken through the top of the stove, passing down the hot blast tube, and is discharged just above the fire in the very center of the products of combustion. Being as highly heated state, all the gases and carbons in the smoke are consumed by reason of the increase of oxygen at a high temperature. The screw draft and air-tight construction serve to make the stove as air-tight as possible. This feature, and the great efficiency of this heater have made it one of the most popular of our heating stoves sold in the United States. It has been tried and tested. Having stood the test of time, we highly recommend it to you.

IT'S VERY EASY for you to possess one of these elegant hot blast heaters. We would like you to carefully read page 1 of this catalogue that you may fully understand our liberal, confidential credit terms. Ours is the most liberal and confidential credit system in the world. Select one of the larger sizes of this stove and take advantage of these liberal terms.

Note Our Low Prices

A TWO-FOLD HOT BLAST HEATING STOVE BURNING COAL, WOOD OR COKE

In Economy It Will Pay for Itself
A HANDSOME NEW DESIGN

“HOME OAK” REGENT

HEATER—NICKEL TRIMMED

THE SWEDGE JOINT

Securely Holds Sheet Steel Body to Fire Pot

THIS SWEDGE JOINT is a feature that you will do well to consider carefully. The body possesses a cup-shaped flange which is fitted to a recessed cup on top of the fire pot and is held in position by the deflector ring, thus securely fastening the sheet steel body to the fire pot without exposing bolts to the fire, which is likely to burn off. When such burning takes place the body will “buckle” and lose up air around the top of the fire pot. With the swedge joint such buckling cannot occur.

FIRE POT is of special construction. It is heavily ribbed cast-iron made of especially treated iron, guaranteed to withstand the greatest degree of heat without injury. It is plenty large and roomy and increases the efficiency of the stove. Note the heavy cast door-linament with mica window and the heavy polished-steel body. The construction of the “Home Oak” Regent throughout is exceptional indeed, and is a stove which you need not hesitate to purchase. It is mounted on a heavy cast-iron base which is not only substantial but very handsome in appearance. Draw center shaker grate for coal or wood.

IS CONSTRUCTED with feed door screw draft regulator, permitting perfect control of the fire. In addition there are two draft dampers in the ash pit door of the large sizes; while the two smaller sizes have only one screw draft in the ash pit door. The combination of these enables one to regulate the heat in the oven. It is also very satisfying to the eye.

The “Home Oak” will hold its fire and keep an even temperature for a long period of time. It furthermore is economical in the consumption of fuel as well as being a heater that is low in its initial cost. These are vital points in the purchase of a stove, because the purchase price in “cheap stoves” sometimes means an expense in operation.

THE CASTINGS used in building the “Home Oak” Regent are of just the right sort for this purpose. They are put together with smooth joints and are carefully fitted, so as to make it practically air-tight. Take a careful survey of this satisfaction, read the details as mentioned in our description and you can't help wanting this stove at our exceedingly low figures. It combines durability, appearance and price, all procurable on our easy payment liberal credit plan.

NICKELED TRIMMINGS on the “Home Oak” Regent are of a very good quality, silver nickel, and are elegantly burnished. They consist of the following parts: Swing top, large reflector, name plate above the front door, decorative flaring side wings, screw draft register, foot rails, base strips, and laces, as well as draft dampers in the ash pit door.

The nickel or bronze urn. These trimmings are indeed lavish in their abundance and beauty; a perfect heater. Large foot rail has neat Greek border design.

THE LEGS hold it at the correct distance above the floor to allow the proper and desired radiation of heat, and the proportions throughout are regulated in harmony with the scientific construction in order to produce the greatest volume of steady heat from the use of the smallest amount of fuel. The “Home Oak” Regent will burn any kind of fuel. The shaker door enables you to shake out the grate without opening ash pit door; thereby preventing dust and ashes from circulating around the room.

Ash Pan Furnished Free

The Swedge Joint Securely Holds Sheet Steel Body to Fire Pot

**THE HOT BLAST** is one of the important features possessed by the "Vulcan" Regent. This hot blast saves fuel and in addition to doing so, it produces intense heat. The air is admitted through the hot blast tube and passes in and entirely around the body of the stove. It becomes superheated and mixes with the gases as they rise and become ignited, thereby making perfect combustion. In this manner the smoke is burned so that all of the heat is utilized which ordinarily passes out of the chimney in the common type of oak heating stoves. The "Vulcan" costs a little more than our oak heaters, but you will never regret the added expense.

**IMPORTANT FEATURE** of the "Vulcan" Regent is the swedge joint. This construction eliminates the possibility of "buckling" in the following manner: The body possesses a cup-shaped flange, fitted into a recessed cup on top of the fire pot and held in position by a deflector ring. This securely fastens the sheet steel body to the fire pot without exposing bolts to fire, which are likely to burn off. When such burning occurs, the body will "buckle" and consequently lose its shape and admit air around the fire pot. The advantage of the swedge joint, as stated above, is that it prevents the possibility of such "buckling."

**SCREW DRAFT DAMPERS** enable you to govern the heat, the one in the feed door acting as a check, those in the ash pit door serving to increase the heat if desired. The castings used are of good quality and are put together with smooth joints. Fire pot is noteworthy because of its strength. It is made of heavy ribbed cast iron which will withstand great heat without injury. Heavy cast front door with mica windows. Through these mica doors you can see the welcome glow of the burning embers. The "Vulcan" Regent is made with polished blue steel body. It is mounted on heavy cast iron base, as shown in the illustration.

**OTHER FEATURES** include the draw center shaker grate, which is constructed for burning either coal or wood. The shaker door makes it possible for you to shake the grate without opening the ash pit door and thereby prevents the dust and ashes from circulating about the room. This is a typewho, up-to-the-minute heating stove at prices that are easily within the reach of all.

**NICKELED PARTS** consist of the following: Swing top, mica plate, feed door handle, screw damper damper in feed door, foot rails, screw draft dampers in ash pit door, front base strip and front legs. Nickel or bronze urn. Observe the plain but neat design of the foot rails and attractive Colonial columns on either side of this efficient hot blast heater. Order this stove sent to you upon approval.
A Satisfaction-Giving Heating Stove

The "Magic" Hot-Blast

Regent

Observe the Attractive Nickel Trimmings

AFTER RECEIVING this or any other stove you have ordered it must "make good" in actual work. It is sold to you subject to our 'Legal Guarantee'—the only honest test—the proper way for you to find out whether you are getting the kind of stove you are expecting. You take no risk whatever in intrusting your orders to us.

YOU PERHAPS THOUGHT at some time or other you had bought a bargain but if you will compare this bargain "Magic" Hot Blast heater with those offered by your hardware or stove store at home, you'll simply say you never saw real bargains before you saw our "Magic"—so don't forget to purchase it after you have received it for trial. We want you to enjoy this new and we think you'll become an enthusiastic customer of ours and recommend us to your friends.

Our "Magic" Regent is a magnificently designed heater of a high type. It is thoroughly well constructed of splendid materials. Every joint is perfectly fitted, insured excellent results as an efficient heater. Its right now giving the best of service in thousands of American homes, and if you buy one it will surely satisfy you.

READ THE DETAILS: Bear every one of the great points in mind in deciding whether to order this stove. You have our promise and guarantee that it will come fully up to the description and please you more than you expect. Consider the price—then consider the long time credit terms we give you—weigh the transaction well in your mind, and take our word—you'll say our Hot Blast Heater is a "Magic" on indeed.

DESCRIPTION: Every part of the heater hereon will top is of heavy gauge sheet steel, joined to the massive heat top in a most workmanlike manner. It has a draw center and shaking grate. The base mounted on massive legs. The front facing is of a good size and fitted with mica panels to show plainly the extent of the fire with and at the same time throw a cheerful glow in the room. The fire pit is of the improved type, entirely extra heavy and generous in size. The ash pit door is equipped with an air scoop to draft to complete the Hot Blast idea. It is fitted with nickel-plated reflector over the feed door, heavy ornamental columns, convenient for rail, and artistically designed and silver nickel stove base.

THE HOT BLAST ARRANGEMENT is the redeeming feature of this grand heating stove. It is the improved style by which the heat is intensified and the gases and smoke are entirely eliminated. A bellows is placed at the top of the fire chamber to cause an updraft of air at the fire bed, meeting a current of air admittance through the screw damper in the ash pit door. Thus, advantageous combustion is produced only in Hot Blast Heaters. The same illustration below will give you a clear idea of how a fire operates in our "Magic" Regent.

THE NICKELED PARTS are made of splendid quality silver nickel on prepared cast metal, and are as follows: Base, screw draft in ash pit door, foot rails, side wings, reflector, and mica top, top ring and letter handles. Also has brass or nickel ornamental urn on top. The brilliancy of these nickel plates give the "Magic" Regent a bright, flashing appearance.

You are advised to order a stove that is large enough for your requirements.

**Fine Nickel Trimmmings.**

Magnificent silver nickel trimmings adorn the stove, giving it a beautiful bright appearance. The nickel-plated parts are plainly shown in the lighter portions of the illustration and are as follows: Large top door, swing cover, side wings, name plate, foot rails, ash door screw, front base legs and three face strips. The silver nickel plating is of a good grade, being clean and bright and possessing long wearing qualities.

---

**Our Stoves Are Low in Price**

Considering the quality, this is not due to cheap materials as our furnaces are using a grade of pig iron castings, fine nickel trimmings, and employing a high and efficient pattern. Our prices are reasonable largely because of certain favorable conditions in the iron and steel industry. Our furnaces are located in Central Illinois and it is our policy to do this for customers on everything we sell. It is in this same policy that has induced so many families to continue trading with us year after year.

**The Beautiful Design**

We have created in the production of our "Ruby" Regent one of the most handsome and effective fireplaces yet made. In base burning stoves, our heating results are among the finest. This is due to the bright glow of the fire shown through the mica doors.

**For Hard Coal Only.**

Use chestnut hard coal only in this stove as it is constructed especially for this type of fuel. It has Duplex grates and two fine construction for a continuous, self-fed, chestnut coals. Better results will be obtained if you follow this instruction.

**Self Feeding Magazine.**

Under the large nickel-plated swinging cover is a smoke-tight cover gas which automatically opens to the side when supplying fuel to the grate. This lid covers the top of the coal magazine which, when filled with coal, and attended to daily, will continue to feed the coal even when it is not being fed, thus assuring a fire going in the stove during the entire winter.

**Grate and Fire Pot.**

Our "Ruby" Regent Base Burner has a grate, well proportioned, very durable, cast iron, fire-pot made of material that will withstand great heat. The grate is of a design with a shaking ring, which permits the quick removal of ashes, clinkers and dead coal. The grate is constructed so as not to be removed through the front door.

**Mica Illuminated.**

The front and side doors and the upper panel of the main body of the "Ruby" are covered with mica which is transparent, permitting the bright fire to be plainly seen and throwing a brilliant glow throughout the room.

**Ash Pit and Pan.**

The ash pit is large enough to accommodate all ashes that they rear to the grate as there will be danger of burning out the grate.

---

THE "IDEAL"

A Real Bargain

eties

our buyers in selecting this season's line of heating stoves exercised the market's with great scrutiny, going into the merits of the products of the best manufacturers of the country. This careful investigation places us in position to defy all competition. But we do not want you to take our word for it alone. Investigate yourself, compare the values we offer with others and judge for yourself. You don't have to look any farther than this page to prove the truth of our claims.

This fine heater is one of the best base burners ever selected to sell at these sensationally low figures. The principle upon which it operates is different from the ordinary heater in that the stove has a two-flue construction which allows heat to pass down and around base before it reaches chimney, giving greatest amount of radiation possible. For that very reason it is a very economical stove to use, because there is no waste of flux. All the heat goes into the room where it is wanted. The ash pit is deep and has a heavy tight door closing an air tight screw draft. Has front flue clean-out and side ashes, back stove pipe flue with bell for pot and all of the desirable improvements that combine to make an efficient, powerful, convenient, economical, base burning, heat radiating, hard coal stove.

Duplex Grate. Duplex grate is the type used in this superior heater. It differs from the flat type in that it opens and closes in a manner to produce the very best results. This grate is self-feeding arranged with a heavy, specially constructed, large cast iron magazine fitted into the top and extending down to near the fire-bed level. An automatic cover is furnished which closes and opens as the nickel-steel grate is moved. If you keep this magazine filled with fuel it will retain a fire throughout the winter. Nor is it necessary to be wasteful with the coal to produce the most satisfactory results. Self-feeding stoves require but very little attention and are much more preferable than any others for the parlor or living room. You simply can't go wrong if you order the "Ideal" Heater.

The Mica Doors. Improve the appearance of this beautiful and massive stove. Through the transparent medium the warm glow of the cheerful fire bids welcome on a cold winter's night. These doors are well grounded so as to fit into the grooves in a perfect manner. They are held in place by strong hinges and cannot turn knob. To get the very best results we recommend that you use the Chestnut Hard Coal. The superior quality of this excellent heater demands your earliest attention. Of course you can buy stoves for less money, but like most things that cost less, they are not as desirable, and when you buy and think that you can buy this base burner on such reasonable terms, there is no reason why you should not have it.

Nickel Trimmed. The strong, massive, handsome appearance of this heater has been enhanced by the appropriate and tasteful silver nickel trimmings. These enhance the attractive going-top dome, large, bold side ornaments, name plate, heavy foot rails, base, screw draft and knobs. Has a beautiful ornamental brass urn. The effectiveness of these trimmings can be seen from the appearance of the illustration shown on this page, but to really judge of the artistic elegance of the stove itself you should see it right in your home.
Let Us Ship This Efficient Heating Base Burner It's THE “CROWN” REGENT HEATER

Swell Mica Doors

For Best Results Use Chestnut Hard Coal.

Is Fitted With Duplex Grate.

Possess Self Feeding Magazine With Automatic Gas Cover Lid.

Ash Pan Is Furnished Free.

Attractive Nickel Trimings

BEST RESULTS are attained if you use Chestnut Hard coal. It is not sold as a soft coal here. We wish to tell you that in accordance with the kind of fuel, required to secure the greatest satisfaction.

THE FEATURES of the “Crown” Regent that embrace efficiency in operation, beauty of design and dollar-for-dollar value. This stove has a three-flue construction which permits the heat to pass down and around the base before it reaches the chimney. The construction results in thorough and practical radiation and furthermore works an econom in that there is no waste of fuel. The heat goes into the room where it is required. This principle is different from the ordinary oak heater. The “Crown” costs more than the burners shown in our catalog. But like things that are costly, it is worth the additional cent that we ask. Our credit terms are paying easy.

ASH PIT is deep and possesses a heavy cast iron cover, draft is controlled with side shaker, front flue clean-out and base stove pipe flue with lid for tea kettle. The “Crown” Regent is fitted with the Improved Ransom Duplex grate. This grate is made to burn hard coal satisfactorily. Refer to introductory pages for description and operation of this grate. This stove is a perfection, possessing a heavy, large cast iron magazine fitting into the top and extending down close to the level of the fire bed. Automatic cover close and opens as nickedel swing top is moved. Keeps this magazine filled with fuel and it will rotate the fire throughout the winter.

NICKEL PARTS add to its stateliness as grille,楆er trimings are silver nickel. They include: swing top, top dome, handsome ornaments, name plate, foot rails, back screw draft damper as well as handles. Attractive brass or nickel urn. These nickel parts a shown in the large illustration. The construction and finish can be appreciated only after you have seen the original from which this picture was made. We offer this heater in your choice of three sizes, but urge you to select one of the larger sizes for fullest measure of satisfaction as a small stove is more expensive in proportion to maintain than a large one. When ordering be sure to give correct number.

THE APPEARANCE of this handsome heater is increased by the stunning mica doors. The welcome glow of the crackling fire may be seen through the doors and adds to the cozy aspect of the room which the “Crown” Regent may be placed. The doors are held in place by strong hinges and made to fit into the crown in a perfect manner and are made so that they slip and stay varnished and are finished in the attractive color of the prospective buyer.

You Are Advised to Order a Stove That Is Large Enough For Your Requirements. A Small stove is a Misery To Maintain Than A Large One.

If You Keep Magazine Filled With Coal It Will Burn All Winter. A Great Convenience

You are advised to order a stove that is large enough for your requirements.

A Small stove is more expensive than a medium or large size.
A Newly Designed Elaborately Nickeled Base Burning Stove

THE "CLASSIC"

HEATER

REGENT

THE MATERIAL used in its construction is thoroughly high-grade. Real heavy gray cast iron is used and is a specially blended mixture that stong and durable. Every bolt and nut is of the dependable sort. The nickel plating is the silver-on-copper process famous for its lasting quality and height recommended by the manufacturer and our own. All doors and drafts are good tight, making the stove economical as consumption of fuel, because with the bar check draft it is always under control.

GORGEOUSLY NICKELED When nickel trimming, we think there is plenty it on our "Classic." The quality is of best, being real silver nickel, highly bur-ished. The nickel parts are base, rear and front side wings, foot rails, ash pit do-screw draft, and flue to just and main plies. Handsome nickel or bronze 12-inch urn.

DOUBLE PLAN OF HEATING is a great convenience as well as a big fuel saver. Co-stove heats from the floor and it becomes heated by contact with the hot air due to which you can attach air pipe to the room above. By the use of a register this heat can be utilized to the shutoff in the upper room as desire. Thus you secure the maximum of heat with a minimum fuel, taking advantage of the heat that goes out the chim-ney in the ordinary Oak Stove.

MANY NEW IMPROVEMENT are embodied in the construction of "Classic" and consist of the following:

Heavy cast iron fire-pot, easily removable through front door; heavy grates with shaking ring and duplex center; Top Kettle attachment at back supplied with a 1-inch removable cover; Pat-damper and fire regulator; air-tight at all with bell draft damper; carefully fitted air-tight doors throughout; swivel cover top of spacious coal magazine; easy accessible clean-out below ash pit and large ash pan.

Sold to You On Easy Credit

HIGH GRADE WRINGERS

THOROUGHLY DEPENDABLE

MATERIALS ARE USED

IN THEIR CONSTRUCTION

FULLY GUARANTEED

The life of a wringer is wholly dependent upon the quality of rubber in the rolls and we have taken great care in selecting our line of wringers to be sure that this most vital part is constructed of the best quality that can be offered for the money. We offer only such goods as we consider thoroughly reliable and made of dependable materials by the most skilled workmen. Our wringers are well finished and guaranteed in every way. Our cheaper grade of wringer has high-grade flat rolls, vulcanized to the roller, and will give satisfactory service while our better grades have soft rubber rolls which resist wear and have the required characters to do the best work and are recommended for service. Each wringer has a warranty tag attached, which should be preserved in case a roll proves defective within the life of the guarantee. Should this ever occur, send us the tag and defective part, stating full particulars, and we will replace them promptly and give due of purchase. We will replace any rolls proving defective under our guarantee. Please remember that washing compounds, kerosene, etc., destroys the rubber and any roll injured from this source will not be replaced. Leave adjutant space when wringer becomes a bit tight, articles and have them loosened when not working wringer.

OUR IMPROVED "YUKON" WRINGER

No. 8K1371. This is a thoroughly good wringer and one of the best on the market for the money. We would, however, advise our customers to purchase one of our higher priced wringers, because they contain better materials. Our "Yukon" Wringer is an excellent value at our low price, and as such is highly recommended. It is fitted with our special 1/4 inch rubber rolls and adaptable to ordinary family use. Shipping weight is approximately 11 pounds. Made in 10-inch and 11-inch length rolls as directed below.

THE RENOWNED "SAVOY" WRINGER

No. 8K1372. The "Savoy" frame is made entirely of malleable iron, thoroughly galvanized to prevent rusting. It is fitted with 1/4 inch rubber rolls, exposed eye screws and heavy spiral springs. It is very strongly constructed, and we guarantee it for the first three years, according to warranty tag attached. You will be well pleased with it. For we know that we are offering you a very good value. Shipping weight, about 14 pounds. Comes in 10, 11 and 12-inch length rolls. Prices are given below.

ENCLOSED COG WHEEL "ASHLAND" MODEL

No. 8K1373. In our "Ashland" wheel wringer we place before you one of the better types of laundry accessories. For general construction and durability we feel it has too superior at the price. It has enclosed cog wheels and is fitted with best quality rubber 1/4-inch rolls. The frame is of good hard wood with galvanized malleable iron fittings and heavy brass clamps. It is warranted for three years' service to warrant- ing tag attached, and for family use will give through satisfaction. Shipping weight, about 17 pounds. Made in 10, 11 and 12-inch length rolls. Prices of various sizes quoted below.

HANDY COMBINATION BENCH AND WRINGER

No. 8K1374. This is one of the most convenient laundry arrangements on the market; it is a combination wash bench and wringer. A very sharp Hartman bargain. The wringer is of an exceptional quality, warranted for three years' wear and fitted with the best 1/4 inch rubber rolls, all metal parts are malleable iron, heat galvanized to prevent rusting. The bench will hold two tubs and has a reverse drain board which permits the water to drain off to either side of the wringer. If you want to make clothes-whispered an art, you will be convinced if you wish to save time running back and forth and a lot of unnecessary stepping, this is the combination wash bench and wringer box about 2 feet, shipping weight, about 24 pounds. Wringer is made with 10, 11 and 12-inch length rolls. Prices even lower.

Here's Our Famous Model "Wabash" Wringer At Real Bargain Prices

No. 8K1370. The name on the frame protects you for the "Wabash" is thoroughly warranted. When you see the name you know that you are getting what you pay for, and after you have used the "Wabash Wringer" you will appreciate what a wonderful value it is. It will give satisfactory service according to warranty furnished with each wringer. You can have this Standard High Grade Wringer sent on approval. It is warranted for one year for family use, has exposed eye screws, hardwood frame and is an excellent value. Weight, about 10 pounds. Comes in 10, 11 and 12-inch length rolls and prices are quoted below.

HARTMAN'S HIGH SPEED ROTARY WASHER

This Machine Can Be Operated Either By Hand Or Power. Space For Belt On Fly Wheel For Use With Gasoline Engine

Note High Speed Fly Wheel

When Used As A Hand Power Machine
It Is Just As Easy To Operate Sitting Down As Standing Up.

It Is A Marvel At Our Low Price

No. 7K1356

DASHER POST is a high grade equipment so built to the machine that you can wash the finest fabrics without being in any way afraid that they will become tangled or torn. This is a feature that is of importance to every washing machine user.

BALANCE WHEEL and ALL METALLIC PARTS of this washer are carefully tested and inspected so as to guarantee freedom from flaws and long lasting durability. This washer can also be run by belt power.

TUB, which is strongly bound by three metal hoop bands, stands firmly level upon its four solid brass legs. The height of this washer has been carefully figured out so as to make it most convenient for you whether you are standing or sitting. This will please those who choose to use this washer as a hand-power washing machine.

IRON PARTS are carefully finished with enamel paints. The advantage of the enamel paint is two-fold; it improves the appearance of this washer, and at the same time protects the metal from the rust-producing elements.

IF YOU DO NOT already possess a Hartman High Speed Rotary Washer, then you are not yet fortunate with the real advantages which have been achieved by the most modern improvements in this line of manufacture. When you receive this washing machine and have actually used it, you will be absolutely astonished at the marvelous rapidity and thoroughness with which you can do your work. The only regret you will have will be that you did not purchase one of these outfits earlier, and thus save yourself many hours of drudgery. You will find our statements to be true in every detail, and you will wonder how, at this price, we could possibly afford to supply such a complete combination of convenience, efficiency and all-around reliability. Take all our other machines, this washer is equalled under HARTMAN'S IRONCLAD, ENQUI LEGAL BINDING GUARANTEE, so that you need have no hesitation, but can send us your order without a moment's delay. Shipping weight about 93 pounds.

No. 7K1356. Price only $9.75
AVOID DRUDGERY with this fine washing machine. The tub of this washer is made of Louisiana Red Cypress, deeply corrugated on the inside, making an effective rubbing surface, finished in the natural wood with lasts almost as long as the varnish, which is the highest quality of varnish, and is transparently clear, without any varnish finish. Will render excellent service. The mechanism of this splendid washer is simple in construction and with proper care will not get out of order.

### Capacities
- **This Automatic** washer has a capacity of about eight pounds. It is very reasonably priced and endorsed by users all over the country. Shipping weight, approximately 80 pounds.
- **No. 7K1857. Price.**

### You Can Have
It tested in your laundry on approval.

### Shipping Weight
About 60 pounds.

### Price
$4.50

#### An Automatic Washer
**At A Real Bargain Price**

**No. 7K1357**

- **Clean Clothes**
- **Small Effort.**

**Tub Is Made Of Cypress**

**Which Grows In Water**

**Not Affected By Water**

**EQUALIZING SPRINGS**

Do the washing and keep the machine in motion. These springs take their own way motion of washer and use it to make reverse motion. You start the machine and it almost runs itself. The lid clamp keeps water. Nothing will reduce the efficiency of water washing on the floor. Legs are placed at proper angle to avoid movement of machine; legs do not move, which you can tell from the illustration.

**HAND REST for resting one hand**

While operating machine with the other. Possesses wringer board, large lid, fastened with strong galvanized iron hinges which are easily slipped off when desired. Agitator presses clothes out. Wringer board is galvanized and in the machine. Will render excellent service. The mechanism of this splendid washer is simple in construction and with proper care will not get out of order.

#### Champion Winner Oscillating Washer
**A PLEASANT MONDAY**

Will be the result if you use this machine on your laundry. It is a single-action washer on the rubber principle, having one oscillating rubber and a stationary rubber band. In the action of the machine, you will notice by looking at it and go out with unequalled guarantee and enjoyment.

**IT IS OPERATED**

By drawing the triple handled lever, forward, thus imparting an oscillating motion to the upper cylinder, the clothes being between it and stationary rubber band, receive a thorough cleaning by the rubber principle. It is a thoroughly efficient washing machine.

**THE SINGLE HANDLE**

An operating lever over center is devised to produce increased pressure of upper cylinder on cloth; especially adapted for large loads. Upper cylinder admits itself to industry of clothes washed. Stationary rubber band can be easily removed for cleaning.

**HAS WRINGER ATTACHMENT**

Allowing release of water from clothes to flow back into the machine. Made of Louisiana Red Cypress, finished in natural state. Shipping weight, 85 pounds.

**No. 7K185. Price.**

**$6.95**

**Strong Rotary Washer**

**The New Style Banner**

**Price**

**$8.25**

### THIS FINE MACHINE

Has many points of advantage whose merits are best determined after actual usage. The tub is made of Louisiana Red Cypress, deeply corrugated on the inside, making an effective rubbing surface, finished in natural wood with a lasting quality of varnish.

### THE DASHER BLOCK

10 inches in diameter, made of Cypress, should not split or crack and is corrugated on the outside. Has telescopic dasher post, which does not project through dasher block and consequently does not tangle or tear the most delicate garments. The gearing is durably constructed, has but few working parts and has roller bearings, which make it work smooth and easy.

### HIGH SPEED OF DASHER

CAUSES INCREDIBLE AGITATION IN THE TUB, INSURING THE REMOVAL OF ALL DIRT FROM THE CLOTHES QUICKLY.

**We Trust You**

**$8.45**
LET THESE WASHERS DO THE WORK

This Is... Hartman's High Speed Vacuum Washer...

A Hand Power Washing Machine...

IN THIS MACHINE are found the best features of the vacuum principle combined with the advantages of the well known rotary principle, thus assuring the most essential factors to wash quickly and clean perfectly. In no other vacuum washers has this combination been produced so effectively. The distinctive construction of the vacuum cup and the automatic action of the air valve produce a veritable tornado of cleansing force, which reaches the clothes at the bottom of the tub as well as at the extreme outer edges, so that no garment escapes the effective cleansing process. On most other vacuum washers, the clothes at the bottom and around the sides of the tub escape the cleansing action almost entirely. For that reason, such machines have been found more or less unsatisfactory. There are many important advantages in this vacuum washer which you will appreciate after putting it to the real test of usage. Some of these are mentioned in the following paragraph. Read them over carefully.

HOT WATER. The vacuum air valve on this washer permits air into the tub and rapidly cools the water, as is the case with some vacuum washers. The power of operating lever is applied to driving shaft by means of pointed fulcrum, which at the same time imparts vertical as well as spiral rotary movement to vacuum cup. This construction assures the greatest possible leverage and with an of high speed fly-wheel makes washer operate with surprising ease. All gear and working parts are protected and therefore accident-proof. Operating handle is adjustable. It is made with extra large tub, having capacity of eight shirts. Constructed of cypress with double reinforced cover and natural finish. All hardware and metal parts galvanized wherever necessary. Shipping weight, about 90 lbs.

**Price:** $11.85

A Very Efficient Washing Machine

**Price:** $15.65

For High Efficiency on Low Pressure

THE MOTOR is the semi-prismless piston type. Instead of being hammered to their ends at each reversal of the piston, the valves are delicately poet by single spring, no placed and made that ordinary care will not break. Constructed of brass and phosphor bronze throughout. Has heavy cast brass cylinder rigidly set on heavy bearings for dasher post and water guide for piston-secured metal screen before inlet port to keep dirt out of motor. Dasher on dasher post releases dasher from clothes before opening and closing lid. Dasher adjusts through top of motor, is accident-proof. Eight shirt capacity. Scientifically built throughout. Motor complete as described with high-grade intake and exhaust hose, large cypress tub, natural finish, with reinforced top—corrugations on inside—express dasher, detachable lid, bolted wringer attachment, detachable hardwood legs as shown, galvanized hardware and castings. Parts are thoroughly reliable and efficient. Shipping weight, about 65 pounds.

**Price:** $15.65

The "Boss" Water Power Washing Machine Will Operate on Any Pressure Over 25 Pounds But You Must Be Sure That You Have This Pressure Before Ordering This Machine

Dependable
Paint and Roofing

WHY HARTMAN'S CAN SELL HIGH GRADE PAINT AND ROOFING AT BARGAIN PRICES

It is a very easy matter for a manufacturer to say that his particular paint or roofing is the best in the world. But it is a very different matter for him to prove to his customers that they are the best.

The final test for paint and roofing is in the length of time they wear. For instance, a certain paint may have a very good report, but when you put it on a house, it may blister and peel off in a year. With Hercules Guaranteed Roofing, you can count on it to last for at least twenty years.

Also, thorough testing of the paint and roofing before it is sold is an important factor. We test the color, the luster—the appearance—of good paint, but it does not possess the wearing and preservative qualities of good roofing. We test the pigments and binders for their ability to resist weather, and we test the actual workmanship of the paint and roofing before it is sold.

WHY WE UNRESERVEDLY AND LEGALLY GUARANTEE OUR PAINT AND ROOFING

Before putting REX-KOTE PAINT and HERCULES GUARANTEED ROOFING on the market we knew that we would have to meet the high standard of Hartman quality before we would dare go behind them with the Hartman guarantee. In other words, this paint and roofing must be so good that they would prove their quality before the customer finished paying for them. It would not do for us merely to say, "Here is a high grade paint and Hartman high quality roofing." With it must be added, "We must not only say, but you must also be prepared to prove every word of it and back up the statement with our guarantee or else lose both customers and money. And we don't propose to lose either.

How did we make sure that REX-KOTE PAINT and HERCULES GUARANTEED ROOFING would make good under the strong claims we put forth for them? Simply because we subjected them to the severest tests that either a paint or a roofing can be put to. Mind you, our more than a million and a half customers are scattered throughout the entire United States. REX-KOTE PAINT and HERCULES GUARANTEED ROOFING cover houses and barns in Maine and in the far Northwest where they are exposed to the icy blasts of winter for months at a stretch. Likewise they are exposed to the warm, moist climate of the Southern states as well as to the dry, blistering heat of Texas and Arizona. These paints and roofings are extensively used throughout the Middle West, where there are often such sudden changes in temperature that the temperature range will be as much as 80 degrees inside of 24 hours—a warm, sunny day followed by snow, hail, and sleet. They are also used on the Atlantic and Pacific coasts, where the salt sea air is exceptionally severe on paint and roofing. And under all of these varied climatic conditions REX-KOTE PAINT and HERCULES GUARANTEED ROOFING have proved their quality by the test of time. Weather, matter how sudden or severe its changes may be—no matter how long it may remain hot or cold, or dry or wet, they have given satisfaction. When the weather changes, the roof finishes, and windows or roofing at the right price, and please you, thoroughly. We save the matter with you at all. We will return every penny you sent us and any transportation charges you have paid out.

This is our guarantee and back of it is 61 years of honest mercantile reputation, our $1,000,000 capital, and the solemn pledge of the greatest home-furnishing organization in the world. You risk nothing when you deal with Hartman's. We do not want a dissatisfied customer at any price.

The high quality, low price of our merchandise and easy terms should be our one, which make every article listed in this catalogue a genuine bargain, hold good with our dependable "Ready Kote" Paint and "Hercules" Guaranteed Roofing just as they do on the other 8,000 Bargains for the home.

AS TO OUR RESPONSIBILITY

Now, when we tell you that REX-KOTE Ready Mixed Paints, Varnishes, Stains, Lacquers and Enamels, and HERCULES GUARANTEED ROOFING are of a high quality, they will give you years of satisfactory service and will prove a good investment for you.

It is of the utmost importance that we wish you to take into consideration a few very important facts. Consider first our responsibility. Any statement of a business firm carries weight only in proportion to the responsibility of the firm making the statement.

You can very easily and readily satisfy yourself as to the responsibility of Hartman's. Any bank in Chicago or anywhere, and every American state and national bank, owns shares in the Hartman company, a very large portion of the capital of the company. We have had no claim of any nature on our part, and no one may say that you are not satisfied. We are a legal entity, and our legal entity and our financial standing and our business integrity, Hartman's is the largest concern of the kind in the world. Our tremendous capital, our high grade of paint and roofing, our great name, and the fact that Hartman's has been in the business for over a century, make it very easy for us to offer merchandise of the very highest quality at bargain prices. Hence, we can give our customers the benefit of prices so low, and terms so reasonable, that if they have in the market goods to sell the not, in justice to themselves, ignore our bargains.

We have been in business for 61 years—and WE ARE IN BUSINESS TO SELL—not to paint and roof our way to the top of the market and more than half a century could not have built up this enormous business we had not always dealt fairly and honestly with our customers. We deal with other companies and we deal with our dealers, make a guarantee, and then make a guarantee, and our dealers say, "If you are not satisfied, we will today more than one million five hundred thousand satisfied customers and they are the reason why we have never been in the market for a minute. Any one of them will tell you that Hartman's goods are of thoroughly dependable quality, that Hartman's prices are very low, that Hartman's credit terms are extremely liberal compared with those of others.
REX-KOTE
Paints, Varnishes, Enamels, Stains, Etc.

Ready Mixed-Guaranteed

MAKES A NEW HOME OUT OF OLD BUILDINGS

There is nothing that will add more to the attractiveness of your home than the application of a few dollars' worth of high-grade Paints and Varnishes. Our Paints and Varnishes are carefully blended, prepared and tested to command the esteem of the trade, artist, manufacturer, and home owner. The quality of the ingredients must be preserved. Such paints are made worth the labor of painting on, because they last but a short time and are so thin and worthless that they do not properly protect the wood they cover.

PAINTING PAYS BIG DIVIDENDS

An investment in good paint pays large dividends by safeguarding the money you have invested in buildings. We always advise the use of the better grades of paints on your buildings rather than the inferior extremely low priced kinds. By so doing you effect a greater saving because of their greater wearing qualities.

In the paint sold through ordinary channels there are usually three or sometimes four profits, divided among the manufacturer, the jobber, the salesman and the local dealer. Because of these several middleman handling, each representing an individual profit, and in order to keep the prices down, the quality of the ingredients must be cheapened. Such paints are not worth the labor of putting on, because they last but a short time and are so thin and worthless that they do not properly protect the wood they cover.

SOLD ON LIBERAL CREDIT TERMS

Guaranteed Rex-Kote Paints and Varnishes are sold on the liberal Hartman terms of long time credit. Study the table of terms in the front of this book, they are the terms under which you can buy guaranteed Rex-Kote Paints and Varnishes. Just stop and figure how much you are saving over the present retail price of the paint you are buying. Paint your house, your fence, your barn, your roof, that long-needed coat of paint. Why wait until you have saved $500 or even more and then buy paint from your local dealer? Make that improvement now, prolong the life of your buildings by buying a guaranteed paint on the liberal Hartman terms.

There are no strings tied to our offer, no tricks about this. We trust you for the payment or varnishes you need to protect and beautify your home, just as we trust you for other goods we sell. All we care to know about you is that you are honest and can bear your word for it. We don't go to your friends, neighbors and relatives to make extensive inquiries. We are not concerned with your word that you will live up to our terms. All the assurance we require is that the quality of the materials is worth the price.

There is no more liberal and wide open proposition than ours. We trust you, ship you a guaranteed paint, use it, and your judgment whether or not the paint we have shipped is well or not is final. If you say that the paint bleeds, peals or chalks, we don't argue, we send you new paint free of charge any time within four years from the date of the original order.

Is there anything finer than this offer?

OFFERED TO YOU AT LOW PRICES

Under these liberal terms of payment and covered by as strong a guarantee of satisfaction as we give, we could not afford to sell our paint at a price that would be equal to the cost of manufacture, but in our present factory conditions we are able to reduce manufacturing cost so low that we can sell our very best, guaranteed Rex-Kote Paints and Varnishes at less than the so-called pure paints offered by many other concerns.

That's why we produce better paints and varnishes, enamels, stains, etc., than many others.

READ OUR IRON CLAD GUARANTEE

We unreservedly guarantee that Rex-Kote No. 1 A Ready Mixed House Paints will not crack, peel, blister or chalk if applied in accordance with our directions, and that we will, any time within four years from date of your order, replace free of charge to our customers any Rex-Kote No. 1 A paint that does not come up to our claims.

We do not govern the quality by the price, but set the price by the quality.

REX-KOTE
Ready Mixed Paints—Durable Varnish

FINE, MODERN PAINT PLANT

THE FORMULAS after which our paints are mixed are old and tried and through many years of experience, this insures a uniform paint all the time. We stopped experimenting years ago and that means more saving. These formulas are worked out carefully by chemists whose work has been painting for years, and each kind of paint has a formula of its own. Then, when a paint is mixed according to its formula, the chemist tries some of it. If it gets exposed to the weather, it is subjected to sun, rain, heat and cold, if it appears that any changes in the formula are necessary to better the wearing quality of the paint, they are made, and another trial is given, and so on until the chemist is satisfied that with the proper ingredients he has a paint that is just right, and such are our Guaranteed Rex-Kote Paints and Varnishes, not an experiment but tried and proven products.

THE INGREDIENTS used in the manufacture of Rex-Kote Paint and Varnish products are the best money can buy, and when we say best we mean just that—best in every sense of the word. Best linseed oil, best turpentine, best Japan drier, best white lead, best gold colors, best dry colors, best gums. Every item raw material needed to make our paints and varnishes is scientifically tested in the laboratories of the factory by the most expert Paint Chemists of the country, and are brought to our high standard of quality before one item or another is allowed into the factory. This means that the finished product when sold to our customers is made as carefully as scientifically, and as good as is possible, and we cheerfully guarantee it by our strong, binding guarantee.

YOUR CREDIT IS GOOD

WHY REX-KOTE READY MIXED PAINTS ARE SUPERIOR TO ANY HAND MIXED PAINTS

It has taken many years to educate painters and house owners to appreciate the high finish of hand-mixed paints, and actual service has had more to do toward proving this superiority than all the advertising in the world. Paint mixed by hand cannot be compared with the new plan. We have a paint ground and mixed in machinery. By mixing our paints in enormous quantities we are able to secure a uniform color that is practically impossible in hand mixed paint. When the pigments are thoroughly ground with the oil, the spreading qualities of the paint are noticeably improved and, because of the fact, are the most economical. It is for this reason that where two neighboring houses have been painted at the same time, one with the hand mixed paint and the other with the hand mixed paint, the hand mixed paint showed the effects of the weather in about half the time and was far inferior to the other paint.

Any hand mixed paint would require the services of an expert painter to secure satisfactory results, but because Rex-Kote being made and mixed by the most perfect up-to-date machinery in a wonderfully equipped modern paint factory, every gallon is always of the same uniform quality with every other gallon; its easy, even flowing qualities can be utilized to the fullest degree even by an inexperienced person.

In buying No. A-1 Guaranteed Rex-Kote, you are buying quality and we don't hesitate to say that we know of no better product in ready mixed house paint made by any one or sold at any price, and our full guarantee of satisfaction covers every gallon.

You will make no mistake in ordering A-1 Rex-Kote Ready Mixed House Paint, made according to a formula which years of experiments has proven to be best. Its covering and protecting qualities are unsurpassed.

Don't let your painter or any one else tell you that paint mixed by hand is better than our A-1 Rex-Kote Ready Mixed House Paint. Such statements can only be made by misinformed or ignorant persons. Our guarantee of satisfaction is your protection.

BIGGEST PAINT BARGAINS WE HAVE EVER OFFERED

From any viewpoint our fully guaranteed Rex-Kote House Paint No. A-1 is unquestionably one of the biggest Paint Bargains we've ever offered. First, it is guaranteed by the great Hartman Concern, with every last cent of its enormous resources; secondly, it is sold to you on credit, so that while you are paying for it you have a chance to test how well it wears; lastly, the price at which we sell it, even on our liberal credit terms, is no higher than the prices asked by many for grades inferior to Rex-Kote House Paint No. A-1.

You should bear in mind, however, that in paints, like in other goods there are various qualities. It is much better in your own interest to always select the best; it may cost a trifle more in the beginning, yet in the end it will be much cheaper. The best grades of paint will cover more surface, will look better, will return their color longer, will keep their elasticity for a greater number of years. The oil film, which is the real protector of the wood surface, will not dry out and crack on the A-1 quality for years and years, and we recommend to you in all sincerity that when considering the purchase of paints, you select for the greater economy and better satisfaction, A-1 Rex-Kote Paints.

We furnish it in 30 different colors, which are illustrated on page 48. Don't forget to give name and number of the color you want. It will avoid errors.

CHICAGO

REX-KOTE

HOUSE PAINT No. 2

Ready Mixed—Guaranteed

OUR SECOND QUALITY

This is our second quality in Rex-Kote House Paint. It is designated as No. 2. It would be against our long established policy of honest dealing to tell you that this grade is as good, as serviceable, as economical as our Rex-Kote No. Al. When buying paint it is well to remember that the best is the really economical and most satisfactory in the long run.

However, if you desire, we can furnish you with Rex-Kote Ready Mixed House Paint, No. 2, and give you a fairly good article, which is made in our factory from ingredients carefully selected and tested. We will stand back of this paint with a limited guarantee, but we say to you in all frankness that you will be money ahead if you select our Rex-Kote No. Al—it will give you much better satisfaction.

Rex-Kote Ready Mixed House Paint No. 2 comes in 22 different colors, which are shown on page 496. In your selection refer to these colors and be sure that you mention the name as well as the number of the color you want.

We guarantee that this Rex-Kote No. 2 Ready Mixed House Paint will not crack, peel, blister or chalk if applied in accordance with our directions and that we will any time within 3 years from date of your order, replace, free of charge to our customers any Rex-Kote No. 2 Paint that does not come up to our claims.

REX-KOTE
PORCH FLOOR PAINT

Ready Mixed
Guaranteed

Ordinary house paint will not do for porch floors, because it is not made for that purpose and will never give satisfaction. Our Rex-Kote Porch Floor Paint is especially made to stand the wear of outdoors. It will resist the destructive influence of rain, snow and ice, and the wear of walking over it. We have combined oils, gums and pigments in such a manner that we produce a tough, hard drying, yet elastic floor paint that is especially well fitted to stand extreme usage. For colors see page 496, and mention the catalog number.

REX-KOTE

FLOOR PAINT

Ready Mixed
Guaranteed

Rex-Kote Floor Paint is made to stand successfully the hard usage to which floor paint is subjected. It is quick drying, very elastic and wear-resisting, and is guaranteed to give satisfaction. Make your old floor look like a new one by giving it a coat of fresh new paint, then it can be kept spotlessly clean by simply mopping it with a clean mop and weak soap water.

Eight different shades shown on page 496. Give name and number of the color you select.

Your farm buildings kept in repair and well painted are not only more pleasing to the eye, but add a selling value to your property many times the small cost and labor involved in keeping them in first-class condition.

Rex-Kote Mineral Barn Paint No. 1 is compounded by one of the most expert paint chemists in the country and possesses peculiar properties not common in ordinary barn paint. It is unexcelled as a preservative, which we recommend specially for structural iron work, barns, grain elevators and the like. It is absolutely weatherproof, under most trying conditions. It is acknowledged by all who have used it to be a most durable preservative of wood. It is ground to unusual fineness by modern up to date machinery, both minerals and oils being thoroughly ground and re-ground together. You may use it with the confidence that we stand back of it with our guarantee should it not prove to be just as we claim.

Whether you have had experience in painting or not, you can easily do a first class job with this paint if you just follow our simple directions.

One gallon of this Guaranteed Rex-Kote Mineral Barn Paint No. 1 will cover about 220 square feet of surface, two heavy coats, and sometimes much more, depending on the conditions of the structure.

Remember, this No. 1 Mineral Barn Paint is covered by our strong guarantee, and if it does not come up to our claims we will, any time within 4 years, replace it free of charge to you.

We make this Rex-Kote Barn Paint in 2 colors, bright red and brown. See the color illustrations on page 406.

Don't forget to mention the color you want.

The Kind of Brushes to Use with Barn Paint.

For painting the walls of barns, sheds, etc., use a No. 10K370 wall brush, 4 or 4½ inches in width. For fences use the same brush, but narrower, 3 or 3½ inches in width.

Rex-Kote Shingle Stain is a paint as well as a wood preservative—a combination of pure, strong colors, ground very fine and thinned with refined cresyate and oils that double the life of shingles. It is better than paint for shingles, as it does not clog the surfaces; it leaves a clear, non-porous roof, and it will not affect the rain water which runs off the roof into your cellar.

Two and one-half gallons of Rex-Kote Shingle Stain will saturate 1,000 square feet of roof surface when applied with a brush.

We furnish Rex-Kote Shingle Stain in 6 colors as shown on page 106. Specify color you want.
Rex-Kote Roof Paint is one of the best substances known for repairing roofs and keeping them in good condition. It preserves shingles, tin, iron or felt from the action of the weather and will make an ordinary roof last many years longer. Can also be used for structural iron work, iron tanks, iron shutters, steel bridges, stand-pipes and fire-escapes. It is an excellent damp-proof coating on brick and concrete cellar walls, when heavily applied on the outside of the wall.

Apply very heavily when painting the roof; a good thick coat of Rex-Kote Roof Paint is equivalent to an extra layer of felt.

**Rex-Kote Black Carbon Paint**

An excellent low-priced black paint for smoke-stacks, iron fences, bridges, fire-escapes, felt and composition roofs. It does not compare in elasticity or wearing qualities with our LINSEED OIL REX-KOTE ROOF PAINT, but at the price we sell it it is a very satisfactory product. Has been giving excellent service to thousands of users. For sheds or structures that in the course of a few years will be removed or torn away, it is an ideal preservative at a low cost. Will save its cost many times over by the protection it affords.

**Rex-Kote Auto, Carriage and Buggy Paint**

Is a very durable and beautiful color, ground and mixed in copal varnish. It is ready for use and if applied in accordance with our simple directions will refresh your auto, carriage or buggy entirely satisfactorily. You can do the work yourself. For an automobile or carriage use about 1/2 gallon, for a buggy one quart can is usually sufficient. The paint dries with a high lustre, which it will retain for a long time, even though it is subjected to destructive influence of mud, dust, soap and water. Order by catalog number and name of color.

**Rex-Kote Wagon and Implement Paint**

Primarily intended for repainting of farm wagons and farm implements to keep them looking new and bright. It has been conclusively proven by farm experts that ordinarily wagons and implements last about 6 years if not placed under roof and kept in paint, but that where care has been taken to give each wagon and each piece of implement one or two coats of Rex-Kote Wagon and Implement Paint in a year, they will last almost indefinitely. You will find it a lot cheaper to buy Rex-Kote Paints for your implements than to buy new implements.

| No. 10K426 | REX-KOTE WAGON and IMPLEMENT PAINT | $1.92  | 34c   |
|            | **PER 1 GALLON CAN**              | $1.01  | 30c   |
Rex-Kote Varnishes approach perfection. Made at the Rex-Kote plant, every ingredient that goes into them is carefully analyzed for purity and quality. The manufacturing process is as scientific as possible, and only the best materials can make it. The product goes to you backed by the Hartman local guarantee of satisfaction.

**REX-KOTE HIGH GLOSS EXTRA DURABLE FLOOR VARNISH**

A varnished floor takes away 75 per cent of the drudgery of keeping the home clean, because it can be cleaned in a few minutes with a damp cloth. Rex-Kote varnish is indispensable for finishing all kinds of floors. Has the right body to make it stand up under the most severe wear: dries in 6 hours to walk on it. Natural amber color. Does not darken with age. Water and soap will not injure the brilliancy luster of it, heel marks have no effect on the elastic surface. Furniture can be moved over it without marring or scratching. A nicely decorated residence would have a smooth, lustrous floor finish. You can secure if you purchase Rex-Kote high-gloss extra-durable floor varnish. Satisfactory results will justify your selection.

No. 10K427. **REX-KOTE EXTRA DURABLE FLOOR VARNISH**

$2.22 Per Gallon In 5 Gallon Can
$2.39 Per 1 Gallon
$1.30 Per 1/2 Gallon
$1.04 Per 1/4 Gallon
$59c Per 1 Quart

**REX-KOTE DURABLE FLOOR VARNISH**

Of amber color, very elastic, easy flowing and quick drying, which does not interfere with the vehicle of new varnish finish, crack, check or epoxy scratches. Will dry, dust free, in 8 hours.

No. 10K428. **REX-KOTE EXTRA FINE FURNITURE VARNISH**

$1.56 Per Gallon In 5 Gallon Can
$1.64 Per 1 Gallon Can
$52c Per 1 Quart Can

**REX-KOTE FURNITURE VARNISH**

For making old furniture look new, this varnish is especially desirable. It dries hard with a gloss finish in 6 hours. It is easily applied, will flow evenly and bring out the natural grain of all woods. Will not crack, peel or blister. Can be applied to doors, window frames, and other woodwork.

No. 10K430. **FURNITURE VARNISH**

$1.05 Per Gallon In 5 Gallon Can
$1.15 Per 1 Gallon Can
$40c Per 1 Quart Can

**REX-KOTE CHURCH & SCHOOL SEAT VARNISH**

Exceptionally hard drying furniture varnish, especially made to finish the seat and back of church and school chairs. Will not change color from heat of the body. It dries with a lustrous, dust-free finish, in 10 hours.

No. 10K431. **CHURCH AND SCHOOL SEAT VARNISH**

$2.08 Per Gallon In 5 Gallon Can
$1.19 Per 1 Gallon Can
$2.18 Per 1/4 Gallon Can

**REX-KOTE FINE INTERIOR VARNISH**

Made of good grade of resins, this varnish is especially adapted for interior woodwork and furniture, except chairs. Will dry with a rich luster and can be rubbed if a high polish is desired.

No. 10K432. **FINE INTERIOR VARNISH**

$1.59 Per Gallon In 5 Gallon Can
$1.62 Per 1 Gallon Can
$47c Per 1 Quart Can

**REX-KOTE EXTRA LIGHT HARD OIL FINISH**

An unparalleled light colored finish for all interior woodwork, except floors; will bring out the natural grain of the wood beautifully, yet dries, dust free, in from 3 to 6 hours and sets hard in 24 hours. Particularly adapted for new work on loose-grained or porous wood. Apply with flat 4-inch brush.

No. 10K433. **EXTRA LIGHT HARD OIL FINISH**

$1.50 Per Gallon In 5 Gallon Can
$1.60 Per 1 Gallon Can
$52c Per 1 Quart Can

**REX-KOTE HARD OIL FINISH**

Adapted for finishing interior work of all kinds. As a siding for plaster walls, when thinned, will act equal part of turpentine, it cannot be surpassed for the money. It is of light amber color, is free flowing and will dry quickly with a rich gloss. It is very suitable for new work, especially on soft, porous wood.

No. 10K434. **HARD OIL FINISH**

$1.26 Per Gallon In 5 Gallon Can
$1.37 Per 1 Gallon Can

**REX-KOTE INSIDE SPAR VARNISH**

For outside use this spar varnish is recommended as very desirable. Can be used for all outdoor purposes for which varnish is desired. Will aid in preserving moisture. Domestic ingredients are so compounded that the product will withstand the inclemencies of all weather conditions. Heat or cold will not affect it and water will not injure it. Apply all throughly clean surfaces with soft varnish brush 2½ to 3½ inches wide, according to the work you are doing. Will dry with gloss finish in about 4 hours.

No. 10K435. **INSIDE SPAR VARNISH**

$2.08 Per Gallon In 5 Gallon Can
$1.20 Per 1 Gallon Can
$2.18 Per 1/4 Gallon Can
$64c Per 1 Quart Can

**REX-KOTE VERY FINE CARRIAGE VARNISH**

For finishing fine automobile, carriage and buggy bodies. Gives a soft velvety surface of highest quality. The ingredients are so compounded that the product will withstand the inclemencies of all weather conditions. Heat or cold will not affect it and water will not injure it. Use good quality sandpaper and apply the varnish which has been thinned with one fourth of its volume of turpentine. After the varnish has become dry, it is necessary to apply one more coat. Apply the varnish on a clean, rough surface, and allow it to dry in the open air. The varnish is easily rubbed to a high polish.

No. 10K437. **CARRIAGE VARNISH**

$3.34 Per 1 Gallon Can
$1.69 Per 1/4 Gallon Can
$89c Per 1 Quart Can
$52c Per 1 Pint Can

**REX-KOTE ONE COAT COACH VARNISH**

One coat of this coach varnish over slightly dull looking auto or carriage bodies will put on a new luster and preserve the paint for a long time. Will make the surface of your pleasure vehicle considerably more beautiful and expensive. A coat of varnish will be more than saved in the better condition of your machine, carriage or buggy.

No. 10K438. **COACH VARNISH**

$3.33 Per 1 Gallon Can
$1.72 Per 1/4 Gallon Can
$89c Per 1 Quart Can
$50c Per 1 Pint Can

**REX-KOTE WAGON AND IMPLEMENT VARNISH**

Made expressly for the hard use it will be put to when applied to wagons and farm implements. A fine varnish for general outdoor use. This varnish is especially adapted for the hard work of wagons. Apply to wagons, drays and farm implements after a fresh coat of paint has been applied, will preserve the paint and lengthen the life of it considerably. Applied over paint that has become dulled from exposure, it will bring new life into it and save the expense of a new coat of paint.

No. 10K439. **IMPLEMENT VARNISH**

$1.92 Per 1 Gallon Can
$1.00 Per 1/4 Gallon Can
$60c Per 1 Quart Can
$35c Per 1 Pint Can
This is about the most useful product of the paint industry and is without doubt one of the most wonderful wood finishes ever produced because of its brilliancy of colors and lasting qualities. Is far superior to the ordinary wood finishes. It is so easily applied that the inexperienced can do it just as well as the expert; at a price so low that the inexperienced will try to make old and scratched pieces of furniture look as good as new at an expense of a few cents, and the finished work will be almost as satisfactory, and about as rich and beautiful as if it had been done by an expert painter or cabinet finisher. Indeed, the greatest merit of Rex-Kote Varnish Stain lies in this one quality—that it does not require expert handling to produce satisfactory results. It is put up by us for use: nothing is to be added by the purchaser; just open the can, pour a little of the liquid into a saucer or cup and brush it on the piece of furniture or the woodwork you wish to decorate, following the very simple directions we send with the can, and in twenty-four hours' time the newly decorated piece of furniture or woodwork will be ready for use. Apply with a flat 2½-inch varnish brush. If the woodwork is to be finished with varnish or shellac, it will make an oak finish out of walnut, and a dark one of birch. It was wonderful the amount of artistic brightening up you can do with Rex-Kote Varnish Stain. We have been in the Furniture Business for 61 years and thoroughly understand the requirements of an efficient Varnish Stain—we proclaim Rex-Kote absolutely perfect.

No. 10K440. REX-KOTE VARNISH STAIN
$2.00 PER 1 GALLON CAN $1.09 PER 1-2 GALLON CAN 61c PER 1 QUART CAN 37c PER 1 PINT CAN

REX-KOTE GOLD BRONZE
A rich, deep gold bronze, suitable for the many uses about the home where a gold finish is desired. Liquid and bronze powder are put in a friction top can in separate compartments; you make the mixture just before using. If you are careful not to mix more than the required amount, you will make a small can last a long time. For the friction top of both compartments the can class air tight and the liquid does not evaporate. There is no banana oil used in the preparation of the liquid, hence there is no obnoxious odor from the gold bronze. Used on radiators, picture frames, etc., it will not tarnish.

No. 10K442. REX-KOTE GOLD BRONZE
55c PER 1/2 PINT CAN 29c PER 1/4 PINT CAN

REX-KOTE ALUMINUM ENAMEL
Gives a rich silver aluminum finish to a radiator, registers, stove fittings from which the nickel plating has worn off, etc. Comes in 2 compartment friction top can, which keeps powder and finish separate until you are ready to use. It is put up in 4 different sizes as listed below. Apply with a soft brush 1 1/2 inches wide.

No. 10K444. REX-KOTE ALUMINUM ENAMEL
65c PER PINT CAN 36c PER 1/2 PINT CAN 20c PER 1/4 PINT CAN

REX-KOTE SCREEN ENAMEL
Fly screens, screen doors and screened porches should for economical reasons be coated with the proper enamel or shellac. This is a beautiful, hard enamel, free from obnoxious odor and easy to use. It is made in 4 different size cans.

**Mineral Barn Paint**
This is a high-grade all-purpose interior finish for walls, woodwork, furniture, and any other item that can be used to finish any color. It is a smooth, glossy paint, perfect for any room. Anybody can apply it and secure the same results as an expert painter. You can easily refresh the bedroom, kitchen, pantry, and finish the furniture in these rooms to match or harmonize. You will be astounded at the marvelously beautiful and artistic effect thus created. If you will write to us for suggestions of how to make your home beautiful, we will gladly place at your service the expert advice of our paint and varnish department.

Made in 12 shades as shown on page 406. Dries hard, with a glossy finish, in twenty-four hours, and offers a sufficient quantity of under-coat to put on the first coat of it. Using the under-coat, which is especially prepared as a first coat under glossy enamel, will make a much better job.

No. 10K311, 3 Knot Roofing Brush........K
Hercules Guaranteed Roofing

GUARANTEED ROOF PROTECTION

The roof is more continuously exposed to the weather than any other part of a building. Therefore, in the construction of any roofing material, its weather-proof and wear-resisting qualities assume first consideration. Hence, when we decided to enter the roofing field, we determined that we would build all our energies toward the production of roofing which could be absolutely depended upon to be of the high quality that a combination of years of experience, skill, modern machinery and unlimited capital could produce.

HIGH GRADE ROOFING AT MONEY SAVING PRICES

We occupy a position entirely different from the ordinary roofing manufacturer because we depend upon the continual patronage of our customers, not only for roofing but for their home furnishing requirements as well—not only for the present but for years to come. Therefore, we must see to it that you get your money's worth in every purchase.

Roofing good enough to be sold to you on small easy credit payments must indeed be of a very high quality—it must be a roofing without a flaw and without the slightest objection.

Our Hercules guaranteed roofing has received a very high point of perfection in roof covering and compares very favorably with roofing sold by others on a strictly cash basis.

ABSOLUTELY UNIFORM IN QUALITY

Every inch of Hercules roofing is just exactly the same as every other inch, its quality is the most uniform ever achieved in the history of roofing. Roofing is not only composed of truly remarkable wear-resisting element-resisting materials, but is so nearly uniform in its construction and manufacture that we give it our heartiest endorsement. Our experts go on the theory that if roofing is made uniform, the same throughout, that it must give out all at one time or keep in perfect shape all the time. A chain is no stronger than its weakest link, a roofing is no stronger than its weakest inch and if there are no weak links, then how can the roofing ever show wear? Hercules Roofing should give longer wear than we guarantee it to give—it's made that way.

RUST-PROOF—WATER-PROOF—WEATHER-PROOF

Our Hercules Guaranteed Roofings are proof against rain or snow, heat or cold. Climate conditions and sudden changes in temperature have no perceptible effect upon them. They can be used in any part of the world-in tropical or polar regions with equally satisfactory results. For that reason you need feel no hesitancy in ordering this roofing from us. We have all grades for all purposes. Every grade is fully guaranteed.

Reason for yourself why we successfully compete with all others and give our customers astounding values. We are the Largest Credit Company in the world with a capitalization of Twelve Millions of Dollars, with customers in every state in the country, numbering more than one million five hundred thousand. Because our output on roofing is enormous, every inch guaranteed with the broadest guarantee ever given—manufacturing costs are reduced down to the lowest fraction permissible of perfect quality at real genuine bargain prices. Because our establishment with one remuneration profit our prices are rock-bottom.

ROOF YOUR HOUSE AT OUR RISK

Roof your house or barn at our risk, no matter where you live. We don't ask you to take our word for a single statement. We will let Hercules guaranteed roofing prove its superior qualities to you in actual test. You try the roofing in accordance with our directions at your risk. Let it be exposed to all the wearing and tearing strain that storms, rain, and snow can give it. Let the sun beat down on it, let the cold freeze it. While you are paying for it, Hercules Roofing will be silently proving to you its fine quality by actual service. If it does not come out unharmed we will make good to you.

HOW TO FIND THE QUANTITY NEEDED

To find the quantity of roofing required for your house, measure the length of the rafters and multiply this dimension by the length of the building. This will give you the number of square feet needed for one side of the roof; double this amount and divide by 160, the answer is the number of rolls of roofing you will need. Don't waste money on tin roofs that rust into holes, and wood shingle roofs that rot away.
HERCULES GUARANTEED REVERSIBLE ROOFING

1-PLY, WEIGHT 35 LBS. PER ROLL
2-PLY, WEIGHT 45 LBS. PER ROLL
3-PLY, WEIGHT 55 LBS. PER ROLL

A strong and serviceable roofing which can be laid with the flat surface or the rafter finish to the weather, according to your preference. This roofing is ideally adapted to cover temporary shelters that will be removed in a year or two. Will also make an inexpensive covering for side walls of summer houses, poultry sheds, etc.

It comes in rolls 32 inches wide, containing 108 square feet of roofing, and each roll will cover 352 square feet of roof surface. Sufficient nails and cement are packed inside the rolls for laying.

GUARANTEED TO WEAR 2 YEARS
GUARANTEED TO WEAR 3 YEARS
GUARANTEED TO WEAR 5 YEARS

USE HEAVY WEIGHT ROOFING—IT'S GOOD ECONOMY

No. 10K387—1-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE $1.21
No. 10K388—2-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE $1.60
No. 10K389—3-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE $2.02

OUR GUARANTEE PROTECTS YOU

If laid properly and in accordance with our directions it will wear and give satisfaction for a longer term of years than guaranteed. Hercules guaranteed roofing will make good, or if it doesn't, we will make good to you.

SOLD ON LIBERAL CREDIT TERMS

The price you pay for Hercules guaranteed roofing is based on what it costs to manufacture. The price we ask is the lowest that we can make and maintain our high standard of quality. We could cheapen our roofing by using coal tar and other low priced ingredients, thus being enabled to produce roofing at a lower price, but it would not be assured and long lasting as our roofing, which is made from roofing felt saturated with tar and asphalt solution. We sell you the Hercules Roofing you need on our liberal credit terms (see Page 1 for Table of Terms). Our credit is of the truly liberal kind.

READY TO LAY

Anyone can lay Hercules guaranteed roofing. It requires no previous experience. No skill—you can't lay it wrong if you try. You don't need a lot of tools or any kind of equipment; every roll of our roofing contains more than enough suitable nails, all the binding cement required and full directions how to lay it. You need to furnish only a hammer and a pair of shears.

Once laid, Hercules guaranteed roofing is down to stay. No further trouble. No looking after it. The first cost is the only cost.

FLINT SURFACED ROOFING

There is a real economy in Hercules guaranteed roofing. Its first cost is the only cost and you save all repair money and all pain money. Your roof will not require it. Here's the reason why Hercules guaranteed roofings are superior to all others. All prepared roofings should be made from high grade roofing felt, the same as Hercules—all impurities makers work in paper, which weakens the life of the roofing.

Pure asphalt is necessary to make a strictly high-grade, lasting roofing—here some manufacturers lower the grade by using for substitutes. Tar cracks in cold weather, melts in summer, dips evaporates, leaving the roof dry and brittle, so that it breaks and cracks.

Hercules Roofing contains no substitute for pure asphalt or felt base. Whenever asphalt roofing is mentioned, the Hercules-Guaranteed Flint Surfaced kind is always in the foreground. Its wearing qualities put it there.

When you buy Flint Surfaced Hercules Roofing you are guaranteed on honest value, will receive your complete satisfaction.

No. 10K390—1-PLY WT. 55 LBS. PER ROLL, GUARANTEED TO WEAR 5 YEARS, PRICE $1.21
No. 10K391—2-PLY WT. 65 LBS. PER ROLL, GUARANTEED TO WEAR 5 YEARS, PRICE $1.61
No. 10K392—3-PLY WT. 75 LBS. PER ROLL, GUARANTEED TO WEAR 5 YEARS, PRICE $2.02

SEND FOR FREE SAMPLES

We will gladly send you a set of samples showing our complete line of roofing. If you desire to see the roofing before buying, you can, however, select your roofing right from these pages. They show and describe our complete line. The descriptions are accurate and truthful, the weight given on each roll of Hercules guaranteed roofing is correct, and our selection you may make is filled and shipped subject to our local binding guarantee.

THE ECONOMY OF THREE-PLY ROOFING

Knowing Hercules guaranteed roofing as we do, knowing the comparative strength of 1, 2 and 3-ply roofing, we want to suggest to you that you can fully consider these different thicknesses of roofing before you decide which to order. Remember, that while 1-ply and 2-ply roofing cost a trifle less than 3-ply, for the right additional cost 3-ply roofing will return to you ten times the amount in longer wear and better protection to your roof.

MICA SURFACED ROOFING

WEATHER-PROOF — WATER-PROOF — HAIL-PROOF

A very superior roofing of great strength and exceptionally attractive appearance. Made from roofing felt, thoroughly impregnated with asphalt saturated mica solution, which renders the felt waterproof, strengthens the Fiber and makes it elastic, tough, and durable. The mica flakes make it impervious to water, and will not tear or crack with the chances of temperature or weather. When laid over old shingles, be sure that all shingles are tight, then all hair is driven into the roof. That places where shingles are missing are filled in so that they will be no uneconomies. For new roofs the roof boards should be laid close and the surface clean and free from nails or splinters.

SOLD UNDER OUR IRON-CLAD LEGAL BINDING GUARANTEE OF SATISFACTION.

Made from felt, saturated and coated with asphalt compounds that give fine wet-dressing qualities and long life, in which mica flakes have been added, and which are impervious under pressure. It is a tough, pliable roofing, water-proof, fire and cold resisting. Can be used safely in any climate.

Can be laid over old shingles as well as on new roof boards. It is very easy to lay and once laid needs no further attention. It makes a very attractive roof.

Comes in rolls of 108 square feet; will cover the same feet of roof surface. Nails are spaced in sufficient quantity packed in every roll of roofing.

MARBLE SURFACED ROOFING

NOT AFFECTED BY HEAT OR COLD. CAN BE SAFELY USED IN ANY CLIMATE. YOU TAKE NO CHANCES WHEN YOU BUY IT.

Made up of mica and asphalt, impregnated with fine mica flakes, it is impervious to water and will not tear or crack with the chances of temperature or weather. When laid over old shingles, be sure that all shingles are tight, then all hair is driven into the roof. That places where shingles are missing are filled in so that they will be no uneconomies. For new roofs the roof boards should be laid close and the surface clean and free from nails or splinters.

SOLD UNDER OUR IRON-CLAD LEGAL BINDING GUARANTEE OF SATISFACTION.

Every roll of Hercules guaranteed composite roofing is sold under our iron-clad, binding guarantee of satisfaction for the terms of years expressed below. It will outlast our guarantee many years.
Hercules Guaranteed Rock Surfaced Highly Ornamental Roofing

Here's the Very Best Roofing Ever Made

$2.97 Only

Per Roll of 100 Sq. Ft.

Hercules Rock Surfaced Roofing will outlast and surpass in every respect any Ready Roofing on the market.

Its durability is exceptional. It is fireproof, rust-proof, and requires no special attention. Its finish is permanent. It is a genuine rock surface and not a painted imitation. It is a high grade roofing—durable, beautiful, and permanent.

The colors do not fade—They're Nature's Own Product

The next step in the process of manufacture is to give the roofing a bath of specially prepared high grade coating, which protects the fibers from the weather and wear of the sun, rain and snow. This coating is water resistant and weather proof.

Great Care is Used in the manufacture of this roofing, as it is necessary that the rock surface is so well embedded into the coating as to make it difficult to remove or lift off.

Will Give More Than 15 Years of Roofing Satisfaction

We cannot recommend too strongly the purchase of this roofing. It will add to the appearance of any building—it is of high quality and manufactured from Pure Asphalt—which is far superior and less expensive to apply than shingles or any other kind of coating. It will retain the beautiful appearance—its water-proof qualities are the best because of the careful refining to which the asphalt solution is subjected—there is nothing which can be drawn into the saturated that will discolor the crushed rock finish. Our Fifteen Year Guarantee Protects You Fully.

You cannot possibly make a mistake in ordering this guaranteed ready roofing for your house, barn, sheds or any other buildings because it successfully withstands the elements. Summer heat or arctic cold has little or no influence on its wearing quality. If laid right to begin with, or if your directions covering laying and cementing are followed, it will not require more than one year or two, and snow, heat or rain will not affect it in the slightest degree. While the rock surfacing is put in primarily for protection, it gives the roofing a beautiful appearance to be found in no other ready roofing.

Made in Two Colors:

Hercules Red Rock Surfaced Roofing
A natural deep red rock surface of remarkably striking beauty.

Hercules Green Rock Surfaced Roofing
A quiet, restful greyish green rock surface that is pleasing to the eye.

EASY TO LAY

No previous experience is needed in laying this roofing. Simple, yet complete instructions are sent with each roll. It requires no painting after it is laid on the roof. We furnish all necessary supplies, but not the nails or large headed nails to buy.

Each Roll Complete

We furnish this roofing in the thickness and one weight only, and that is the very best.

It is put up 108 square feet to roll, sufficient to cover 100 square feet. Each roll contains breesheaded, rust-proof nails and cement, it weighs approximately 75 pounds to the roll.

A COMPLETE KITCHEN OUTFIT is designed by every housewife, and if you were to purchase that fine, durable, practical seventeen-piece set, piece by piece, you would have to pay far more than the price we quote. Every article that is really essential to proper cooking is contained in this outfit. Don’t use ordinary cooking utensils, because the health of the family depends upon what they eat, how their food is prepared and the kind of cooking utensils that are used. This aluminum will not corrode, chip or peel. Furthermore, it is easy to clean and easy to keep clean. It is light in weight, yet is almost indestructible, and with ordinary care will last for a great many years. Will outlast ordinary kinds of utensils several times over. It heats quickly and therefore effects a big saving in fuel over the cheap types of cooking utensils. At a recent investigation it was declared that the use of aluminum cooking utensils was absolutely sanitary, non-poisonous, safe and sound against poisonous effects.

THEY ARE MADE of pure sheet aluminum of a hard and heavy grade—unlike many cheap, thin aluminum utensils commonly sold. For the assurance of those unfamiliar with the proper care of aluminum we send with each set a reference card covering the care of aluminum utensils—so that the user will understand how to keep them properly. The free use of pure soap and hot water will keep them in perfect condition and make them the pride of every home-loving woman. They have no plating to wear off. Their heat conductivity prevents any burning of foods and there is no danger of burning. It slight overflowing should occur, food is affected only at the bottom. To the right we quote a complete list of the pieces that are included in this low price. It is second to none in price on the market.

NEW “LONGWARE” ALUMINUM SET AT A LOW PRICE

FULL 20-PIECE SET contains following pieces: 1 1/2 qt. lipped sauce pan, polished finish outside, 20 gauge metal, steel handle; 2 2-qt. sauce pans, polished finish outside, 20 gauge metal, steel handle; 2 1 1/2 pt. sauce pans, polished finish outside, 20 gauge metal, steel handle; 2 strainers, polished finish inside, polished finish outside, 20 gauge metal, steel handle; 3 1/2 qt. covered sauce pans, polished finish outside, 20 gauge metal, steel handle; 2 1-quart cups, polished finish outside, 20 gauge metal, steel handle; 1 4-cup measuring cup, polished finish outside, 20 gauge metal, steel handle; 1 2-qt. mixing bowl, polished finish outside, 20 gauge metal, steel handle.

A SPLENDID POCKET GUN
LONG RANGE, SINGLE BARREL

GUARANTEED, AMERICAN MADE, BREECH LOADING, SHELL EJECTING FIRE ARM

This gun is made for us by one of America's most expert manufacturers of firearms. Although we sell it at a very low price, it is not a cheaply constructed weapon, but a gun built for service and accurate shooting. It has a genuine ivory and black bar- rel, full choke bored automatic shell ejector, top snap back, rebounding hammer, case hardened frame, finely tempered action, straight and strong recoil spring. It is made in 12 gauge and has a 5-inch barrel. We guarantee this gun. Order this gun and get your money back. If you don't find it exactly as described and illustrated you can return it to us and get your money back.

<tr>
<td><strong>You are doubt been prevailing to buy a lawn mower and you're waiting to pick out a suitable one. Here is your chance to have a good one at a very close price and easy term for the blade. The blades of this machine are made of a fine quality of steel. The red spindles are malleable iron, rigidly secured to the steel shaft by case hardened steel set screws. This is the most practical construction. Line wheels, line reel. The courts hardened and especially tempered to a red finish, polishing such a hard surface that unless the framework is intentionally changed the edge will never require adjustment. It runs with perfect ease and is almost noiseless. A wonderful bargain at this low price and is sure to give good satisfaction. Shipping weight, about 5½ pounds.</strong></td>

THE prices quoted herein are the very lowest at which these watches can be sold. That does not mean the lowest credit prices—it means lowest prices, either cash or credit. You may pay all cash for your watch purchase if you prefer to do so, but you will not save a penny by doing so. Our prices are rock bottom. They represent the very narrowest margin at which dependable watches purchased in stupendous quantities at the very lowest cash prices, can be placed in the hands of customers. Therefore, it doesn't make a bit of difference whether you pay all cash or in easy payments to suit your convenience. The price is exactly the same in either case.

WE WISH it to be distinctly understood that every watch sold by us is brand new, direct from the factory. Not a single one is a "rebuilt" watch—not an old watch which has seen service and been tinkered up, put into a case and sold as new. The watch we send you will be one that comes to you exactly as it leaves the factory—brand new and absolutely perfect in every respect.

We ask you to remember that when you buy a watch from us you have the addition of our guarantee to that of the manufacturer, and you take no risk whatever. You could not possibly ask for greater protection.

A LIFETIME REPAIR GUARANTEE

WE GUARANTEE to keep the watch in perfect order, absolutely free of charge, as long as you own it. This means exactly what it says—buying a watch from Hartman means an insurance policy that at any time your watch needs repairs, we will do it for you free of charge. The watches we sell you must give you lifetime service. This is a part of our guarantee. This is an added feature to our Watch Department, exclusive with us. When you purchase a watch from us you are fully protected in every respect.

If you would rather have some other make than the Elgin, Waltham or Rockford tell us what make you wish, we will supply you at rock bottom price on our regular easy credit terms, providing that upon investigation it proves to be a reliable make and one that we can recommend. We are sure, however, that any one of the three makes here featured will please you perfectly, and the wide range of styles, sizes and prices makes possible any selection you may wish.

SENT ON APPROVAL. You may order us to send you any item you wish from this catalog. Send along remittance for the first payment as indicated in printed table on page 1, with the clear understanding that if for any reason you do not care to keep the watch, you are at liberty to return same, and we will exchange it for another watch which you may have. If you decide to keep the watch, then pay the small monthly payment as due. All watches are sent on 30 days' approval test and examination.

HOW TO START AN ACCOUNT. Pick out the goods you want and write your order on one of our printed order blanks. Be sure to mention the price, catalog number, name of the article and catalog page on which it appears, giving any additional information as listed in description. Refer to page 1 which tells you how much money to send with your order, and how to pay the balance. By giving us this information in full we will be able to avoid any possible misunderstanding or delays.

ENGRAVING. Watches illustrated in this catalog with engraved or enamelled monograms, furnished with your initials, without extra cost.

Watches illustrated in this catalog without initials or monograms can be hand engraved as you may desire, providing there is suitable space for the engraving. Prices for various engravings are based upon amount of work necessary and range from 25c to $3.00, according to style and size. To prevent errors print the initials you desire engraved.

ABOUT WATCH CASES. All our 14-karat gold cases are extra fine in quality and pattern. They are better in construction, richer and heavier in gold, finer in every detail of quality and design than any other cases on the market. They are cases any man or woman is proud to own or exhibit—cases that are guaranteed to last a lifetime.

Our gold-filled cases, the 10, 20 and 25 year, are offered in an almost endless variety of fancy engraved designs, Roman, Plain and Polished cases, suitable for fancy initials or elaborate monograms. Stamped in every case is the period of time for which they are guaranteed. If any of these cases do not wear satisfactorily for the full length of time as guaranteed, we will replace the defective case with a brand new one. All our watches are adjusted and regulated before they are sent out to you, assuring time-keeping accuracy and perfect condition when you receive your watch.

CHARGES PREPAID. Whenever possible, we ship watches by express, otherwise by parcel post. We pay the delivery charges on watches and jewelry only. On small purchases (under $5.00) we request cash in full with your order, as we do not open charge accounts for less than $5.00. However, our legal, money-back guarantee remains the same in every case, whether you send cash in full on a small or a large order, or use our convenient credit system. We guarantee safe delivery and will replace any damaged watch with a new one, free of charge.

HOW TO SEND MONEY. The safest and best way to send money is by postoffice money-order, express money-order or bank draft. In any case, these must be made payable to the Hartman Furniture & Carpet Company. C.urrency and coin should ALWAYS be sent by REGISTERED MAIL. We would ask you to kindly avoid sending personal checks. If you live on a R. F. D. route give your money and letter to the rural mail carrier and he will pay a money order for you and send it to us.

NAME AND ADDRESS. Be sure to write your name and address very plainly, giving town, county, state and street. Every address must have a different name from your express office, please mention BOTH. If away from home when ordering, please give permanent as well as temporary address. Women should always prefix their name with Miss or Mrs. (Mrs. using husband's initials) as may be proper. Always write your name in full and the same way each time you write to us.
The New Thin Model watches illustrated on this page are most attractive in style and offer a selection of splendid designs in high grade Gold Filled Cases complete with factory tested and regulated Elgin, Waltham or Rockford movements. At heretofore unheard of prices for these well and favorably known brands of Men's 16-Size Watches. The time keeping accuracy and durability of our watches are GUARANTEED both by ourselves and the Watch Manufacturers. REMEMBER, we offer you the choice of Elgin, Waltham or Rockford watches. When ordering be sure to mention the order the name of movement you desire. Prices are for HUNTING CASES, fitted at the factory with the movements named.

Solid Gold and Gold Filled Bracelet Watches Complete with Expansion Bracelets

Elgin, Waltham & Swiss Movements

Ladies' Wrist Watches shown on this page are choice selections, illustrated in actual size. Bracelet watches are rapidly growing in popular favor. Those we sell and recommend are dependable for time keeping accuracy. The cases and bracelets are guaranteed for wear and satisfactory service both by the makers and by ourselves. We furnish a handsome presentation box with each watch, bracelet, assure safe delivery, and prepare all forwarding charges. See our liberal retail terms on these satisfactory, doubly guaranteed watches, shown on page 1.

9J3138 Bracelet watch complete with Waltham watch. The case, and bracelet are plain, highly polished, gold filled and guaranteed for 20 years actual wear. The movement is impervious to dust and moisture to be a dependable time piece. Wonderful value at our price.

9J3139 Ten year guaranteed Gold Filled Bracelet Watch. Case has colored enamel decorations. Bracelet is expandable and may be detached from watch so that the watch may be worn on chain or on bracelet pin. The movement is impervious and has ten jewels. A perfect combination.

9J3140 Expansible Bracelet Watch. Beautifully finished Gold Filled watch and bracelet bearing an unqualified guarantee of satisfaction from the maker and our enforcement as well. The watch is guaranteed for 20 years. The bracelet is expandable and may be detached so the watch can be worn on a chatelaine pin or on a bracelet, if preferred. You can depend upon the time keeping accuracy of the movement. It has a patented lever escapement and 15 Jewels. No inner watch bracelet can be obtained at the very low price quoted. Order this watch and you will be convinced of having saved money. Price...

9J3141 The smallest dependable bracelet watch we know of that can be guaranteed for actual service. This watch movement has patented lever escapement, 15 Jewels and a record for time keeping accuracy that is hard to be expected in much more expensive watches. The watch is guaranteed for 15 years. Case and bracelet are plain polished Gold Filled. 20 Jewels. Order this watch...

9J3142 Magnificently crafted and finished solid Inlaid colored enamel dial but a fault less of the rich beauty of this elegant 15 Jewel guaranteed watch bracelet. The case is highest quality gold filled guaranteed as described. The bracelet is expandable and will fit any wrist. The movement has 15 Jewels and 10-year guarantee. A fine watch; that watch cannot be had for twice the price.

9J3143 Twenty Year Guaranteed Gold Filled Bracelet Watch. The watch is set at the factory with an Elgin or Waltham 20-Jewel Movement and comes to you with a double guarantee of complete satisfaction. Note the rich engraving on the watch case and bracelet. The case and movement are the genuine beauty of the watch. The movement is planned and the watch worn on a chain or pin as desired. The watch is value of the watch price and our guarantee of satisfaction and the very low price should be convincing that this is the watch you should order. Price only...

9J3145 A fine Elgin of Waltham or Rockford 15 Jewel Movement 10 year guaranteed, expandable bracelet watch. The watch is set at the factory with a 15 Jewel Movement and comes to you with a double guarantee of complete satisfaction. The watch is value of the watch price and our guarantee of satisfaction and the very low price should be convincing that this is the watch you should order. Price only...

How To Select Your Watch

Women never buy men’s watches for themselves, but men frequently make the mistake of buying a lady’s watch for their own use.

Some men say they only want a watch for Sundays. All watches illustrated in our Catalogs are for sale and we want to sell you the kind of watch you prefer but do not buy a “Sunday Watch.” A watch that is not durable enough to have with you every hour of every day in the week is not a good investment, no matter what its price may be.
